

MGMIHS Students feedback and suggestions of online teaching learning

Online classes were started for all the 8 units of both the campuses(Aurangabad and Navi Mumbai) on announcement of the lockdown as per the directives from MGMIHS. Units used different platforms (LMS) to conduct online sessions like G-Suite, Cisco -Webex, ZOOM . There was a great effort from our IT department and faculty. It is appreciable as not many teachers were techno-savvy. Appreciate the students participation for attending the classes regularly as per the schedule by their units. Students were also given assignments online which had to be completed in a particular timeframe.

IQAC wants to take this opportunity to create awareness about the massive open online courses (MOOC) available on various platforms

- 1.Swayam platform provides courses on soft skills and research Methodology (Compulsory for all the PG students)
- 2.One such MOOC that we recommend is Learning How to learn on Coursera.org by Dr Barbara Oakley of Mc Master university.

MGMIHS wants the sincere ,personal feedback from all the students on this new initiative.

Your feedback matters and will guide us in making improvements in the online sessions in the future.
