

WEBINAR REPORT

Topic : Systematic Approach to CBME and NAAC implementation

Date : 22.01.2021

Time : 2:00 to 4:00 pm

Venue : Online on zoom platform

Organized by : CBME Committee, MGMIHS

Organizing Faculty: Dr R.S. Inamdar, Chairman, CBME committee, MGMIHS

Total registration : 490

Total attendance : 322 participants

Event : Invitation to guest speakers & E Brochure Program posted/ sent on - 20.01.2021

- 2:00 pm Welcome by Dr. Bhavana Junagade
 - 2:10 pm Outline of CBME by Dr R.S. Inamdar
 - 2:25 pm Introduction of Guest speaker by Dr. Bhavana Junagade
 - 2:30 pm 1st Guest speaker –
Mr. M. V. Kalidas, Vice President, Inpods India
Topic - CBME implementations
 - 3:10 pm Outline of NAAC by Dr R.S. Inamdar
 - 3:25 pm Introduction of Guest speaker by Dr. Bhavana Junagade
 - 3:30 pm 2nd Guest speaker – Mr. Ajay Bhagwat,
Director, Inpods India
Topic - NAAC accreditation
 - 4:00 pm Question & Answer session
 - 4:10 pm Vote of Thanks by Dr. Bhavana Junagade
- Feedback forms were collected from attendees

Webinar was smoothly conducted on Zoom platform through IT department, Academic section, MGMIHS, Navi Mumbai.

Dr. R. S. Inamdar
Chairman, CBME committee,

University IQAC Activity

Report - Online National Webinar on Curricular aspects of Health Professional Education

Preamble: Curricular aspects is an important part for any educational institution to provide an enriching learning experience for the students. As a health science university, curricular revisions need to be done as per the need of the society to make the students competent to function as a part of the healthcare system. The faculty needs to be trained regarding the curriculum models and ways in enhancing the curriculum.

Organized by: MGMIHS

Venue: Online on Zoom Platform

Date: 19.06.2021

Time : 11.00 am to 1.00 pm

Number of registrations: 438

Number of participants: 222

Event

1. Event flyer was posted and mailed on – 17.06.2021
2. Sequence during event -
 - Anchor, Dr Rita Khadkikar, IQAC coordinator MGMIHS.
 - 11.00am –Opening remarks -Hon'ble Vice Chancellor Dr Shashank Dalvi
 - 11:10am – Curricular Models by Dr. Ravindra S. Inamdar, Chairman Curriculum committee Chairman, CBME Core committee, MGMIHS.
 - 11:300am– Curricular Revision Speech by Dr. Siddharth P. Dubhashi, Professor & Head, Department of Surgery, Dean (SW), Chairperson, Centre of Medical Education and Technology, AIIMS, Nagpur.
 - 11.50am – Curricular Enrichment by Dr. Harsha Halhalli, Director –Curriculum Development, NITTE University, Mangaluru.
 - 12.10pm to 12.30pm- Question and answer discussion by Dr. Rita M Khadkikar and Dr. Swati Shiradkar.
 - 12.30pm to 12.35pm– Vote of Thanks and closing remarks, Dr.Swati Shiradkar, Prof and Head, Obstetrics and Gynecology, MGM Medical College, Aurangabad.
 - Feedback was taken.
 - Received 80 responses.61.3% rated the session as excellent and 33.8% as very good and 5% good.
 - Curricular Models by Dr. Ravindra S. Inamdar, -57.5% rated the session as excellent and 37.5% as very good and 5% good.

- Curricular Revision by Dr. Siddharth P. Dubhashi, 63.7% rated the session as excellent and 28.7% as very good and 6.3% good.
- Curricular Enrichment by Dr. Harsha Halhalli 62.5% rated the session as excellent and 32.5% as very good and 5% good.
- Some Suggestions

Need to conduct such type of workshops frequently.
Would have been much better, if its can be done in person, rather than online.
Such webinar should be taken every year to upgrade teachers awareness about recent developments in curriculum planning.
Webinar for teaching learning methods would help faculty.
More webinars needed.
Pls conduct more session on such interesting topic.
Please upload on YouTube for benefit of faculty who could not attend it online.
Series of seminar on all criteria.
More inputs on how to implement these curricular changes may be given in future such programmes.
Suggestions for conduction Webinar on Programme outcomes mapping.
Can we have more elaborate session on curriculum mapping and planning.

- Certificates were given to the participants and speakers (218).

University IQAC Activity

**Report - Online National Webinar on “Problem based learning” –
Innovative educational strategy**

- **Preamble:** MGMIHS as per the statutory body guidelines has adopted student centric teaching and learning methods. There are many innovative pedagogies which can be implemented for the learner’s benefit. Faculty need to be sensitized and trained regarding the newer methods. Hence university IQAC and curriculum committee took up the initiative of conducting a webinar on one of the teaching learning methods- “Problem based learning”

Organized by: MGMIHS

Venue: Online on Zoom Platform

Date: 08.07.2021

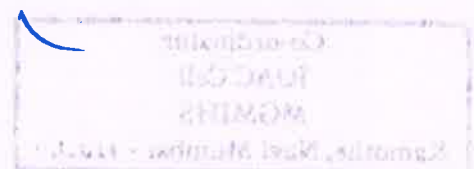

Time : 2:30 to 4 pm

Number of registrations: 418

Number of participants: 244

Event

1. Event flyer was posted and mailed on – 04.07.2021
2. Sequence during event -
 - Anchor, Dr Rita Khadkikar, IQAC coordinator MGMIHS.
 - 2:30 pm – Opening remarks - Hon’ble Vice Chancellor Dr. Shashank Dalvi.
 - 2:35pm – Introduction of the speaker by Dr. Ravindra S. Inamdar, Chairman Curriculum committee MGMIHS.
 - 2:40 pm – Speech by Dr. Shagufta Tahir Mufti Consultant - Histopathology; In charge Hospital Lab Services, ERA University, Lucknow, Course Director & National Resource Person for PBL under the auspices of MEU India and is training senior level faculty across India.

Appreciation	Suggestion or needs improvement
Excellent , very nice, Wonderful, insightful	Audio quality
Session was very helpful for conduction of PBL session	Video of speaker was not there. It would have been more engaging
Good academic session, Informative	Explanation with more examples
It was new for me as we are still trying to implement in our institute. Questions and answers sessions, really helped clear many of the practical difficulties faced during its implementation.	Q&A session should have more time also weren't able connect and ask questions directly so that a technical problem faced.
Nicely arranged , Well organized.	The speaker was not able to differentiate between delivery of case study and problem based learning study. More specific examples needed for its application in teaching -learning process in current institute.
	Would like to attend webinars on teaching skills
	Please organise a workshop with hands on exercise

- Received 192 responses. 58.7% rated the session as excellent and 37.1% as very good and 4.2% good.

- Some Suggestions

Please organise a workshop where faculty can under supervision evolve such teaching strategies
Organize workshop on more CBME related topics such as integration
To check the technical aspects like mike issues beforehand so that excellent learning opportunities
In next webinar, please plan regarding nursing research
Webinars on such imp topics should be conducted more often.
Please arrange more webinar's on different topics
Share slides for all faculty to make use in day to day practice
Please provide the recording of session
Can focus simulation next
Would prefer a continuum of the same in near future.
Should think about MMC Credit hours

- Certificates were given to the participants (192).

Report on Learning Management System – QuikLrn system

Date: 09/06/2021

Venue: MGM School of Physiotherapy, Navi Mumbai.

Attended by: 59 Students of IV BPT regular batch 2020-21 and 10 faculty members

As instructed by the University, MGM School of Physiotherapy, Navi Mumbai completed the trial for QuikLrn learning management system. Ms. Nupoor Jain conducted an orientation and introductory session for all faculty members on 07th May 2021. WhatsApp group was also created for easier resolution of errors and troubles faced by any faculty member. Dr. Hiranmayee Bagwe (PT) coordinated the learning activity in the platform with QuikLrn staff and faculty members of MGM School of Physiotherapy, Navi Mumbai.

The following points were observed in teacher interface of QuikLrn system:

1. The interface is user friendly and easy to comprehend. For some faculty members terminologies seemed like technical jargon for example 'cloud repository'
2. Clear and differentiated segregations were present on the dashboard.
3. Attendance marking was manual and would be great if it is automated process.
4. Live sessions can be recorded. Flexibility to opt out of recording also available.
5. Availability of white board and annotations for students as well as teachers make it more interactive
6. A variety of assessment tools present like quizzes, polls, forums, discussions present
7. Learning material can be uploaded with ease
8. It has a lot of flexibility to format and rename each and every header and description to create chapters according to topics.
9. Screen sharing is good. Occasional lag present while switching to screen share mode. Audio lags occasionally.
10. QuikLrn platform encourages teachers to explore newer and innovative methods of teaching learning.
11. Lecture scheduling and timetable is clearly visible and sends alerts on time.

MGM INSTITUTE OF HEALTH SCIENCES

(Deemed to be University u/s 3 of UGC Act, 1956)

Grade 'A' Accredited by NAAC

MGM SCHOOL OF PHYSIOTHERAPY

Sector-1, Kamothc, Navi Mumbai – 410209

The following points were observed in student interface of QuikLrn system:

1. Students found the interface creative and interesting
2. Students reported they were waiting for content tabs as were shown to them during orientation
3. The feature to add notes to contents and go to revision mode would be extremely helpful and encouraging.
4. Drawback faced by students was there was no mobile application available. They required desktop browser to log into the session
5. Students with low to medium internet speed faced difficult with audio as well as visibility of screen shared content
6. Mute and unmute is easier on video calling applications compared to QuikLrn interface.

QuikLrn support team coordinated by Ms.Nupoor Jain were very active and patient with all our issues and doubts. Multiple sessions were taken in order to orient the faculty with the process. Students were instructed to mail their issues on their support email ID which was resolved immediately.

Regards,

Dr. Hiranmayee Bagwe (PT),
LMS Coordinator,
MGM School of Physiotherapy,
Navi Mumbai.

Faculty Development Program

“Team Building Activity”-Emotional Intelligence

Date	:	14 th July 2021
Venue	:	Conference Hall , MGM School of Physiotherapy Kamothe, Navi Mumbai.
Time	:	02:30 pm- 3:30pm
Meeting Coordinator	:	Dr. Payal Murkudkar (PT)
Attendees	:	All faculty members of MGM School of Physiotherapy Kamothe, Navi Mumbai.

Objectives of Event:

1. To increase awareness about Emotional Intelligence
2. To increase awareness about the benefits of depicting emotions.
3. To discuss the ways to fabricate the work more enjoyable .

Activities of Support Group:

The activity included a brief description, given by Dr. Payal Murkudkar (PT) on Emotional Intelligence. Based on our ability of Emotional Intelligence helps us to understand our and others emotions. Facial expressions play an important part in depicting emotions.

It followed by a game, played by all faculty “Let’s face it”. Every faculty had to pick a shit and depict the emotion written, while rest of the group had to identify the emotion.

Report On Faculty Development Program for Curriculum Mapping

Date: 16th March, 2021

Time: 2.30 – 3.30 pm

Organized by: MGM New Bombay College of Nursing

Venue: MGM New Bombay College of Nursing

Mode: Online webinar on Google meet

Speakers:

1. Dr. (Mrs) Prabha Dasila
2. Dr. (Mrs) R. Ponchitra

Attendees:

1. Dr. Bela Agarwal (PT)
2. Dr. Tejashree Dabholkar
3. Dr. Shrutika Parab (PT)
4. Dr. Rucha Pradhan (PT)
5. Dr. Diksha Basu (PT)

Summary:

In context with the Criteria I meeting conducted on 16th March 2021 at MGMIHS, curriculum mapping was to be performed as a part of NAAC Criteria I.

An online webinar was conducted on curriculum mapping by Dr. (Mrs) Prabha Dasila (Professor-Director) and Dr. (Mrs) R. Ponchitra (Professor & Vice- principal) on 16th March 2021 via Google meet platform. The procedure of correlation of program outcomes and course outcomes was explained.

Curriculum mapping strength was described in detail based on the correlation of program and course outcomes and hours allotted to each unit of course in the respective program. The level of mapping strength to be calculated based on the percentage of hours allotted was explained.

Mapping of each course in the curriculum was to be formulated and analysed for respective program. An example of mapping was explained through powerpoint presentation for courses in Nursing program. Doubt solving session was conducted related to curriculum mapping was conducted at the end.

Conference Theme - Pain: Integrating Envision, Empathy, and Empowerment

Pain is complex; Pain is multifaceted;
Pain is highly volatile; Pain is multidimensional;
Pain is a mystery & challenge to the clinicians, and
Hence an effective pain care should be multidisciplinary!

MGM Physiotherapy Rehabilitation & Fitness Centre, Aurangabad brings you a virtual conference in a seamless experience, to bridge the gap between pain and relief, busting common myths of pain, better understanding of pain neurobiology and neurophysiology from a team of multidisciplinary healthcare professionals across the globe.

Join us in MGM

Pain Conference 2021

*Not-to-be-missed Educational Conference for all
Clinicians / Academicians / Researchers Working in Health Care.*

05th & 06th March, 2021 | 10.00 AM to 05.00 PM

Conference Highlights

- More than 15+ hours of virtual plenary sessions with the most up-to-date scientific informative sessions on Pain
- Cutting-edge technology sessions connecting the speakers and participants on a digital platform
- Sessions with multidisciplinary approaches to understand and manage pain
- International & national frontline pain practitioners & path-breaking pain researchers as speakers / resource persons

and faculty in educational institutes. He elaborated that last year the role of Institution Innovation Council was to introduce about “Innovation” but this year the role is bigger that is, involvement of students in Entrepreneurship, Funding and Intellectual Property rights related things. The purpose of Institution Innovation Council is to sensitise and propagate faculty members to work with students in such a way that the Universities should take it forward to higher level. He explained with various examples that Story telling is an effective way of journey of telling success and can inspire students for invention and innovation.

The Program was continued with Ganesh Vandana, a classical performance by a IIIBPO student.

Dr. Shashank D. Dalvi, Honourable Vice chancellor of MGM Institute of Health Sciences in his address to dignitaries, gave thrust on the concept of Entrepreneurship in the field of Prosthetics & Orthotics and how the success story of the famous Entrepreneur can motivate students for Start-Up programs and ultimately produce quality P&O Professionals.

Dr. Uttara Deshmukh, Head of the Department, Department of Prosthetics and Orthotics continued the Program with induction of Entrepreneur, Entrepreneurship and it's significance in the field of Prosthetics and Orthotics by introducing Dr. Mukesh Doshi (P&O), Chief Guest of the Program and his noble work in the field of Prosthetics and Orthotics.

Dr. Mukesh Doshi, in his interactive session, motivated students and attendees with various examples of his own journey of life. He motivated the students in following aspects:

1. Bigger thinking,
2. If one can't find the way, should create it.
3. Aim for big dreams.
4. One should work for working out the ideas.
5. How to maintain the relationships with colleagues.
6. One should good for others, which comes back to that person in an unexpected way.
7. Always learn from your mistakes, they increase the experience.
8. Always keep a good character which is an essential for being a good entrepreneur.
9. Always keep trying new things. Don't be afraid to try the new things.
10. Always be productive. Encourage instead of criticising.
11. Learn to become a good listener.
12. Learn to respect everyone.
13. Fight for your strengths. Because true success lies in your efforts.
14. Implementation of “Forget and forgive”
15. Don't think of only yourself. Think about all in your Ora.
16. Entrepreneurship is a team work.
17. Always keep good attitude.

Ltd on 28th January 2021 at MGMIUDPO.

The program was stated with warm welcome to the members of Metafix by Dr. Uttara Deshmukh (P&O), Principal, MGMIUDPO. After the introduction, Mr. **Salman Shaikh** demonstrated the 3D Printing technology, it's function and benefits to students via live formation of a Demo model, also he told about the future of P&O field relate to the 3D Printing Technology.

Then Ms. Depali Kant in the interaction with students, solved all the doubts and gave solution to their queries related to this technology.

Lastly they gave a beautiful gift to the department, produced by 3D Printing Technology which was an amazing experience for all.

The students and faculties of MGMIUDPO benefited by upgrading their knowledge through the Workshop.

Date: 21th July, 2021

Demonstration of Myo Box & Myoelectric Prosthesis.

Agenda: To upgrade the knowledge about Myoelectric Technology in the Prosthetics.

This is to inform all the Students that, MGM Institute's University Department of Prosthetics & Orthotics is organizing a workshop on Myo-Box & Myoelectric Prosthesis on 22nd July 2021.

The Details are as follows:

1. **Date:** 22nd July 2021, Tuesday
2. **Time:** 2.00 PM to 4.00 PM
3. **Venue:** Prosthetics Lab, MGM Department of Prosthetics & Orthotics.

Note: It is essential to be aware about the Technology of Myoelectric Prosthesis.

Hence, students are informed to join this program compulsory.

Report of MyoBox & Myoelectric Prosthesis Technology Demonstration **Workshop**

Name of the event: "Demonstration of MyoBox & Myoelectric Prosthesis".

Purpose of the event: 1. To demonstrate Practical knowledge of Myoelectric Prosthesis Technology.
2. To educate students about the future prospect of Myoelectric Prosthesis technology in the field of Prosthetics and Orthotics

Location of the event: Prosthetics Lab, MGM Department of Prosthetics & Orthotics.

Date of the event: Date: 22nd July 2021
Time: 02.00AM TO 04.00 PM

No of attendees: 23 Students, 5 Faculties of MGMIUDPO

PROCEEDINGS OF THE EVENT:

Myoelectric Prosthetic technology is the most advanced, useful and demanding technology for the rehabilitation of Upper Limb Prosthetic management. To develop the academic industrial relationship, MGM Institute's University Department of Prosthetics & Orthotics organized a half-day workshop on "MyoBox & Myoelectric Prosthesis Technology" in association with Motorica India Pvt. Ltd on 22nd July 2021 at MGMIUDPO.

The program was started with warm welcome of Mr. **Nabil Ahmed, Head of India (Operation), Motorica Pvt Ltd, India** and explanation about the theme of the program to the students by Dr. Uttara Deshmukh (P&O), Incharge-Principal, MGM Institute's University Department of Prosthetics & Orthotics. The program was continued with **demonstration by Mr. Nabil**. He proceeded with the demonstration of Myoelectric Prosthesis's function and its working mechanism. Later he demonstrated the procedure of finding a proper place to insert the electrodes on the body for positioning sensors of Myoelectric Prosthesis with the help of Electromyogram.

After the demonstration the students interacted with him, he solved all the doubts and gave solution to their queries related to this technology.

All students practised for the learnt technology within them which was an amazing experience for them.

The students and faculties benefited by upgrading their knowledge through this Workshop.

Report of Workshop of Myoelectric Technology at MGMIUDPO

Name of the event: CRE on “MYO-ELECTRIC INDY PROSTHESIS”

Purpose:

1. To educate Prosthetists, Orthotists and Students about fitting of Advanced Myoelectric Prosthesis”.
2. To demonstrate the Practical knowledge of fitment of Myoelectric Prosthesis over patient.

Location: Seminar hall, MGM Hospital, Academic Building, MGMIUDPO, Kamothe, Navi Mumbai.

Date and time of the event: Date: August 13th, 2019
Time: 9:00 am to 5:00pm.

No. of attendees: 26th Dignitaries & 45 Students

Details of the event:

The students and the professionals were benefited by all the following topics in the CRE-

1. Trans-radial amputation & Orthopaedic intervention (Common cause of Amputation in India and Cases of Amputation in India. by- Dr. Anil Khandekar & Dr.Manisha Shabharkar
2. Demonstration of Casting, Pouring, Modification & Molding of check socket & fabrication of inner & outer socket and assembly of Prosthetic kit & trial over patient & training by Mr. Oleg, Head Prosthetist, Motorica Moscow.
3. Traditional sockets & technology fitting in Trans-radial Prosthesis by Dr.Uttara Deshmukh.
4. Evidence based Practice in advanced Technology of Trans-radial Prosthesis.by Dr. Pankaj Sinha.
5. Alternatives for Myo Electrical –different advanced solutions offered at Moscow,CYBI, Manifesto by Mr.Evgeny, Mr Vasily, Mr.Nabil of Motorica Moscow.
6. Mr. Mahendra Pitale, Brand ambassador of Motorica India shared his experience Post Amputation Journey with all dignitaries.

Overall the Experience of C.R.E is Excellent for all delegates & Students in Two Days.

IMPORATANCE OF INTELLECTUAL PROPERTY RIGHTS (IPR) FOR SUCCESSFUL START-UP

Name of the event: "Importance of IPR for Successful start-up "

Purpose: To create awareness about the IPR among students for successful Start-up.

Mode of the Event: Via Google meet Online Video Call Platform.

Date of the Event: 31st August 2021,

Time of the Event - 04.00 PM- 06.00 PM

No. of participants - 24 (21 Students, 3 Faculty)

Proceedings of the event:

The event was started with warm welcome to all delegates including Dignitaries, all students & faculty of MGMIUDPO and the chief guest of the programme Dr. Akshay Chavan, who is a gold medallist and founder of Kling Bionics by Dr. Uttara Deshmukh, Head of the Department, Department of Prosthetics and Orthotics.

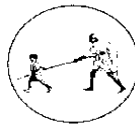

She revealed the structure of the programme for the day and gave introduction about Intellectual Property Rights (IPR).

Dr. Akshay Chavan, in his interactive session, motivated students and attendees with various real life examples for why there is need for IPR. He formed four groups and Performed an activity.

He motivated the students in following aspects:

1. What is Intellectual Property and Intellectual Property rights?
2. Various types of Intellectual Property Rights.
3. All kinds of IPRs and their's territorial rights.
4. Why should Start-up's Intellectual rights be protected?
5. What is Copy Right and about Copy Right Acts.
6. What is Trademark?
7. About Geographical Indication of Various things.

After the mentoring session, all students & dignitaries had their doubts clearance with the chief guest of the program. This was very much beneficial to all as it was conducted by very interesting activity. All students were asked to imagine a start-up of their own product. They were given 5 minutes' time to think. Students explained about their start-up ideas and products as they were going to be innovate.

The screenshot shows a Google Meet interface. The main slide is titled "GEOGRAPHICAL INDICATION" and contains the following text: "Geographical indication of goods Act 1999, Amended In 2006 DIPP, Ministry Of Commerce And Industry". It lists three points: 1. Geographical Indication (GI) means an indication of goods as originating, produced, processed or prepared in a specific geographical area or territory of a country, where a given quality, reputation or other characteristics of such goods are essentially attributable to its geographical origin. 2. The word Indication according to the GI of Goods Act means any name, geographical or figurative representation or any combination thereof conveying or suggesting the geographical origin of the goods to which it applies. 3. Goods may include agricultural, natural, or manufactured goods. Below the text are images of the German flag, a Darjeeling tea logo, and oranges. The meeting controls at the bottom show the time as 17:13 and the meeting ID as eqi-heyi-uwa. The browser tabs include "Inbox (1,299)", "Google Account", "Meet - eqi-h...", "add.google.acco...", "MGM", "New Tab", and "WhatsApp".

The screenshot shows a Google Meet interface. The main slide is titled "TRADEMARK" and contains the following text: "A trademark is a sign capable of distinguishing the goods or services of one enterprise from those of other enterprises. Trademarks are protected by intellectual property rights. Any Name which is not unusual for trade to adopt as mark TRADEMARKS, Device or Symbol or Monogram, Shape of goods or their packing, Combination of colors or even a single color in combination with word or device Trademark registration will confer an exclusive right to the use of the registered trademark. This implies that the trademark can be exclusively used by its owner, or licensed to another party for use in return for payment. Registration provides legal certainty and reinforces the position of the right holder, Trademark ACT 1999, Amended In 2006 DIPP, Ministry Of Commerce And Industry". Below the text are images of the Coca-Cola logo, the ÖSSUR logo (with the tagline "LIFE WITHOUT LIMITATIONS"), and the Ottobock logo (with the tagline "QUALITY FOR LIFE"). The meeting controls at the bottom show the time as 16:58 and the meeting ID as eqi-heyi-uwa. 20-4-2021 & 21-4-2021.

AIM

The webinar focuses to enlighten the basic & advanced Pharmacology for the Nurse Practitioners to manage critically ill patients in collaboration with health care team

OBJECTIVES

- To introduce the basics of pharmacokinetics & pharmacodynamics
- To enhance clinical skills in managing emerging diseases
- To enforce the working capability based on standing orders in Critical Care Units
- To discuss on updates of medical management in critical conditions
- To discuss on safe handling of narcotic drugs
- To highlight on simulation-based training in clinical pharmacology

PARTICIPANTS

Total 1389 participants registered. There were Nurse Practitioners, NPCC students, M.Sc. Nursing Students, Clinical Nursing professionals and teaching faculty of various colleges and Hospitals.

International Webinar

Simplified and Applied Pharmacology for Nurse Practitioners

Dated - 20-4-2021 & 21-4-2021.

Proceedings

Day One - 20-4-2021.

The Programme started by the moderator, Dr. Mrs. Sindhu Thomas, Assistant Professor at 10.00 AM with a warm welcome to all the Panelists and the participants who were present virtually on the first day of the webinar. The welcome address was delivered by Dr. R. Ponchitra, Professor and Vice Principal at the inaugural session.

Dr. Shashank Dalvi, Hon. Vice Chancellor, MGMIHS welcomed Dr. T. Dileep Kumar, President, Indian Nursing Council, New Delhi and addressed the participants with his key note address. He emphasized on the importance of Pharmacology and Pharmacokinetics at the critical care settings for Nurse Practitioners. He also appreciated the successful implementation of Nurse Practitioner in Critical Care Programme at MGMIHS.

Dr. T. Dileep Kumar, President, Indian Nursing Council in his address highlighted the key role of Nursing Professionals in the current COVID-19 Pandemic situation. The nursing frontline workers made the humanity to understand its significance. He also said that, to make the Nursing Profession more visible the INC started Nurse Practitioner Programme in 2017 in India. It is in an infancy stage when compared to the Western Countries like USA, UK.... etc. He said that there are two pioneer institutes in Maharashtra who started the NPCC Programme in India; one among them is MGM New Bombay College of Nursing, Kamothe, Navi Mumbai. Nurse Practitioners need to work hard to demonstrate their skills in providing outstanding care to their patients. He also proposed for the future implementation of Doctor of Nurse Practitioner Programme which is in the pipeline.

Opening of the theme was unfolded by Dr. Prabha. K. Dasila, Professor and Director, MGM New Bombay College of Nursing gave a brief description of starting Nurse Practitioner Programme at MGM New Bombay College of Nursing. She appreciated the team efforts of dedicated doctors as Core Committee members who are actively involved in shaping the Nurse Practitioner Programme at MGM. Dr. Dasila also informed regarding various SOP's prepared for NP's working in the critical care areas of MGM.

Unfolding the Theme

Good Morning

Hon. Vice Chancellor - Dr. Shashank Dalvi

Hon. Medical Director - Dr. S.N Kadam

Hon Pro- Vice Chancellor – Dr. NN Kadam

Dr. Dileep Kumar, President Indian Nursing Council, **Chief Guest,**

Dr. R. B. Goel, Registrar MGMIHS

Dr. GS. Narshetty, Dean MGM Medical College

Dr. KR Salgotra, MS, MGM Hospital Kamothe,

At the opening of this webinar, I would like to express my most profound gratitude to our management for their support in organizing this webinar.

It's my proud privilege to introduce the theme of the webinar organized by MGM New Bombay College of Nursing on 20th and 21st April 2021. **I thank** our Vice Chancellor Dr. Shashank Dalvi & Dr. Dileep Kumar, President Indian Nursing Council for accepting our invitation and to deliver the keynote address.

I am delighted to acknowledge the presence of all resource persons from our own MGM Medical College & Hospital, Navi Mumbai, Dr Jesuram Jacob from Believer's Church Medical College Kerala and two experienced Nurse Practitioners from USA.. Mrs Sheelamma Thomas from North well System Physicians Partner, New York, and Mrs Jasmine Emmanuel from Edward Hines, Jr. VA Hospital Chicago

The Indian Nursing council in 2017 introduced the path breaking competency- based Nurse Practitioner Programmes in India. In response MGM NBCON started the NPCC programme wef 15 Nov 2017.

In the beginning years training of NPCC students could be challenging, as the nursing faculty trained to suit the requirement of NPCC programme are not available. The training solely rests on a dedicated team of Medical Professionals with whom the NPCC students work intensely to get in-depth knowledge and practice skills.

At MGM, we are blessed to have a very committed team of doctors who are actively involved in training of NP students and our Medical Director, Dr. S.N. Kadam who is very liberal in providing all the support to train these students. Currently we have 6 NPs who are recruited in our ICU soon after completion of their course. **I would say....** The NPs at our institute are in demand.

The Nurse Practitioner education programme have been imparted in the US, UK, Australia and Netherlands for last several decades. It was first originated in the USA in late 1960s

The concept of Nurse Practitioner in India is just in its infancy stage. We all will have to really work hard to get the NPs accepted and recognized in all the public and private sectors. We are still awaiting some legal documents from Government of India, pertaining to scope of practice of our NPs working in Critical areas.

Although we have the SOPs and protocols prepared for the NPs to practice in Critical Care Units, we still have to take help from our friends working in western countries where NP programme is well established. They have well defined roles and responsibilities; they autonomously diagnose order and interpret diagnostic tests prescribe medications and perform specific procedures within their scope of practice.

Administration of medications is one of the primary and most important responsibilities of a nurse. It is extremely important that a nurse administers safe and accurate medicines to the patients who are under her/his care.

Nurses are mostly the final person to check and see that the medications are correctly prescribed and dispensed before administration. Although drugs are routinely prescribed to the patients as primary means of therapy for the treatment of health problems but they also cause potential problems if not administered with cautions. These problems could arise from unintended consequences as well as medication errors. In a research study it was found that most common type of error was drug overdose. Second most common type of error was administering the wrong drug to the patient.

Five rights of medication administration are emphasized and made extremely important during the training of nursing students at UG level itself. The students receive adequate instructions and reinforcements regarding upholding of patient safety and about 5 Rights of Medication Administration (**right patient, the right drug, the right dose, the right route, and the right time**) by their teachers. Now considering various factors, more **Right** have been added;

1. Right documentation
2. Right medication for prescription
3. Right patient response
4. Right form of administration within a given route.

Cook et al 2006.. The essential environment condition conducive to safe medication practices which includes;

1. The right to complete and clearly written orders that clearly specify the drug, dose, route and frequency. (**Legible Orders**)
2. The right to have the correct drug route and dose dispense from pharmacy. (**Correct Dispensing**)
3. The right to have access to drug information. (**Timely access to information**)
4. The right to have policies on safe medication administration.
5. The right to administer medication safely and to identify problems in the system.
6. The right to stop think, think and be vigilant when administer medications.

To do so the nurse NP should be knowledgeable and thorough with the drugs prescribed routinely, new drugs, With emergence of novel infections (Current Pandemic), Novel drugs and Vaccines are in use for the patients infected. Nurses need more information and scientific knowledge in this area emerging area.

Medication administration being one of the major areas of concern, MGM New Bombay College of Nursing planned to organize this webinar titled;

Theme : Simplified and Applied Pharmacology for Nurse Practitioners

Day 1 - Moderator: Dr. Sindhu Thomas, Assistant Professor

Session 1 - Introduction to Pharmacology: **Dr. Santosh Gursale** Professor, Dept. of Pharmacology, MGM Medical College, Kamothe, Navi Mumbai.

Session-2 –International Speaker - Leadership in management of medications in ICU : **Ms. Jasmine Emmanuel**, Nurse Practitioner Edward Hines, Jr. VA Hospital Chicago, USA

Session-3 - Emerging Diseases: A discussion of New & Upcoming Infections : **Dr. Sagar Sinha** Professor, Dept.of Emergency Medicine, MGM Medical College Hospital, Kamothe, Navi Mumbai

Session-4 - Medication Safety in Administration of Drugs in Critical Care Units : **Dr. (Lt. Gen) K.R. Salgotra**, Hospital Director, MGM Medical College Hospital, Kamothe Navi Mumbai.

Session-5 - Reflections from Novice Nurse Practitioners : **Mrs. Sreedevi P.S.** Nurse Practitioner, Critical Care, MGM Medical College Hospital, Navi Mumbai. To share her experience

Conclusion Summary Day – 1 & Day 2- Mrs. Susan Jacob

Day Two - Moderator: Ferganzia Jubilson, Assistant Professor

Session -1 - International Speaker - Role of Nurse Practitioner in administering drugs in Critical Care: Mrs Sheelamma Thomas (NP) North well system Physicians partner, Gastroenterology, New York, USA.

Session -2 - A Pharmacological Update in the Management of MI - Dr. Shilpa Kadam Professor, Dept. of Cardiology MGM Medical College Hospital, Kamothe, Navi Mumbai.

Session -3 - Safe Opioids Administration: How, When and When Not to Administer? - Dr. Jacob Jesurun Professor & HOD, Dept. of Pharmacology Believer's Church Medical College Hospital, Kerala.

Session - 4 - Novel Anticoagulants - Dr. Pradeep Jadhav, Professor, Dept. of Pharmacology MGM Medical College, Kamothe Navi Mumbai.

Session - 5 - Trends in Pharmacovigilance in the era of COVID-19 Pandemic - Dr. Deepanjana Dass, Assistant Professor, Dept.of Pharmacology, MGM Medical College, Navi Mumbai.

Session -6 - End of Life Care: Pain and Symptom Management - Dr. Suchet Avanti, Assistant Professor, Dept.of Emergency Medicine, MGM Medical College Hospital, Navi Mumbai

Session-7 - Simulation Based Training: Application in Clinical Pharmacology - Dr.Vishwas Sathe Professor, Dept. of Anaesthesia, MGM Medical College Hospital, Navi Mumbai

Conclusion Summary Day - 1 & Day 2- Mrs. Susan Jacob

Valedictory - Mrs. Sarika Nair

Total 1389 registrations are received from the participants from different parts of the country for the webinar.

I hope the deliberations from distinguished speakers will provide fruitful experience to all the participants.

Thank You

Scientific Sessions - Day One - 20-4-2021.

Session 1: Introduction to Pharmacology delivered by Dr. Santosh Gursale, Assistant Professor, Department of Pharmacology who gave a detailed description on the Origin of drugs, introduction to drugs, definition of the drug, Drug information sources, Nature and source of drugs and drug nomenclature. He also explained a detailed description on pharmacokinetics and pharmacodynamics.

Session 2: Leadership in Management of Medications in ICU by Ms. Jasmine Emmanuel, Nurse Practitioner from Chicago (USA) who spoke various roles and responsibilities of Nurse Practitioners in Critical Care. She emphasized that Nurse do Prescribe the drugs as per the SOP'S of each Organization. The primary role in critical care unit is regard to electrolyte replacement is the first priority. She discussed about various drugs used in Surgical ICU like Opioids, Narcotic pain management, Non-narcotic pain management, vasopressors, Cardiac drugs etc. She enlightened about the vital role of NP'S in the Critical Care Unit in USA.

She concluded the session by quoting, Nurses are at heart of a world -class, patient centered standard of care. Day in and Day out, they go the extra mile to make a lasting differences in the lives of the patients and their families.

Session 3: Emerging Diseases: A discussion of New and Upcoming Infections by Dr. Sagar Sinha, Professor from Department of Emergency Medicine, MGM Medical College & Hospital, Kamothe. He has given a detailed explanation of various infectious diseases which has emerged in the past and as we are facing today is COVID 19 is very miniature, when we compare with the other past infectious diseases which has emerged.

He discussed various institutional SOP'S used for the treatment of respiratory illness as the principles are the same. Newly emerging, reemerging, resurging and deliberately emerging diseases which includes Bioterrorism was discussed. Environment, animal and Vectors are responsible for the emerging Infectious disease.

He concluded by saying that we need to be prepared for any disaster which is due to Microbial host and lack of judicious use of appropriate drugs.

Session 4: Medication safety in Administration of drugs in Critical Care Units by Dr. (Lt. Gen) K.R. Salgotra, Hospital Director of MGM Medical College & Hospital, Kamothe. He said medication error is one of the major adverse events considering patient safety. He said in USA as per the statistics from research studies 25 lakh people die every year due to medication error and in India 50 lakh people die every year.

Dr. Salgotra discussed on various contributing factors of medication errors and explained in detail how can the prescribing go wrong due to inadequate knowledge about drug indication and contraindications, not considering individual patient factors such as allergies, co-morbidities, wrong patient, dose, time, route, inadequate communication, documentation and mathematical error etc. He highlighted on Look-alike and sound -a-like medications. He concluded the session by saying medications need to be wisely and correctly used which can prevent human suffering and unnecessary financial cost.

Session 5: Reflections from Novice Nurse Practitioner Mrs. Sreedevi P.S who is an Alumni Nurse Practitioner of MGMNBCON and presently working as Nurse Practitioner in Critical Care unit of MGM Medical College & Hospital Kamothe Navi Mumbai. She recalled Nursing Profession in the past, present and future. She reflected her own journey as a staff nurse, senior staff nurse and today as a full-fledged Nurse Practitioner at MGM Medical College Hospital since one year. She described about the experiences acquired during two years of Nurse Practitioner Programme from 2017-2019 which was an intensive training in the critical care units, learning by observation and doing advanced procedures under the preceptor ship of Intensivists, senior residents as well as junior residents was remarkable which helped them to acquire competence and confidence in doing advanced procedures independently. She extended her heartfelt thanks to the management for starting such an outstanding competency based Nursing Programme.

Conclusion of the session was done by Mrs. Susan Jacob, Professor MGM New Bombay College of Nursing by 1.05 -1.15 p.m.

Scientific Sessions - Day Two - 21-4-2021.

The programme started at 9.50 A.M and was moderated by Mrs.Ferganzia Jubilson, Assistant Professor MGM New Bombay College of Nursing, Kamothe.

Dr. Prabha. K. Dasila, Professor and Director, MGM New Bombay College of Nursing gave a warm welcome to all the panelist and participants.

Session1: Role of Nurse Practitioner in administering drugs in Critical Care was delivered by Mrs. Sheelamma Thomas, Nurse Practitioner in Gastroenterology, New York, USA, explained about her personal Development and experience as a Nurse Practitioner in Gastroenterology for the past 10 years. She emphasized on the duties and responsibilities of Nurse Practitioner which includes conducting basic examination, advanced assessment, doing advanced procedures, making critical decision making in the critical care etc. She discussed common medications used in the critical care, various role of Nurse Practitioner like monitoring of patients like change in vital signs, fluid balance, alertness or orientation, side effect and desired effect of medication and monitoring injection site. She briefed about various protocols for drug administration, drug -drug interactions etc. She concluded the discussion about colorectal screening which is of paramount importance for people aged above 45 years old is made mandatory to prevent Colorectal cancer in USA to reduce the risk of Colorectal cancer.

Session 2: A Pharmacological Update in the Management of MI Dr. Shilpa Kadam, Professor in Dept of Cardiology MGM Medical College Hospital explained that the heart disease is the biggest killer in India. She explained about various causes of leading cardiac risk factors, types of MI, MINOCA etc.

She discussed about golden hour of MI, routine treatment for a patient with MI which includes first priority is Oxygenation, Nitroglycerine and Morphine Sulphate. She discussed on various fibrinolytic agents, Beta blockers, Use of Low molecular weight Heparin used in MI.

Session 3: Safe Opioids Administration: How, When and When Not to Administer? Dr. Jacob Jesurun Professor & HOD, Dept. of Pharmacology Believer's Church Medical College Hospital, Kerala highlighted on the topic. He discussed in detail about various types of Opioids used in Critical Care, Mechanism of action of Opioids, and its contraindications and complications. He summarized that Opioids are used in severe pain, cough suppression and diarrhoea and highlighted 10 tips on safe opioid administration.

Session 4: Novel Anticoagulants was dealt by Dr. Pradeep Jadhav Professor, Dept. of Pharmacology, MGM Medical College, Kamothe Navi Mumbai. He discussed on the properties of an ideal anticoagulant and emphasized mainly on four novel anticoagulants including apixaban, dabigatran, rivaroxaban and edoxaban which are used as an alternative to warfarin which is used for high risk patients. He explained its advantages and disadvantages, drug interactions and complications.

Session 5: Trends in Pharmacovigilance in the era of COVID 19 Pandemic

Dr. Deepanjana Dass Assistant Professor, Dept. of Pharmacology, MGM Medical College, Navi Mumbai elaborated on the topic where, she highlighted the meaning of pharmacovigilance which is the science and activities relating to the detection, assessment, understanding and prevention of adverse effects or any other drug related problems. She stressed on the main focus of pharmacovigilance is on Adverse drug reactions, drug toxicity and highlighted on the key areas of pharmacovigilance which includes National drug policy, Drug regulation, Clinical Practice, Public health Programme and Benefits from dedicated Pharmacovigilance resources. She Concluded by explaining six biggest trends in pharmacovigilance which consists of role of pharmacovigilance in the pandemic of this magnitude, Artificial intelligence in adverse Drug Reaction processing in the era of COVID19 Pandemic, Machine Learning Algorithm used in drug safety and ensure administering drugs, New challenges in drug safety, monitoring the safety of biological medicines and gene therapy.

Session 6 : End of Life Care: Pain and Symptom Management was delivered by Dr. Sucheet Avanti, Assistant Professor, Dept. of Emergency Medicine, MGM Medical College & Hospital, Kamothe, Navi Mumbai. He stressed on Pain management, discussed about the use of opioids on pain management. He discussed on the importance of palliative sedation on Palliative care and hospice care. He also stressed on the Basics of Pain Management by using pain scale, WHO pain ladder etc.

Session 7: Simulation Based Training: Application in Clinical Pharmacology was dealt by Dr. Vishwas Sathe Professor, Department of Anaesthesia, MGM Medical College & Hospital, Navi Mumbai. He discussed on Simulation as a method of training and highlighted the role of simulation in health professional education, He concluded that simulation has significant potential to address the challenges in today's provision of clinical pharmacology education, especially with new directives for social distancing and limitations for in-personal engagement.

Conclusion of the session was done by Mrs. Susan Jacob, Professor, MGM New Bombay College of Nursing, Kamothe by 1.05 pm -1.15 p.m.

Valedictory function was done by Mrs. Sarika Nair Tutor, MGM New Bombay College of Nursing, Kamothe by 1.15 pm to 1.30 p.m.

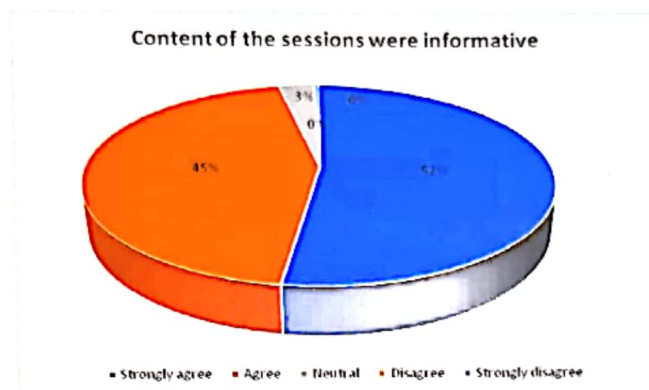

Report of the International Webinar

Simplified and Applied Pharmacology for Nurse Practitioners

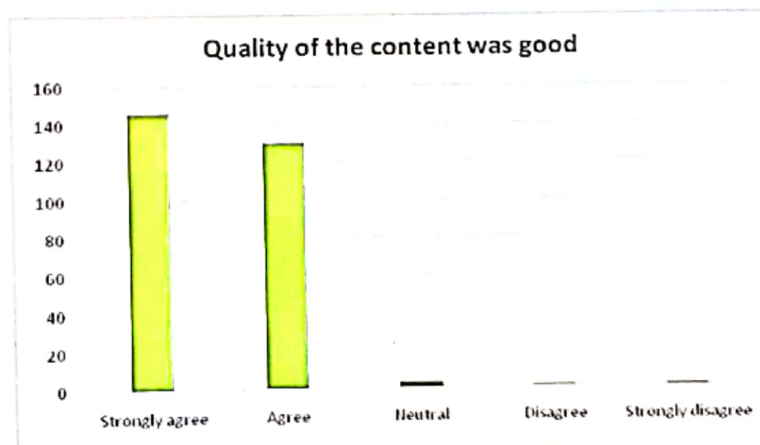

20-4-2021 & 21-4-2021.

Feed Back Analysis

The Webinar was attended by 1368 participants. Feedback was obtain from 260 participants. The feedback was obtain on a 5 point Likert scale, with highest score (5) indicating as strongly agree and lowest score (1) strongly disagree.

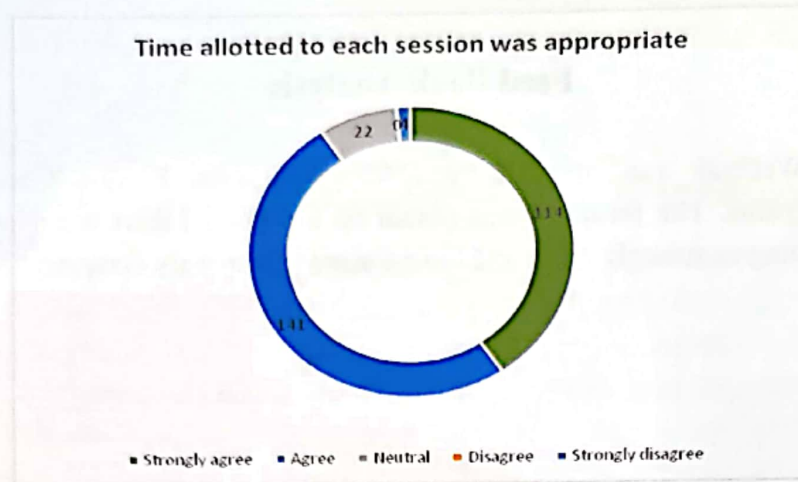

Majority of participants (45%) strongly agreed regarding the content of the session were informative.

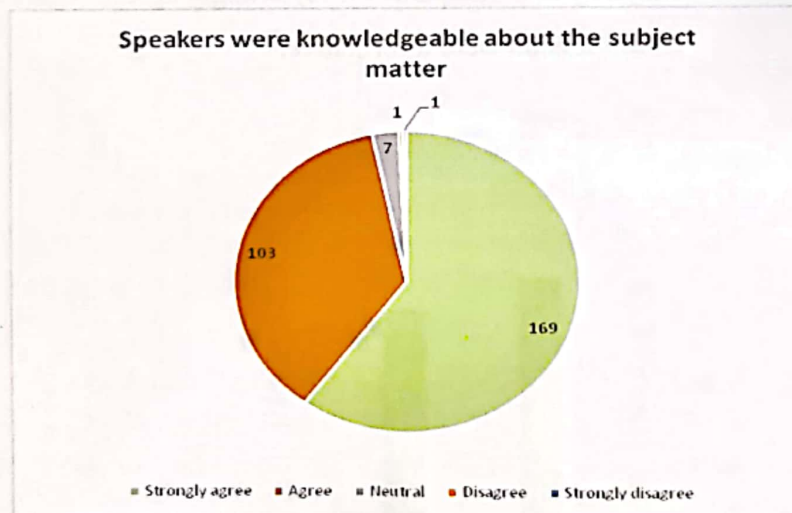

Majority of participants (140) strongly agreed related to the quality of the content was good

Feed Back Analysis

Majority of participants (141) agreed the time allotment given to each session was appropriate.

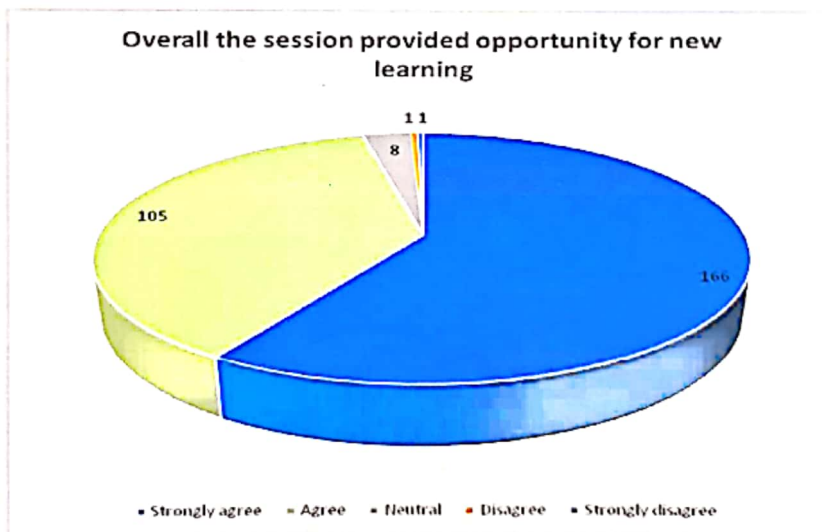

Majority of participants (169) strongly agreed Speakers were knowledgeable about the subject matter.

Feed Back Analysis

Majority of participants (156) strongly agreed with the experience shared by the experts will be useful for the practice.

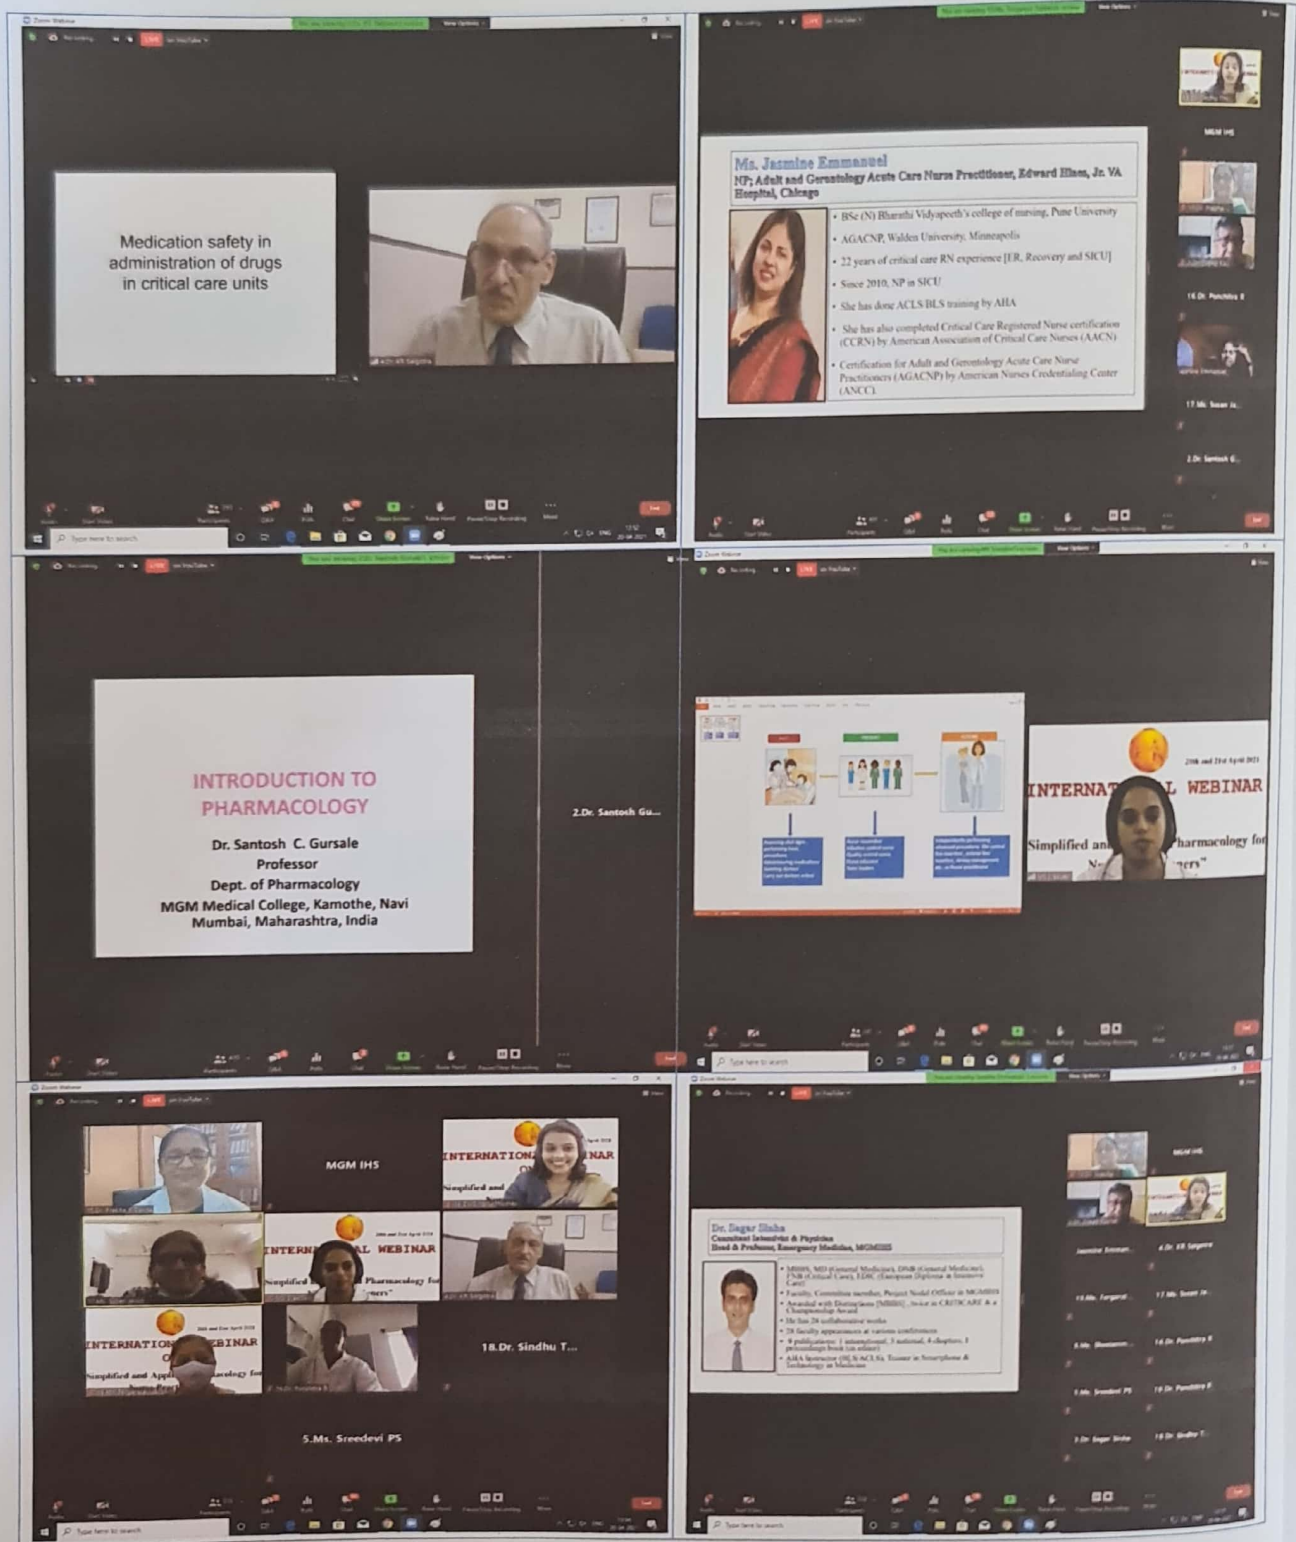

Majority of participants (166) strongly agreed regarding over all session provided opportunity for new Learning.

Report of the International Webinar

Simplified and Applied Pharmacology for Nurse Practitioners

20-4-2021 & 21-4-2021.

Glimpse of the webinar

Day Two - 21st April 2021

Opioid Analgesics

- Compounds derived from Opium.
- Opium - A dark brown, resinous material obtained from poppy (*Papaver somniferum*) capsule.
- Used for medicinal and recreational purposes dates back to thousands of years.

Mrs. Shreelamma Thomas (NP)
Northwell system Physicians partner
Gastroenterology

- 2017 - Present Adult Nurse Practitioner Gastroenterology Physician Partner, NY
- 2014 - 2017 Adult Nurse Practitioner In Patient Medicine Attending Director Service, NY
- 2013 - 2014 Adult Nurse Practitioner Out Patient Management & Heart Failure Program - North Shore University Hospital Manhasset, NY
- 2011-2012 Adult Nurse Practitioner in Nephrology, NY
- 2008 - 2011 Adult Nurse Practitioner in Gastroenterology and Hepatology, NY
- Registered Critical Care Nurse 1991 - 2008 New Hyde Park, NY
- Registered Nurse 1986 - 1990 Deep Dale General Hospital, Little Neck, NY
- BSN in Pediatrics 1985 - 1987, Jackson, (MP) India

Awards: Clinical Ladder Level RN III in 2008
Center of Excellence Award for Outstanding Practice in 2006

Dr. Sangeetha Devi
Assistant Professor, Dept. of Pharmacology
MGM Medical College, Noida, India

- Doctor of Philosophy, Substance abuse and Medical Pharmacology
- Master of Science Medical Pharmacology
- Post Graduate diploma in Clinical Research and Quality Assurance
- U.S. based Certificate Course on Drugs and Medical Awareness
- Award for academic excellence in M.Sc. Medical, Manipal University
- Top Rank Holder of Post Graduate M.Sc. Medical Degree (Rank 20th) under KMC, Manipal University
- Several National and International Publications with paper presentations in National Conferences to the credit
- Experimental in QA/ Audit by NISO and FDA in pharmaceutical set-up

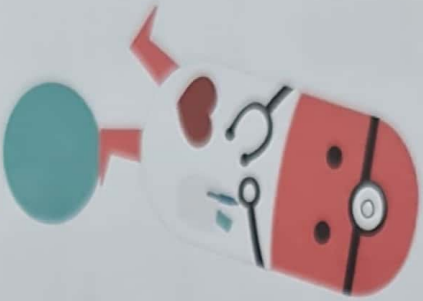

**SIMULATION BASED TRAINING:
APPLICATION IN CLINICAL
PHARMACOLOGY**

PROF. VISHWAS SATHI, MD
DEPARTMENT OF ANESTHESIOLOGY
(CARDIAC ANAESTHESIA UNIT)
MGM MEDICAL COLLEGE & HOSPITAL,
NOIDA, UTTAR PRADESH

WEBINAR ON

“Simplified and Applied Pharmacology for Nurse Practitioners”

Organized by:

MGM New Bombay College of Nursing

WEBINAR ORGANIZING COMMITTEE

Organizing Chairperson	:	Dr. Prabha K Dasila , Professor & Director
Organizing Secretary	:	Mrs. Susan Jacob , Professor,
Organizing Convener	:	Dr. Sindhu Thomas , Assistant Professor,

INTRODUCTION TO THE WEBINAR

AIM

The webinar focuses to enlighten on basic & advanced Pharmacology for the Nurse Practitioners to manage critically ill patients.

OBJECTIVES

- To introduce the basics of pharmacokinetics & pharmacodynamics
- To enhance clinical skills in managing emerging diseases
- To enforce the working capability based on standing orders in Critical Care Units
- To discuss on updates of medical management in critical conditions
- To discuss on safe handling of narcotic drugs
- To highlight on simulation-based training in clinical pharmacology

INTRODUCTION TO THE WEBINAR

Nurse Practitioners play an important role in managing the critically ill patients admitted in Intensive Care Units. These patients are often treated with variety of drugs like sedatives, antibiotics, neuromuscular blockers, inotropes and gastric acid suppressants. Many of these drugs require continuous monitoring of vital signs, or medication serum levels or organ function tests.

Some medications potentially interact with other medications, causing unwanted effects. Therefore it is critical for the Nurse Practitioners to thoroughly understand the pharmacology as well as the potentially fatal drug interaction.

The current webinar focuses on pharmacokinetics, pharmacodynamics and safe administration of medication to critically ill patients.

Day 1: 20-04-2021

Moderator: Dr. Sindhu Thomas, Assistant Professor

Time	Topic	Resource Person
10:00 AM- 10:05AM	Welcome Address	Dr. R. Ponchitra, Professor & Vice Principal
10:05 AM- 10:15AM	Address	Dr. Shashank Dalvi, Vice Chancellor, MGMHHS
10:15 AM- 10:25AM	Key Note Address	Dr. T. Diljeep Kumar President Indian Nursing Council, New Delhi;
10:30am- 11:00am	Opening of the Theme	Dr. Prabha K Dasila Professor & Director MGM New Bombay College of Nursing, Navi Mumbai,
11:00 AM-11:30AM	Session-1 Introduction to Pharmacology	Dr. Santosh Gursale Professor, Dept. of Pharmacology, MGM Medical College Hospital Kamothé, Navi Mumbai
11:30AM-12:00 PM	Session-2 Emerging Diseases: A discussion of New & Upcoming Infections	Professor, Dept. of Emergency Medicine, MGM Medical College Hospital, Kamothé, Navi Mumbai
12:00 PM-12:30 PM	Session-3 Medication Safety in Administration of Drugs in Critical Care Units	Dr. (Lt.Gen) K.R.Salgotra Hospital Director, MGM Medical College Hospital, Kamothé Navi Mumbai
12:30 PM-1:00 PM	Session-4 Reflections from Novice Nurse Practitioners	Mrs. Sreedevi P.S. Nurse Practitioner, Critical Care, MGM Medical College Hospital, Navi Mumbai
1:00 PM-1. 20 PM	Session - 5 & 6 Leadership in Management of Medications in ICU	Gisha George (Clinical Nurse) & Brittney Sawyer (NP) HCA Southeast Bayshore Hospital Pasadena, TX
1:40 PM-1.45 PM	Conclusion Summary Day - 1 - Mrs. Susan Jacob	

Day 2: 21-04-2021

Moderator: Mrs. Ferganzia Jubilson , Assistant Professor

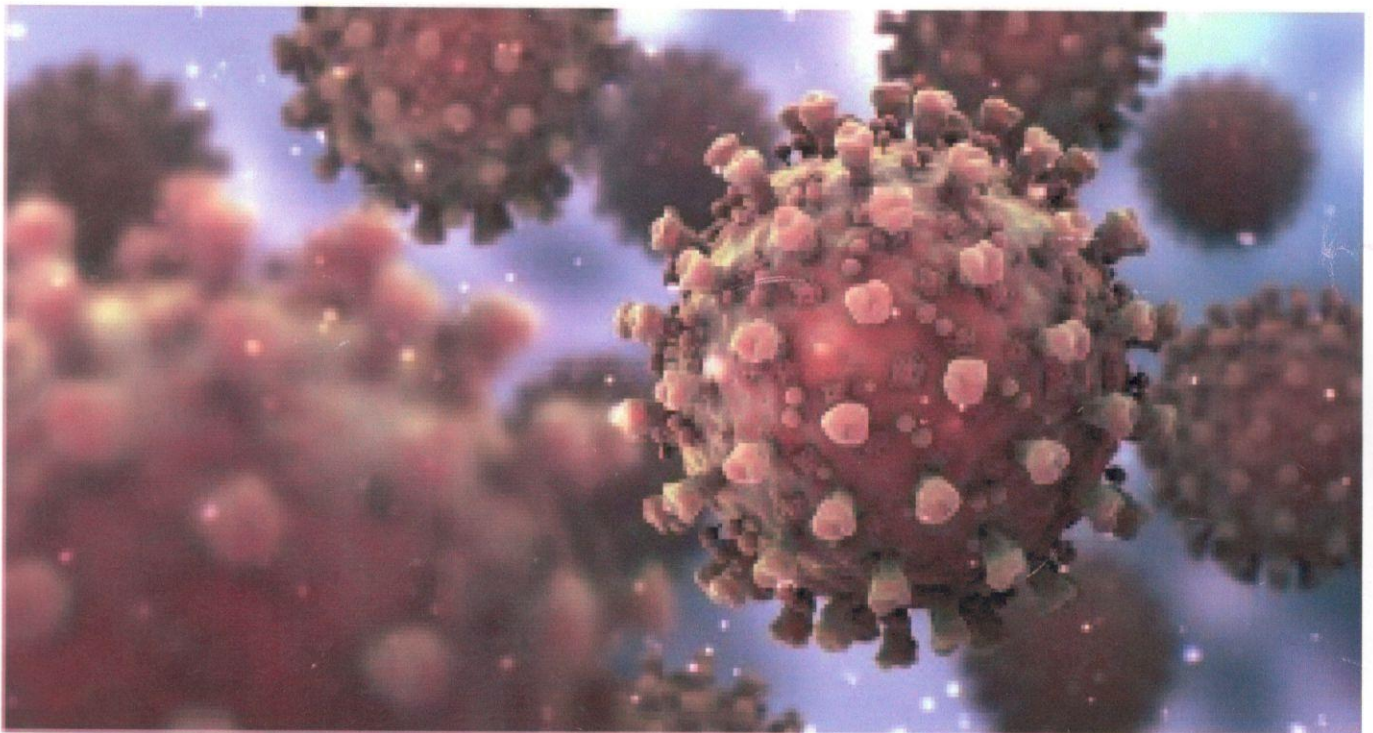

9.30 AM - 10 AM	Session-1 Role of Nurse Practitioner in administering drugs in Critical Care	Mrs Sheelamma Thomas (NP) NSLJ Health System, New York
10:00AM - 10:30 AM	Session-2 A Pharmacological Update in the Management of MI	Dr.Shilpa Kadam Professor, Dept. of Cardiology MGM Medical College Hospital, Kamothé, Navi Mumbai
10:30AM - 11:00 AM	Session-3 Safe Opioids Administration: How, When and When Not to Administer?	Dr. Jacob Jesurun Professor & HOD, Dept. of Pharmacology Believer's Church Medical College Hospital, Kerala.
11:00 AM-11:30AM	Session -4 Novel Anticoagulants	Dr. Pradeep Jadhav Professor, Dept. of Pharmacology MGM Medical College Hospital, Kamothé Navi Mumbai
11:30 AM-12:00 AM	Session-5 Trends in Pharmacovigilance in the era of COVID-19 Pandemic	Dr. Deepanjana Dass Assistant Professor, Dept. of Pharmacology, MGM Medical College Hospital, Navi Mumbai
12:00 AM-12:30 PM	Session-6 End of Life Care: Pain and Symptom Management	Dr. Suchet Avanti Assistant Professor, Dept. of Emergency Medicine, MGM Medical College Hospital, Navi Mumbai
12:30 AM-1:00 PM	Session-7 Simulation Based Training: Application in Clinical Pharmacology	Dr. VishwasSathé Professor, Dept. of Anesthesia, MGM Medical College Hospital, Navi Mumbai
1:00 PM-1:15 PM	Conclusion Summary Day - 2 - Mrs. Susan Jacob	
1: 15 PM-01:30 PM	Valedictory - Mrs. Sarika Nair

“All About Mucormycosis in COVID 19”

8th June 2021

AIM

The webinar focuses to emphasize on understanding about mucormycosis infections and its preventive strategies.

OBJECTIVES

- To identify Mucormycosis and its disease progression.
- To recognize various diagnostic approaches in mucormycosis infection.
- To discuss strategies and standard operating protocols for prevention of mucormycosis infections in COVID-19 patients.

PARTICIPANTS

Total 373 participants registered. There were MBBS interns, Clinical Nursing professionals, B.Sc. Nursing Students and teaching faculty of various colleges and Hospitals.

Webinar

All About Mucormycosis in COVID 19

Dated – 08 - 06 - 2021

Proceedings

The Programme started by the moderator, Mrs. Sarika Sukesh Nair, Nursing Tutor at 10.00 am with a warm welcome to all the panelists and the participants who were present virtually on the day of the webinar. The Honorable Principal, Dr. Prabha K. Dasila, welcomed all the participants for the webinar and introduced the importance of the webinar.

The theme for the webinar was unfolded by Dr. R. Ponchitra, Professor and Vice Principal, MGM New Bombay College of Nursing. She gave a brief description of the current pandemic that had affected the whole world and also highlighted about the devastating changes in the progression of the disease. The importance of updating knowledge in terms of management of the disease progression is of highest priority especially for nurses who cares for those patients affected badly during this COVID 19 pandemic.

Unfolding the Theme

Good morning to all Experts and delegates.

“It much more important to know what sort of a patient has a disease than what sort of a disease patient has.” By William Osler.

Human to human transmitted disease is the game of coronavirus disease (COVID-19) transmission and it had been declared an emergency global pandemic that caused major disastrous in the respiratory system to more than five million people and killing more than half a billion deaths across the globe. These patients have been discovered to develop a wide range of bacterial and fungal co-infections and in the recent days we've been seeing a sudden increase in the Mucormycosis infection in the COVID patients.

Mucormycosis is an angio invasive disease caused by saprophytic fungi of the order mucorales. The exact incidence of mucormycosis in India is unknown due to lack of population based studies. The estimated prevalence of mucormycosis is around 70 times higher in India than that in global data.

In history the annual incidence of mucormycosis reported from different case series from India by Chakrabarti et al showed an annual incidence of 12.9 cases per year during 1990-1999, 35.6 cases per year during 2000-2004 and 50 cases per year during 2006-2007 at a single centre. A multi-centre study across India reported 465 cases from 12 centres over 21 months.

The clinical presentations of mucormycosis are classified on the basis of anatomical localisation, such as Rhino- orbital- cerebral (ROCM) the commonest form, followed by cutaneous, pulmonary, renal, gastrointestinal, and disseminated infections. Other unusual sites of infection reported in the literature from India are breast, ear, spine, heart and bone infections.

Though mucormycosis is globally distributed, certain risk factors, clinical forms and causative agents of the disease are prevalent in India. Uncontrolled diabetes mellitus is the most common underlying disease associated with mucormycosis in India in contrast to haematological- malignancy patients and solid organ transplant recipients in developed countries. The possible reason for the high prevalence is the abundant presence of Mucorales in the community and hospital environment, large number of susceptible hosts especially DM and neglect for regular health check-ups of Indian Population.

In the current scenario it has been understood that this black fungus called mucormycosis is complicating the treatment and recovery of COVID-19 patients. Mucormycosis, a serious fungal infection but otherwise rare, has been observed in a number of Covid-19 patients recently. While there is no major outbreak, the national Covid task force has issued advisory guidelines on this deadly disease.

Focussing on the current health care scenario and the necessity of preparation to handle this newly emerged dreadful disease this webinar is organised with the theme "All about Mucormycosis in Covid -19".

The webinar focuses to emphasize on understanding about mucormycosis infections and its preventive strategies. The sessions focus on

What is the disease? Why has it emerged now? What is its relation with Covid -19?

What are the major risk factors? Who is at risk or vulnerable? What are its major types? What happens when one contracts it? When to suspect? What is the treatment/management?

How can one prevent it? What should be done to prevent Mucormycosis? What is the role of the nurse in monitoring and preventing Mucormycosis?

Bad things do happen in the world like war, natural disasters and disease, but out of those situations always arise ordinary people doing extraordinary things. I appreciate and thank all the health care professionals who are doing extraordinary service in this pandemic from the year 2020 till now and hope you all continue the service and take care of yourself and your families too.

Thank You

Scientific Sessions (08 – 06 – 2021)

Session 1 on Mucormycosis and its progression was delivered by Dr. Badal Taori and Dr. Saurabh Borkhade, Senior Residents, Dept of Medicine, who gave a detailed description on the pathogenesis of mucormycosis infection. The clinical forms of mucormycosis such as pulmonary, gastrointestinal, cutaneous and disseminated mucormycosis was explained in detail with regards to its invasion, internal progression of disease, diagnostic measures and both medical and surgical management. The session emphasized on the key points such as nursing considerations in terms of COVID patient care which could also be beneficial for decrease in the chances of infection.

Session 2 (Part 1) on Symptoms and management (Orbital mucormycosis) was delivered by Ms. Sayali Amberkar, Senior Resident, Dept of Ophthalmology. She gave a detailed explanation of the invasion of the disease and its progression to nose, sinus, eyes and CNS. The warning symptoms were briefly highlighted, including the general features in the 4 stages of rhino orbito cerebral mucormycosis. She concluded the session emphasizing the importance of multidisciplinary approach in ROCM wherein both medical, surgical and nursing management plays a vital role.

Session 2 (Part 2) on Symptoms and management (Rhinocerebral mucormycosis) by Ms. Aathira Thomas, Senior Resident, Dept of ENT, was focused on pathogenesis of mucormycosis in the nose, sinus and CNS. She emphasized on the importance of identifying and keeping a high risk of suspicion to diagnose the patient and implement appropriate line of management for the same. She highlighted the importance of nurses being very vigilant and observant during a clients hospital stay and also ensuring proper practice of protocols regarding oxygen administration.

Session 3 on Diagnostic considerations in mucormycosis (Investigations and sample collection) Dr. Deepashri Naik, Associate Professor, Dept of microbiology, gave a detailed overview of diagnostic approaches in COVID 19, wherein the importance of punch biopsy, fungal stain and culture, histological examination, CT scan, biopsy and other blood parameter assessment such as XBC, ABG, RBS was emphasized.

Session 4 on Preventive strategies and standard operating protocol adherence in mucormycosis by Mrs. Priyanka A. Khedekar, Infection Control Nurse, MGM Hospitals, Kamothe focused on the general preventive strategies for mucormycosis. The session emphasized more on the standard operating protocols to be strictly adhered in mucormycosis such as do's and don't's during oxygen administration for COVID positive patients.

Valedictory function was done by Mrs. Sarika Nair Tutor, MGM New Bombay College of Nursing, Kamothe by 12.45 pm

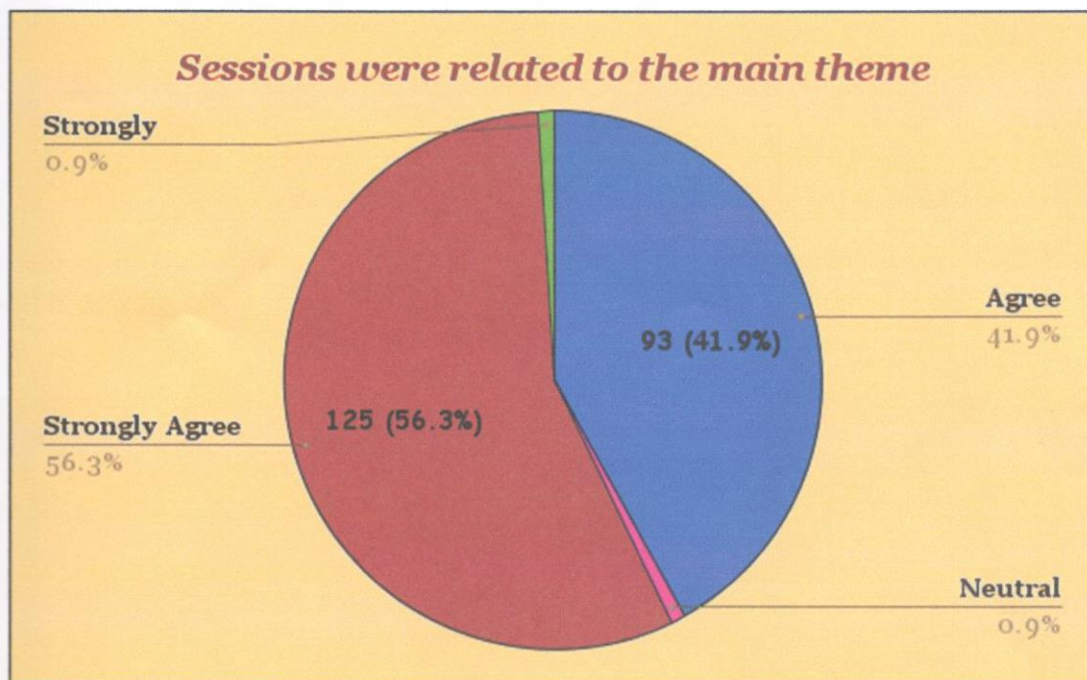

Report of the Webinar

“All About Mucormycosis in COVID 19”

08.06.2021

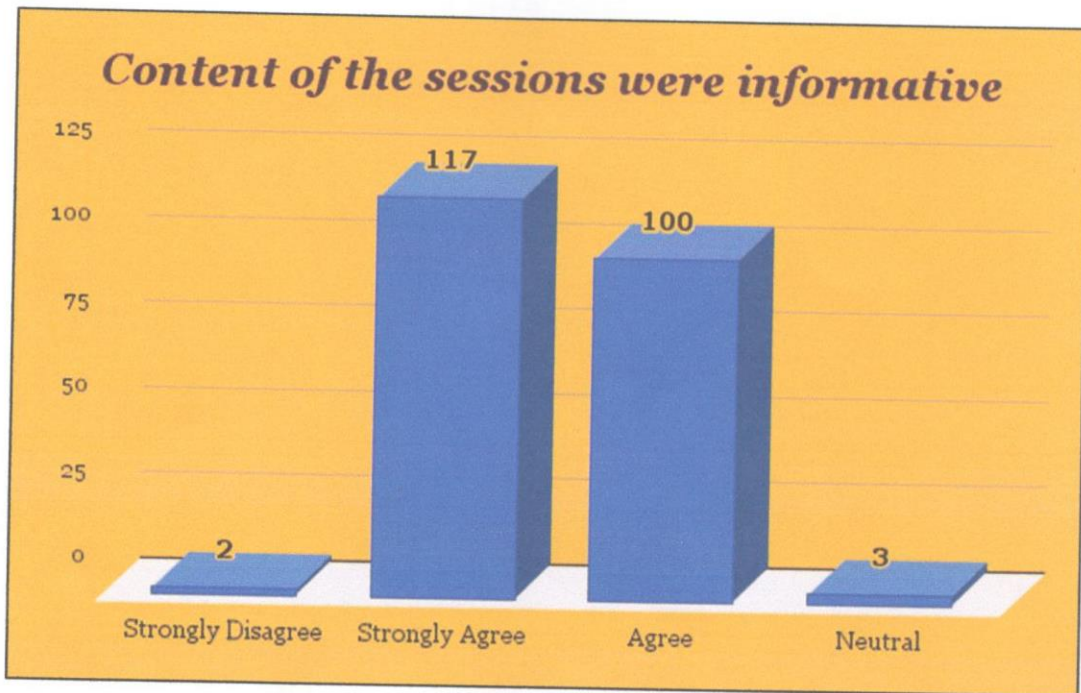

Feed Back Analysis

The Webinar was attended by 373 participants. Feedback was obtained from 222 participants. The feedback scoring was on a 5 point Likert scale, with highest score (5) indicating as strongly agree and lowest score (1) strongly disagree.

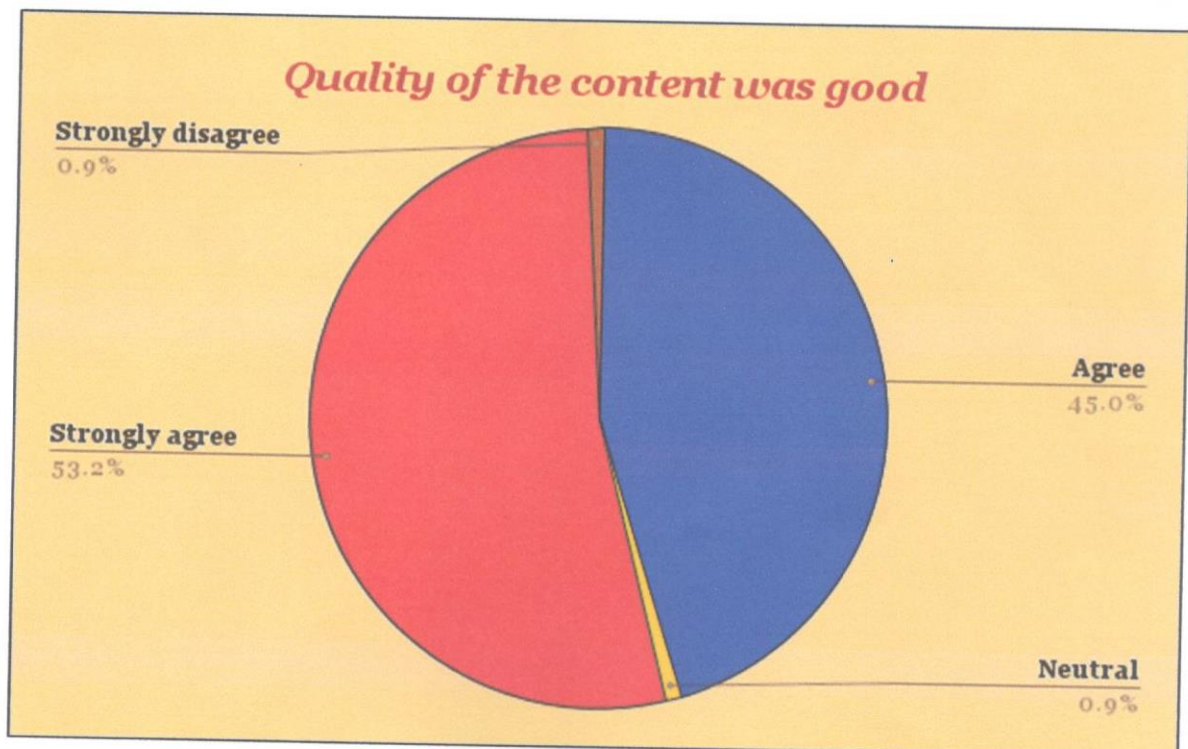

Majority of participants (56.3%) strongly agreed that the sessions were related to the main theme.

Feed Back Analysis

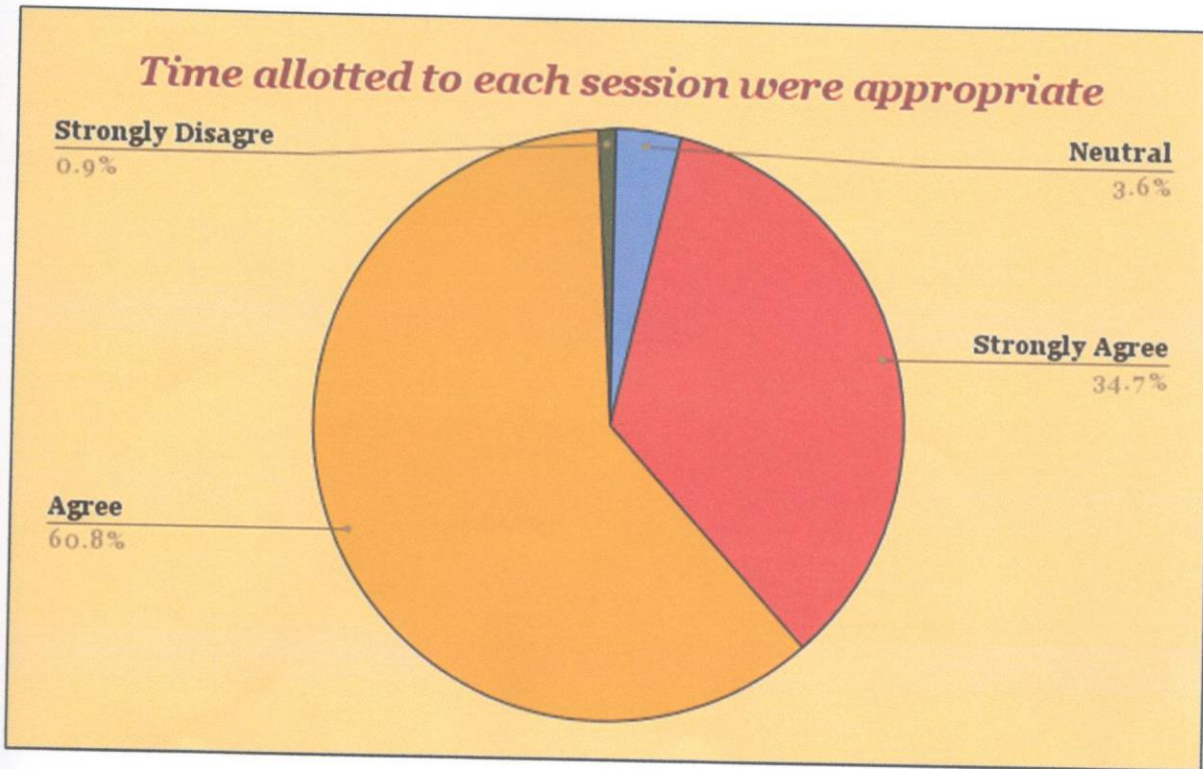

Majority of participants (117) strongly agreed that the content of the sessions were informative

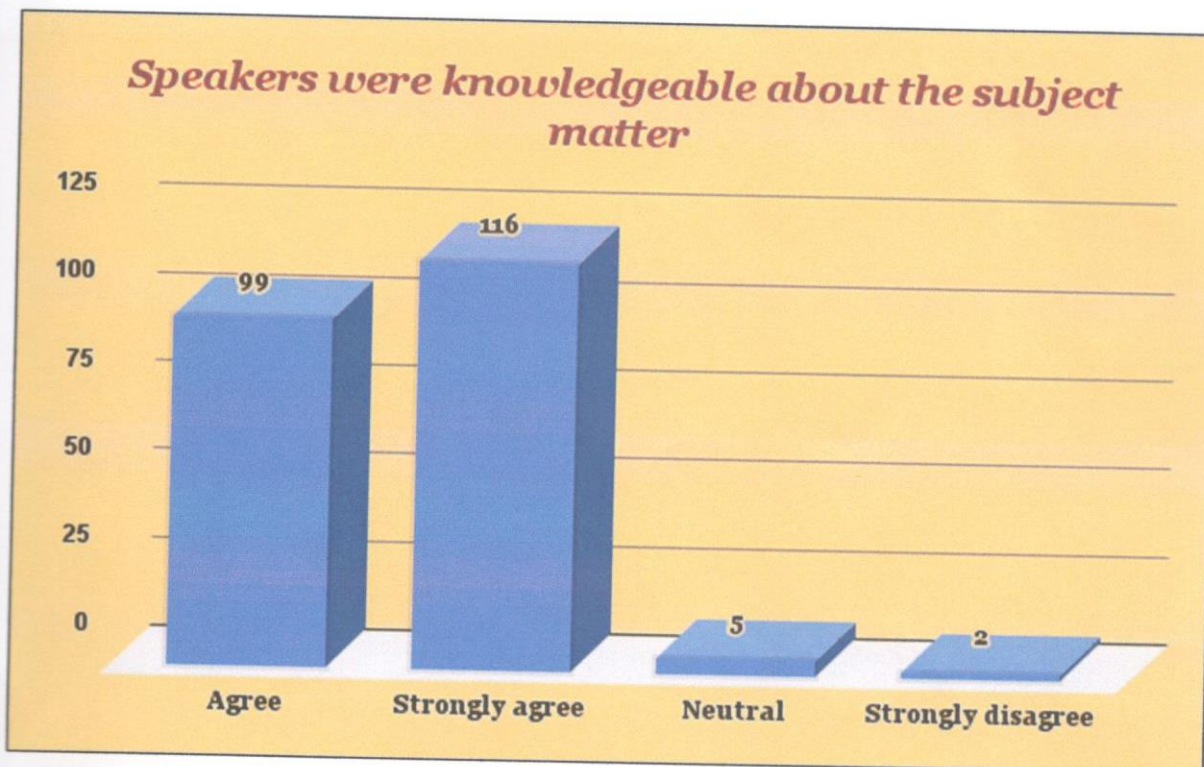

Majority of participants (53.2%) strongly agreed that the quality of the content was good.

Feed Back Analysis

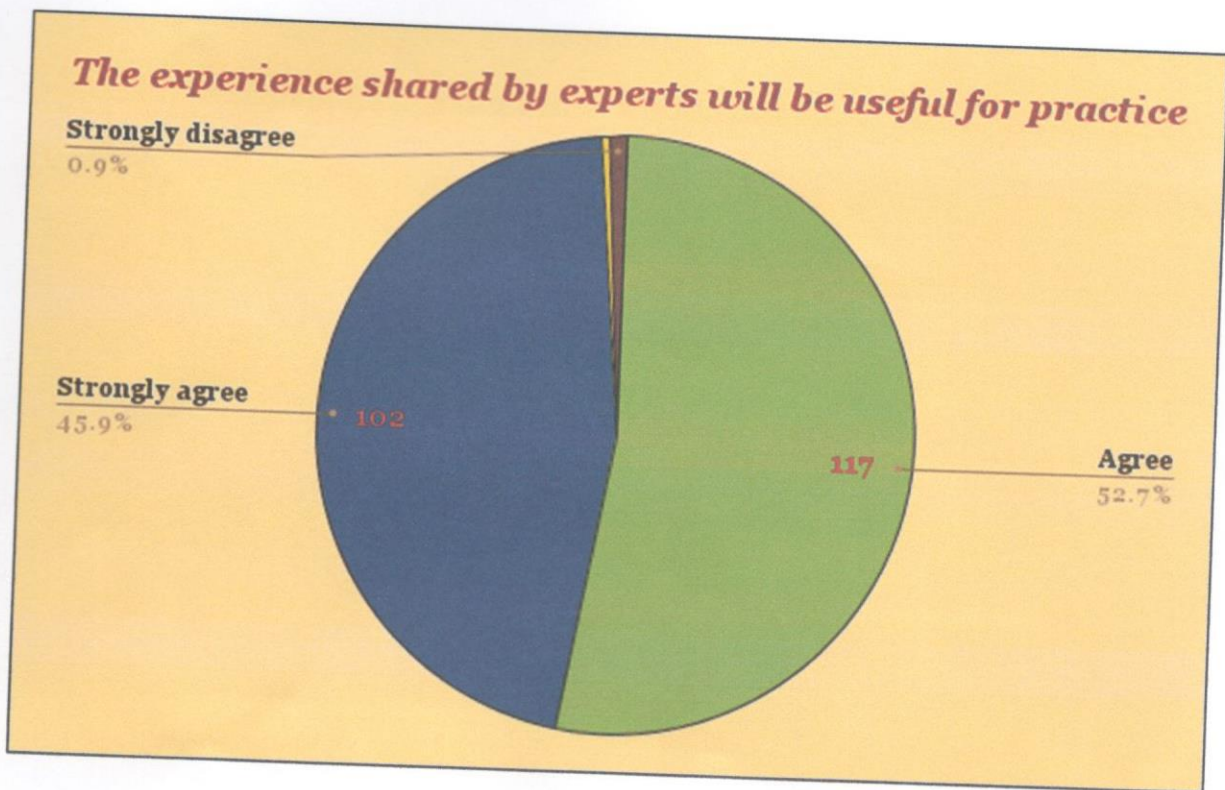

Majority of participants (60.8%) strongly agreed that the time allotted to each session were appropriate

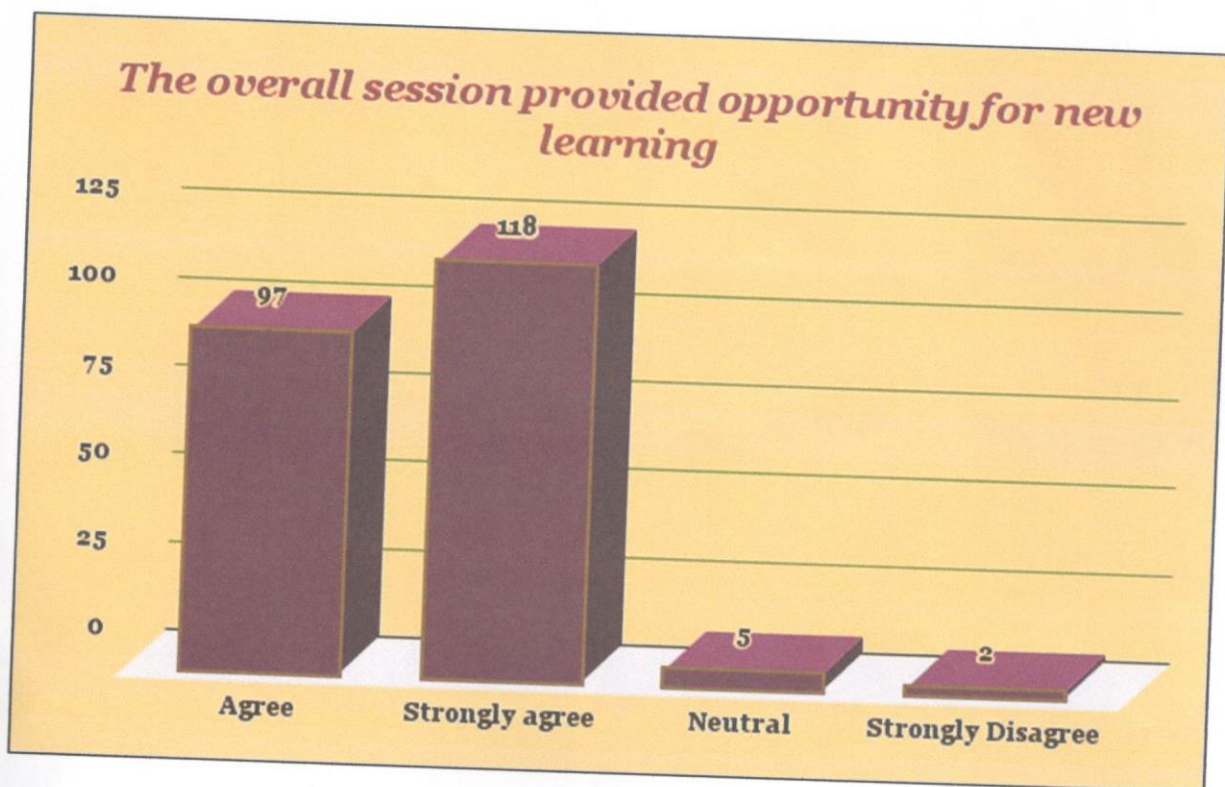

Majority of participants (116) strongly agreed that the speakers were knowledgeable about the subject matter

Feed Back Analysis

Majority of participants (52.7%) agreed that the experience shared by experts will be useful for practice

Majority of participants (118) strongly agreed that the overall session provided opportunity for new learning

AIM

The webinar focuses to emphasize on understanding about mucormycosis infections and its preventive strategies.

OBJECTIVES

1. To identify mucormycosis and its disease progression.
2. To recognize various diagnostic approaches in mucormycosis infection.
3. To discuss strategies and standard operating protocols for prevention of mucormycosis infections in COVID-19 patients.

INTRODUCTION

Mucormycosis or zygomycosis a serious fungal infection caused by group of molds called mucormycetes have affected people in India, especially in those with comorbidities or one in post COVID status. According to CDC, as mucormycosis are sporadic, healthcare setting could also be a contributing factor for the outbreak. The emergence of new risk factors and causative agents and the challenges in managing the disease

PROGRAMME SCHEDULE

Moderator : Mrs. Sarika Nair

Time	Session Title	Resource persons
10:00am - 10:10am	Opening of the Theme	Dr. R. Ponchitra Professor and Vice Principal, MGMNBCON
10:10am - 10:40am	Session 1: Mucormycosis and its progression. Definition, Risk factors, Types & Management- (Pulmonary, Cutaneous & Gastrointestinal Mucormycosis)	Dr. Badal Taori Senior Resident, Dr. Saurabh Borkhade Senior Resident, Dept. of Medicine, MGM Hospital, Kamothe.
10:40am - 11:10am	Session 2: Symptoms and Management Orbital Mucormycosis	Dr. Sayali S. Amberkar Senior Resident, Dept. of Ophthalmology, MGM Hospital, Kamothe.
11:10am - 11:40am	Rhino cerebral Mucormycosis	Dr. Aathira Thomas Senior Resident, Dept. of ENT, MGM Hospital, Kamothe.
11:40am- 12:10 pm	Session 4: Diagnostic considerations in Mucormycosis. (Investigations and Sample collection)	Dr. Deepashri Naik Assistant Professor, Dept. of Microbiology, MGM Hospital, Kamothe.
12:10pm - 12:40pm	Session 5: Preventive strategies and standard operating protocol adherence in Mucormycosis.	Mrs. Priyanka Khedekar Infection Control Nurse, MGM Hospital, Kamothe.

Webinar on

Management of children with COVID 19

Dated – 17.06.2021 & 18.06.2021

Proceedings

Day One- 17.06.2021.

The programme started by the moderator, Mrs. Anna Hima Thomas, Assistant Professor, MGM New Bombay college of Nursing at 2 PM with a warm welcome to all the panelists and the participants who were present virtually on the first day of the webinar. The welcome address was delivered by Mrs. Preethi Maria Mathew, Associate Professor, MGM New Bombay college of Nursing at the inaugural session.

Opening of the theme was unfolded by Dr (Mrs). Prabha K Dasila, Director and Principal, MGM New Bombay College of Nursing, by giving a brief description about the Management of children with COVID 19. He appreciated the team efforts of dedicated doctors and nurses who are actively involved in the management of COVID at MGM Hospital, Kamothe. She reminded everyone to have the same participation for managing the children too in COVID 19. She also expressed her concern about the third wave of COVID 19 which is expected to target the children thus by emphasizing the importance of this webinar

Unfolding the theme

Good afternoon

Hon. Vice Chancellor- Dr Shashank Dalvi

Hon. Medical Director- Dr. S.N Kadam

Hon. Pro- Vice Chancellor- Dr. NN Kadam

Dr. Vijay Kamale, HOD, Department of pediatrics

Dr. Jithendra Gavhnae

Dr. Revathi N

Dr. Suhas Kharche

At the opening of this webinar, I would like to express my most profound gratitude to our management for their support in organizing this webinar

Its my proud privilege to introduce the theme of the webinar organized by Department of Maternal and Child Health Nursing, MGM New Bombay college of Nursing in collaboration with Department of Pediatrics, MGM Hospital Navi Mumbai.

I am delighted to acknowledge the presence of all the resource persons from our own MGM hospital, Navi Mumbai, Dr. Vijay Kamale, Dr. Jithendra Gavhnae, Dr. Revathi N, Dr. Suhas Kharche, Dr. Prakruthi, Dr. Sindhu Thomas, Dr. Padmaja Dhawale, Dr Amol M, Dr. Krishna B and Dr. Priyanka A.

The COVID-19 pandemic has had a catastrophic effect on global health. The substantial rise in international numbers, however necessitates early planning in consideration of a rise in Pediatric cases. So it is mandatory to reorganize and prepare tertiary care hospitals for the management of children with COVID 19. This webinar will enlighten the health care professionals information regarding the management of critically ill children with COVID 19.

Coronavirus disease (COVID-19) is an infectious disease caused by the SARS-CoV-2 virus. Most people infected with the virus will experience mild to moderate respiratory illness and recover without requiring special treatment. However, some will become seriously ill and require medical attention

So far, data suggests that children under the age of 18 years represent about 8.5% of reported cases, with relatively few deaths compared to other age groups and usually mild disease. However, cases of critical illness have been reported. As with adults, pre-existing medical conditions have been suggested as a risk factor for severe disease and intensive care admission in children. As children generally have milder illness and fewer symptoms, cases may sometimes go unnoticed. Importantly, early data from studies suggest that infection rates among teenagers may be higher than in younger children.

WHO is bringing the world's scientists and global health professionals together to accelerate the research and development process, and develop new norms and standards to contain the spread of the coronavirus pandemic and help care for those affected.

Theme: Management of children with COVID 19

Day 1- Moderator: Mrs. Anna Hima Thomas, Assistant Professor, MGM New Bombay college of Nursing

Session 1- Introduction to COVID 19 in children: **Dr Vijay Kamale**, Professor and HOD, Department of Pediatrics, MGM Hospital, Kamothe

Session 2- Mild COVID, **Dr Jithendra Gavhnae**, Professor and PICU In charge, Department of Pediatrics, MGM Hospital, Kamothe

Session 3- Moderate COVID, **Dr. Revathi N**, Associate Professor, Department of Pediatrics, MGM Hospital, Kamothe

Session 4- Severe COVID, **Dr. Suhas Kharche**, Assistant Professor, Department of Pediatrics, MGM Hospital, Kamothe

Session 5- Psychological issues of children during COVID 19 Pandemic, **Dr Vijay Kamale**, Professor and HOD, Department of Pediatrics, MGM Hospital, Kamothe

Question and answer session

Conclusion Summary Day 1- **Mrs. Preethi M Mathew**, Associate Professor, MGM New Bombay College of Nursing

Day 2- Moderator, Ms. Dipali Pingale, Tutor, MGM New Bombay college of Nursing

Session 1- Preparation for the management of children with Covid 19, **Dr Vijay Kamale**, Professor and HOD, Department of Pediatrics, MGM Hospital, Kamothe

Session 2- Devices and equipments used in the management of children with COVID 19, **Dr. Suhas Kharche**, Assistant Professor, Department of Pediatrics, MGM Hospital, Kamothe

Session 3- Common drugs and fluid calculations for children- **Dr Prakruthi K.D**, Assistant Professor, Department of Pediatrics, MGM Hospital, Kamothe

Session 4- Nutritional management of children with COVID 19, **Dr. Sindhu Thomas**, Assistant Professor, MGM New Bombay college of Nursing

Session 5- Resuscitation in COVID 19 child and measures, **Dr. Amol M**, Assistant Professor, **Dr. Priyanka A**, Senior Resident, Department of Pediatrics, MGM Hospital, Kamothe

Question and answer

Concluding remark- **Mrs. Preethi M. Mathew**, Associate Professor, MGM New Bombay College of Nursing

Valedictory- **Mrs. Anna Hima Thomas**

I hope the deliberations from distinguished speakers will provide fruitful experience to the participants

Thank you

Scientific sessions- Day one- 17.06.2021

Session 1: Preparation for the management of children with Covid 19, Dr Vijay Kamale, Professor and HOD, Department of Pediatrics, MGM Hospital, Kamothe

Dr. Vijay Kamale have given a clear picture about the management of children in COVID 19 pandemic. He emphasized that a small proportion of symptomatic children (10-20%) may need hospitalization for Covid infection and 1-3% of symptomatic children may have severe illness and may require intensive care admission. The incubation period for covid infection in children may be from 2- 14 days. He showed his concern about the most serious complication of covid 19 infection in children, that is MISC. He anticipated about the emergence of third wave of the infection from September to October 2021.

Session 2: Mild COVID, Dr Jithendra Gavhnae, Professor and PICU In charge, Department of Pediatrics, MGM Hospital, Kamothe

Dr Jithendra Gavhnae started with a note about the third wave preparation of covid 19 by the health care professionals. He gave an idea about the Pediatric covid 19 Field training workshop done by the Government of Maharashtra Task Force for pediatric covid 19 constituted by the Hon. Chief Minister of Maharashtra, Shri Uddhav Thackeray. He categorized the Covid 19 in children into Acute covid illness and Multisystem inflammatory syndrome of children with covid 19. The he moved on to his topic, management of children with Mild covid. Home care management is recommended for children with Mild covid and need to teach the parents about the Red flag signs like Persistent fever > 3 days, decrease urine output, lethargy, drowsiness, rapid breathing, Rashes and convulsions. The child with mild covid can be full normal diet with continued breastfeeding. No antibiotics and no investigations are recommended. Warm saline gargles can be provided to older children.

Session 3: Moderate COVID, Dr. Revathi N, Associate Professor, Department of Pediatrics, MGM Hospital, Kamothe

Dr. Revathi N had given a clear picture about the management of Moderate Covid19 in children. She started the session with the discussion of various case scenarios on moderate covid in children. The child with moderate covid will be admitted in the pediatric ward. Necessary investigations should be done. The investigation should include CBC, CRP, SGPT, Serum Albumin, Serum creatinine and X ray chest. The child should be monitored regularly. TPR 4 hourly, BP 8 hourly and SPO₂ 2 hourly. Supportive care for the child includes hydration, nutrition and antimicrobials (Ceftriaxone 75-100 mg/kg/day). We need to continue with the treatment of comorbidities, if any. The Spo₂ level between 90-94% should be managed with oxygen therapy, awake proning technique, IV Dexamethasone 0.15 mg/kg/dose. The discharge criteria are as follows: No fever for more than 3 days, 10 days from onset of the symptoms, defer vaccination after 4 weeks, ensure completion of routine vaccines. If Spo₂ is less than 90%/ severe pneumonia/evidence of shock/ refractive convulsions are the criteria for transferring the child to HDU/PICU.

Session 4- Severe COVID, Dr. Suhas Kharche, Assistant Professor, Department of Pediatrics, MGM Hospital, Kamothe

Dr. Suhas Kharche started with the session by enumerating and explaining the line of treatment for managing children with severe covid 19. Children need to be admitted in PICU/HDU. CBC, RFT, LFT, CRP, Procal D-Dimer, Lactate, ECG and chest xray are the first line investigations to rule out the complications and severity of covid. Optimize oxygen level and if needed High flow nasal cannula, CPAP, NIV and invasive ventilation can be opted as per the condition of the child. Consider prone positioning, restrictive fluid therapy. The drug of choice are IV steroids, Remdesivir, Enoxaparin and Antimicrobials. Explained the whole concept with various case scenarios. He had a detailed explanation about the identification criteria for Multisystem inflammatory syndrome in children as a complication of COVID 19. The criteria are as follows: Fever > 3 days, uticular rashes, bilateral non purulent

conjunctivitis, red lips, inflammation of hands and feet, BCG scar reactivation, acute GI symptoms, H/O Covid or close contact with covid in previous 5 months. MISC can be presented in the form of Febrile inflammatory syndrome, Kawasaki disease like presentation and shock with MODS.

Session 5- Psychological issues of children during COVID 19 Pandemic, Dr Vijay Kamale, Professor and HOD, Department of Pediatrics, MGM Hospital, Kamothe

Dr. Vijay Kamale insisted all the health care professionals to teach the parents to watch for the psychological ill effects of covid 19 pandemic as well as due to the lock down in children. The various behavioural changes that we can expect from children are irritability, anger, frustration, wants to cling to the mother all the time, Regressive behaviours like thumb sucking, bedwetting etc. Change in diet pattern and episodes of crying spells. It is the responsibility of the health care members to provide advice to all the parents, the ways to manage the psychological health of children during the pandemic. We should encourage the parents to spend valuable time with the kids, listen to them patiently, involve the children in daily chores and to appreciate their work. Doctors should make sure that the psychological health of children are taken care of during consultation either through online or offline.

Scientific sessions- Day Two- 18.06.2021.

The programme started at 2.00 P.M and was moderated by Ms. Dipali Pingale, Tutor, MGM New Bombay College of Nursing, Kamothe

Dr. Prabha K Dasila, Professor and Director, MGM New Bombay College of Nursing gave a warm welcome to all the panelists and the participants.

Session 1- Preparation for the management of children with Covid 19, **Dr Vijay Kamale**, Professor and HOD, Department of Pediatrics, MGM Hospital, Kamothe

Dr. Vijay Kamale gave a brief description about the sessions planned for Day 2. He expressed the expectations about the third wave of Covid 19, which is expected to affect nearly 20% of the population. We are expecting probably three admissions per day for the third wave. It is our responsibility to prepare the pediatric department of our hospital in order to receive the expected number of pediatric patients. Our hospital is planning for 70 bedded pediatric unit for Covid affected children. Out of 70 beds, 30 beds will be allotted for Intensive care unit and for HDU. Remaining 40 beds to provide moderate care to pediatric population with Covid 19.

Session 2- Devices and equipments used in the management of children with COVID 19, **Dr. Suhas Kharche**, Assistant Professor, Department of Pediatrics, MGM Hospital, Kamothe

Dr Suhas Kharche shared his knowledge regarding various devices and equipments used in managing the children in critical care units and in the wards. The equipments and devices used in children are entirely different from that of adults specially on its size. The devices and equipments are mainly categorized in to Airway and resuscitation equipments, Respiratory support devices, Temperature regulating devices and Monitoring devices. Airway devices includes oral airway, endotracheal tube and laryngeal mask airway. Resuscitation equipments consists of AMBU Bag, face mask and laryngoscope. Respiratory devices are divided into High flow nasal cannula and Non invasive ventilation mask. Temperature regulating devices includes Warm water Blankets, IV fluid warmers and Heat moist exchangers.

Session 3- Common drugs and fluid calculations for children- **Dr Prakruthi K.D**, Assistant Professor, Department of Pediatrics, MGM Hospital, Kamothe

Dr Prakruthi K.D elaborated about common drugs and fluid calculations in Pediatrics. She laid the importance of drug and fluid calculations when taking care of a child. She mentioned that the drug dosages will be recommended on the basis of Body weight in kilograms and Body surface area. She clearly explained about the units of measurements and its conversion which is the first step of drug calculation. She also discussed about various formulas for calculating the drugs and fluid based on the prescribed dosages for children. Each topic was followed by various examples for the easy understanding of the students. She explained about the commonly used drugs in children and its dosages. Paracetamol- 10-15 mg/kg/dose, Amoxicillin- 25-50 mg/kg/day, Cetrizine- > 6 months to 2 year- 2.5 mg, 2-5 years- 5 mg, 5-12 years- 5-10 mg. Pediatric drip set and infusion pump are the devices used to administer the fluids and drugs.

Session 4- Nutritional management of children with COVID 19, **Dr. Sindhu Thomas**, Assistant Professor, MGM New Bombay college of Nursing

Dr Sindhu Thomas shared her knowledge on the nutritional management of child during Covid 19. She laid down the importance of breast feeding and proper complementary feeding practices as a preventive factor for Covid 19 infection. If a mother is covid positive and the baby is covid negative, the mother can breast feed the infant by maintaining proper respiratory etiquettes. Rooming in can be practiced between the baby and the mother with 6 feet distance. Mother should wear mask properly. Watch for

the signs of infection in the child often. Expressed breast milk is also a best option if the mother is covid positive. All recommended infant and young child feeding practices remain the same based on the global guidelines. Principles of complementary feeding also remain the same in case if the mother is infected. High calorie and high protein diet is recommended for the child who is covid positive. The mother should watch for the red flag signs during the home care management. Childhood obesity is also a concern during the covid lock down. Parents should create opportunities for the children for any kind of physical activities for their children during the lock down.

Session 5- Nursing management of critically ill children with COVID 19 infection, **Dr Padmaja Dhawale**, Associate Professor, MGM New Bombay College of Nursing, Kamothe

Dr. Padmaja Dhawale focussed about the family centered nursing care during the management of critically ill child with Covid 19 infection. Parent education and assurance is a key element in the nursing care. Mild covid will be treated at home. Home care management measures should be explained to the parents including the respiratory etiquettes. Complete and continuous nursing care is required for children with moderate to severe illness and is admitted in ICU. ICU unit should be well equipped with adequate doctors, nurses and also with necessary devices and equipments. Soon after admitting the child to ICU, a quick physical assessment is mandatory after collecting thorough history from the parents, which is followed by a systemic examination. Continuous monitoring and the respiratory care are the paramount of the nursing care of the child in ICU. Fluid and electrolyte balance, bowel and bladder care, dressing and wound care, neuromuscular care, promotes comfort and reassurance are also the various aspects involved in the nursing care.

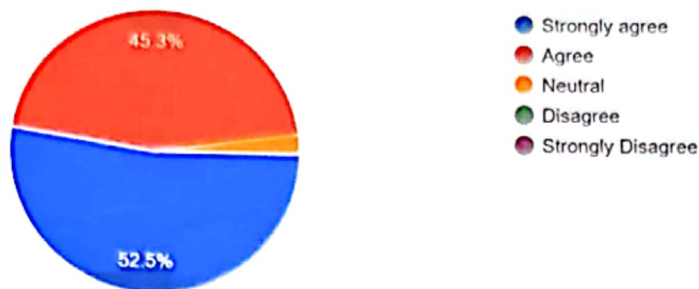

Session 6- Resuscitation in COVID 19 child and measures, **Dr. Amol M**, Assistant Professor, **Dr. Priyanka A**, Senior Resident, Department of Pediatrics, MGM Hospital, Kamothe.

Dr Amol and Dr Priyanka explained very well about the procedure for resuscitating the children with Covid 19. Resuscitation in covid 19 possess a significant risk for health care workers due to aerosol generation. Ten recommendations on the general principles for resuscitation to be followed during Covid 19 pandemic. They discussed about Prone CPR, equipment selections and the various drugs used in resuscitation of children.

FEEDBACK ANALYSIS OF DAY ONE-17.06.2021

1. Sessions were related to the main theme

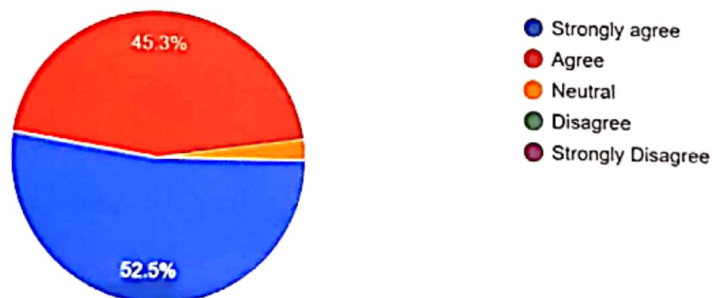

179 responses

94 (52.5 %) participants strongly agree that the sessions were related to theme.

2. Content of the sessions where informative

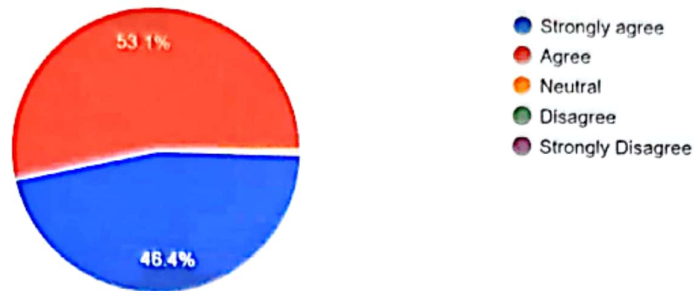

179 responses

94 (52.5 %) participants strongly agree that the content of the sessions was informative.

3. Quality of the content was good

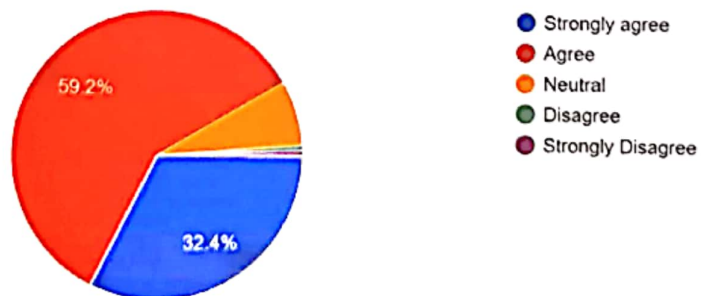

179 responses

95 (53.1 %) participants strongly agree that the quality of the content was good.

4. Time allotted to each session were appropriate

179 responses

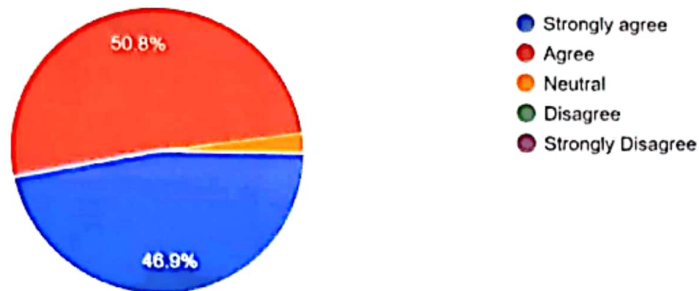

106 (59.2%) participants strongly agree that the time allotted to each session were appropriate.

99 (55.3%) participants strongly agree that the speakers were knowledgeable about the subject matter.

6. The experience shared by experts will be useful for practice

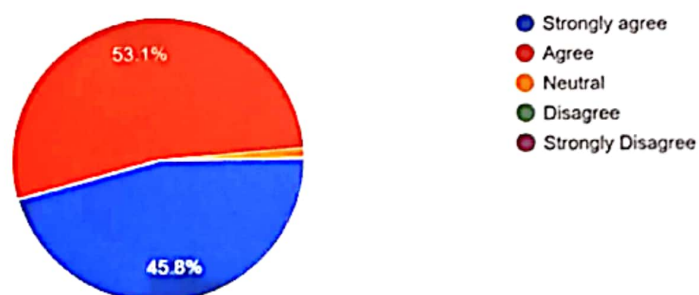

179 responses

91 (50.8%) participants strongly agree that the shared experience by experts will be useful for practice in their life.

7. Overall the session provided opportunity for new learning

179 responses

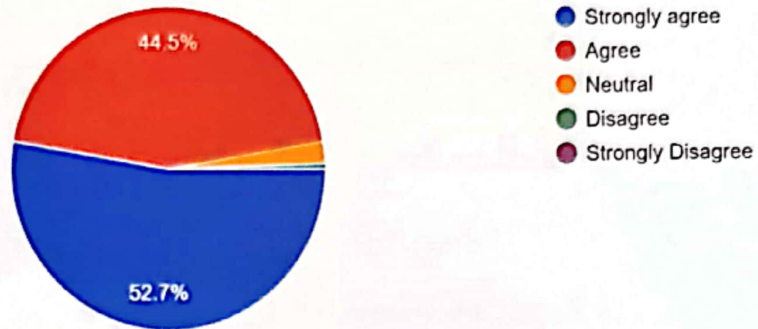

95 (53.1%) participants strongly agree that the sessions provided opportunity for new learning.

Most of the participant felt all sessions were good

FEEDBACK ANALYSIS OF DAY TWO- 18.06.2021

1. Sessions were related to the main theme

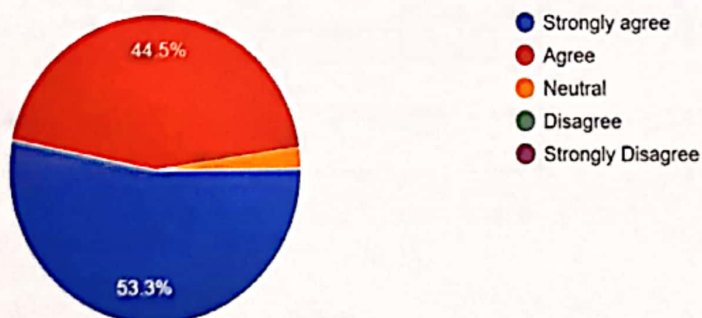

182 responses

96 (52.7 %) participants strongly agree that the sessions were related to theme.

2. Content of the sessions where informative

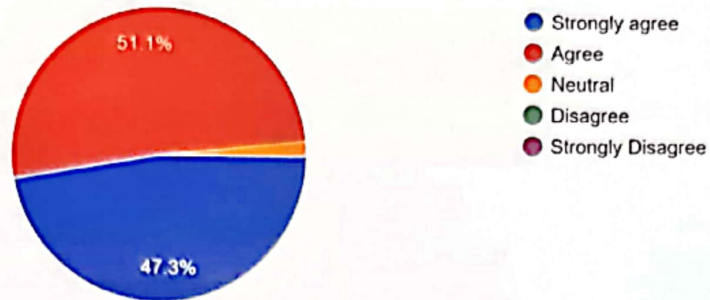

182 responses

97 (53.3 %) participants strongly agree that the content of the sessions was informative.

3. Quality of the content was good

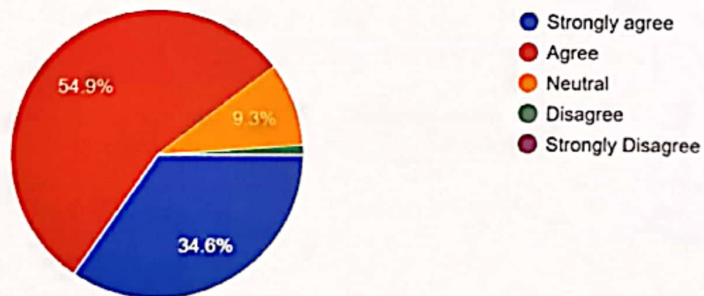

182 responses

93 (51.1 %) participants strongly agree that the quality of the content was good.

4. Time allotted to each session were appropriate

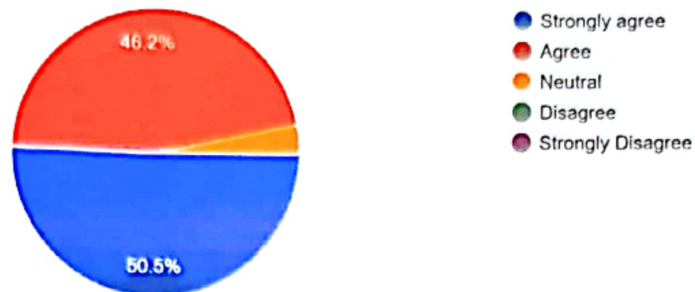

182 responses

100 (54.9%) participants strongly agree that the time allotted to each session were appropriate.

5. Speakers were knowledgeable about the subject matter

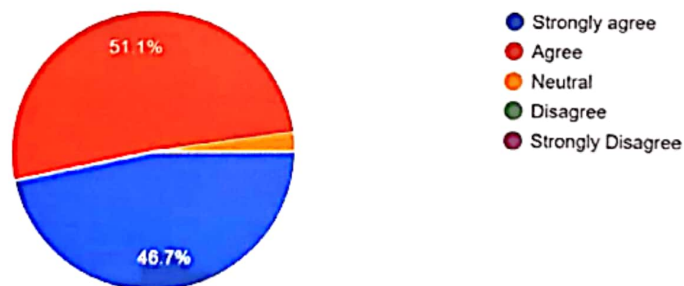

182 responses

92 (50.5%) participants strongly agree that speakers were knowledgeable about the subject matter.

6. The experience shared by experts will be useful for practice

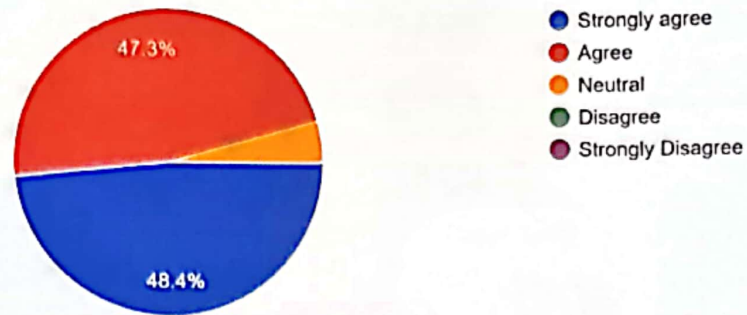

182 responses

93 (51.1%) participants strongly agree that the shared experience by experts will be useful for practice in their life.

7. Overall the session provided opportunity for new learning

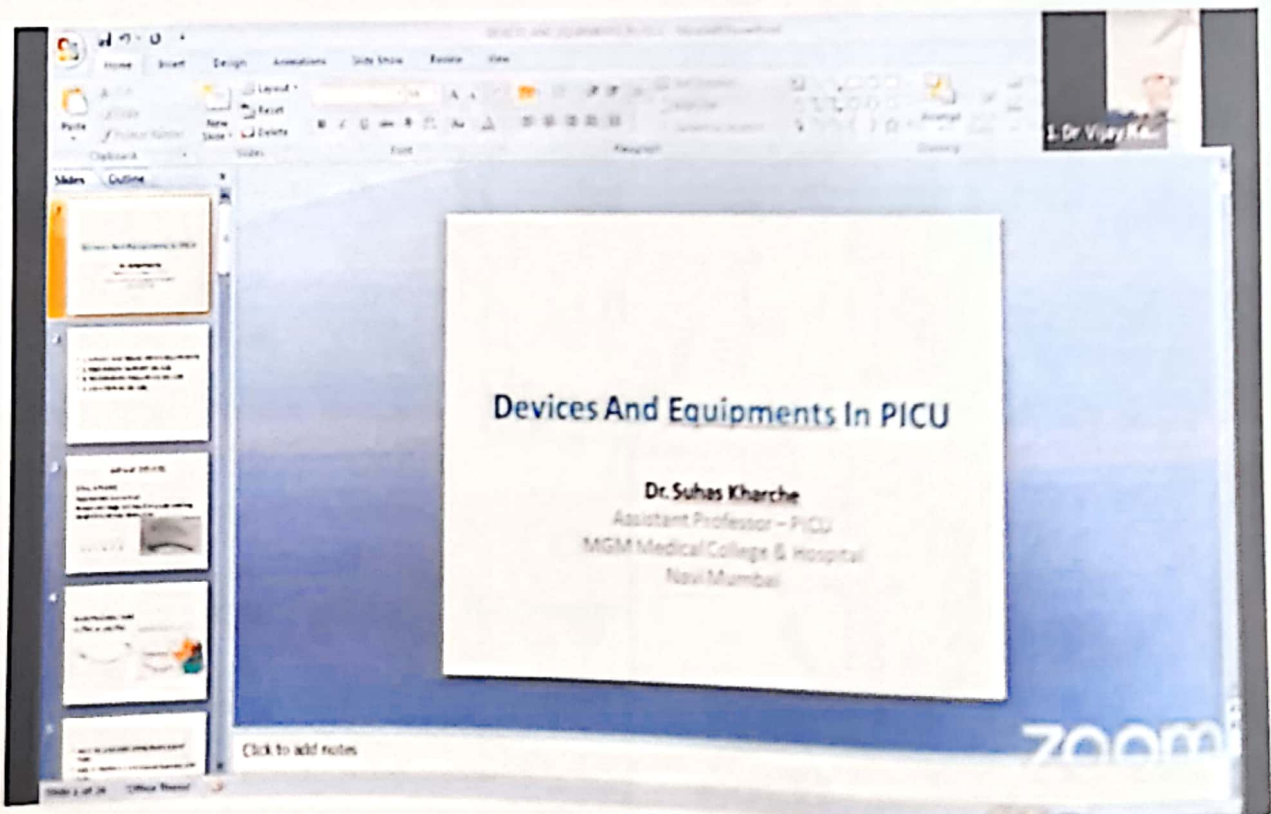

182 responses

88 (48.4%) participants strongly agree that the sessions provided opportunity for new learning.

Most of the participant felt all sessions were good

Report of Webinar
Patient Safety: Highest Priority
Dated: - 16-08-2021

Aim

The webinar focuses to ensure that the patient safety is institutionalized as a fundamental principle of the health care delivery system in improving health outcomes.

Objectives

- To understand essential components of patient safety in hospital.
- To recognize the various types of errors in hospital.
- To provide clear priorities and strategies for improving patient safety.

Participants

Total 100 participants were present.

Proceedings

Opening of The Webinar On “Patient Safety Highest Priority”

Introduction to the webinar

The Programme was started by the moderators, Ms. Arpita Khandekar, first year M.Sc. Nursing Student gave a warm welcome to all the Panelists and the participants who were present virtually. The welcome address was delivered by Ms. Zayeda Khan, first year M.Sc. Nursing Student at inaugural session.

Moderator 1 Arpita - Good afternoon to all the teachers and at students.

I Arpita Khandekar student of 1st year MSC nursing of MGMNB CON welcome you all for national webinar planned today on the topic “Patient Safety Highest Priority” your presence is appreciated we will start the workshop immediately after Lamp lighting & welcome song so here I request 3rd year to perform the welcome song.

Lamp lighting & welcome song

Opener of webinar

Moderator 2 Zayeda Khan - Hereby, Snel Alwaris 1st year MSc Nursing student, will be opener of the theme. So, here, I welcome Mr. Snel Alwaris to open existing presentation over to you Mr. Snel Alwaris

(Opening of the theme by Mr. Snel Alwaris)

Opening of theme

Patients Safety: Highest Priority

Good afternoon & Welcome Everyone for today’s National Webinar.

I, Mr. Snel Alwaris 1st year M.Sc. Nursing student of MGMNB CON, I’m honored and absolutely privileged to speak In front of you all and initiate the proceedings with opening of theme: ***Patients Safety: Highest Priority.***

Thank you for taking out your valuable time and being here today on this platform.

I would like to offer my sincere gratitude and thank our Nursing Director/ Principal Professor Dr. Prabha K. Dasila Madam, Vice Principal Dr. R. Ponchitra, Mrs. Susan Jacob- program coordinator & all my teachers for providing me extremely useful and enlightening opportunity to open the theme for today's Webinar.

The alarming rise in morbidity and mortality among hospitalized patients throughout the World concerns about professional competency. Nurses and other health care professionals are under increased scrutiny to provide safe & effective care. In this light, it becomes an extreme necessity that future nurses who will graduate, are capable of providing safe patientcare.

Evidence based practices has shown the increasingly growing magnitude of patient safety concerns in various reports and it's our obligation to gain knowledge of ways to make the health system safer.

So, in response to this highest priority of patient safety, we all have joined in this webinar to ensure that the patient safety is institutionalized as a fundamental principle of the health care delivery system in improving health outcomes.

Today we are going to have 4 enthusiastic sessions of deliberations by 4 eminent expertspeakers.

Agenda:

1. To understand Fundamentals of patient safety and its components.

In which main focus will be on to Who's safety is compromised and various factors responsible to ensure effective & safe patient care.

2. To recognize the various Types of Errors in healthcare system; because Patients can be harmed from health care, resulting in permanent injury, increased lengths of stay in hospital and even death. Adverse events occur not because people intentionally hurt patients, but rather due to the complexity of health-care systems, where treatment and care depend on many factors, in addition to the competence of health-care providers, difficulties in recognizing errors, lack of information system to identify the errors, shortage of clinical professionals & other system factors and human factors contributing in safety concerns.

3. **To identify Emerging challenges & provide Strategies to improve patient safety.**

In this emphasis will be on to determine the current challenges faced by health care workers like, detection of errors, reporting, blame culture, defensiveness and secrecy and reduction and mitigation of unsafe acts within the health care system, as well as through the use of best practice to lead optimal patient outcomes and responsibilities of governing bodies to enhance patient safety.

Implementation of international patient safety goals.

4. **To understand the Role of Healthcare team members in patient safety.**

As a health care team member what are the individual level and group level responsibilities of each member in ensuring safe patient care & positive outcomes.

Once a Wise man Said....

*When we take something as a problem,
we become a part of the problem.*

*When we take something as a challenge then
we become a part of solution.*

- The most dynamic speaker for today Dr. Padmaja Dhawale, Associate professor & Nursing Superintendent, MGM hospital, Kamothe to deliberate on first session - **Fundamentals of patient safety and its components.**
- Today we have among us our own charismatic speaker Mrs. Sarika Nair, tutor, MGMNBCON to deliberate on second session that is – **Types of Errors in healthcare system.**
- Third & most important session of **Emerging challenges & Strategies to improve patient safety** will be deliberated by the eloquent and dynamic speaker Mrs. Suparna Patil.

- **Fourth and last session** - Role of Healthcare team members in patient safety will be preached by a very distinguished inspirational speaker Dr. Jyoti Chaudhari

I again extend my warm welcome to everyone who could make it to join this webinar today & I'm confident that, at end of this webinar, you will all leave charged with a deep sense of feeling of patient safety in terms of safe environment & safe care.

Moderator 2 Zayed Khan: Thank you so much Mr. Snel Alwaris for the wonderful opening of the webinar. That was very useful and bring out interest in everyone.

Session 1

Moderator 2 Zayed Khan: Now I would like to welcome reputed Dr. Padmaja Pramod Dhawale, Associate Professor & Nursing Superintendent, Professional Qualification: RGNM from school of nursing, Parel. Mumbai 1993, P B BSc. Nursing from Wanless Hospital CON. Miraj. Sangli. Nasik 2001. M.Sc. in Pediatric Nursing from Bombay Hospital. CON. Mumbai. Nasik 2009. PhD in Pediatric nursing from MGMIHS, Navi Mumbai, 2021.

(Session 1- fundamentals of patient's safety and its components (2.15 pm to 2.45 pm) by Dr. Padmaja Pramod Dhawale)

Moderator 2 Zayed Khan: many thanks to Dr. Padmaja Pramod Dhawale ma'am. I appreciate the information you have shared about components of patient's safety, that was really helpful for us and the audience.

Session 2

Moderator 2 Zayed Khan: Now I would like to welcome Mrs. Sarika Sukesh Nair Tutor cum Clinical Instructor Professional Qualification: BSc Nursing from Vivekananda College of Nursing, Chitradurga, Karnataka, 2008. M.Sc. Nursing in Medical Surgical Nursing from MGM New Bombay College of Nursing, Kamothe 2018

(Session 2: Types of error in the health care system)

Moderator 2 Zayeda khan: Thank you Mrs. Sarika Sukesh Nair ma'am for praiseworthy information you have provided to all of us

Session 3

Moderator 1 Arpita – here I consider a great honor to welcome Mrs. Suparna Sunil Patil. Principal, Women's India Trust, School of Nursing, Professional Qualification: GNM from Bombay Hospital in 1989. P. B. BSc Nsg. From IGNOU in 2001. M Sc. Community Health Nsg. From L T College of Nsg, SNDT, Women's University, Churchgate. Mumbai, Perusing PHD from JJTU.

(Seccion 3 – Emerging challenges and strategies to improve patient safety)

Moderator 1 Arpita - Thank you so much Mrs. Suparna Sunil Patil ma'am for sharing admirable information with us.

Session 4

Moderator 1 Arpita – The next dignitary to honor us with her presence is Dr. Jyoti Milind Chaudhari, Associate Professor cum Research & Innovation Coordinator Professional Qualification: B.Sc. Nursing from L.T. College of Nursing, Mumbai 1997, M.Sc. in Community Health Nursing from L.T. College of Nursing, Mumbai 2001, PhD Nursing from MGM Institute of Health Sciences, Kamothe, 2019

(Seccion 4 – Role of healthcare team members in patient safety)

Moderator 1 Arpita – Thank you Dr. Jyoti Milind Chaudhari ma'am for the enviable and commendable information that you have shared with all of us that was really useful.

Valedictory function was done by Ms. Mahima Yadav, MGM New Bombay College of Nursing kamothe by 4.15pm to 4.30 pm.

Report on

“Online Demonstration on e-Library Resources for Faculties of MGM Medical Colleges, Navi-Mumbai & Aurangabad on 21st May 2021 by Elsevier Health Solutions/publishers.”

Introduction:

Elsevier Publishers are in the business of providing information and analytics that help institutions and professionals progress in science, advance healthcare and improve performance. They offer tools and solutions that can assist the medical professionals in their decision making process.

Certain Clinical search engine and Medical education platforms like **Clinical Key Flex** (which comprises of 650+ Full Text Journals) and **Clinical Key Student** (Next Generation UG Educational Platform) solutions are provided by Elsevier.

With a view to help understand the utility of these resources, the Medical Education Unit, MGM Medical College, Navi-Mumbai, had organized an Online Demonstration on e-Library Resources for Faculties of MGM Medical Colleges, Navi-Mumbai & Aurangabad.

The details of the program are as under:

Topic: Online Demonstration on e-Library Resources for Faculties

Date: 21/05/2021

Time: 12 noon to 1.30 pm

Resource Persons: Dr. Aagosh Chauhan & Mr. Chintan Parekh from Elsevier Health Solutions

No. of participants (online): 69

Coordinators for the programme:

Dr. Mrunal Pimparkar, MEU Co-ordinator, MGM Medical College, Navi-Mumbai
& Dr. Vasanti Kelkar, MEU Co-ordinator, MGM Medical College, Aurangabad.

Planning and Execution:

Circular was send to all All HODs, Curriculum Committee, MEU Faculty Members, IQAC Co-ordinator, Library Committee of both MGM Medical College, Navi-Mumbai & Aurangabad campuses regarding the Online Demonstration on e-Library Resources.

The Zoom link for the above online demonstration was created by Mr. Chintan Parekh from Elsevier Health Solutions and was mailed to Dr. Mrunal Pimparkar, MEU Co-ordinator who further mailed the link to Dr. Vasanti Kelkar, MEU Co-ordinator, MGM Medical College, Aurangabad, all HODs, Curriculum, MEU, IQAC, Library Convenor/ Co-ordinator/ Incharge and were further requested to forward the mail and link to their respective Department Faculties and members of both MGM Medical College, Navi-Mumbai & Aurangabad campuses, to facilitate them to attend the said demonstration programme.

Online attendance was taken by Mr. Chintan Parekh from Elsevier Health Solutions (host) and mailed to Dr. Mrunal Pimparkar MEU Co-ordinator.

Dr. Aagosh Chauhan & Mr. Chintan Parekh from Elsevier Health Solutions demonstrated (online) various tools and solutions like **Clinical Key Flex** (which comprises of 650+ Full Text Journals) and **Clinical Key Student** (Next Generation UG Educational Platform) solutions which are provided by Elsevier, that can assist the medical professionals in their decision making process.

All the participants appreciated the programme. Question- answer session was conducted online.

The online demonstration programme ended by vote of thanks by Dr. Mrunal Pimparkar, MEU Co-ordinator, MGM Medical College, Navi-Mumbai.

Report prepared by: Dr. (Mrs.) Mrunal Pimparkar, MEU Co-ordinator.

Name of Nodal / Regional Centre: Seth G.S. Medical College & KEM Hospital, Mumbai.
Name of Medical College where CISP II Workshop was held: MGM Medical College, Navi-Mumbai.
Dates of CISP II Workshop: 23-24 November 2020

Report of workshop on “Curriculum Implementation Support Programme (CISP) II” conducted by MGM Medical College, Navi-Mumbai from 23rd -24th November 2020.

Name of MCI Observer:

Dr. Munira Hirkani,

Co-Convener, MCI Nodal Centre,

Associate Director GSMC FAIMER ,

Associate Professor Physiology,

Seth G.S. Medical College & KEM Hospital, Parel, Mumbai.

The Medical Education Unit of MGM Medical College, Navi-Mumbai conducted the MCI recognized workshop on “**Curriculum Implementation Support Programme (CISP) II**” under the governance of the Nodal/ Regional centre -Seth. G.S. Medical College & KEM Hospital, from **23rd -24th November 2020.**

Dr. Munira Hirkani, Associate Professor, Physiology, Seth G.S. Medical College & KEM Hospital, Parel, Mumbai was appointed as the MCI observer for this workshop.

MGM Medical College, Navi-Mumbai is grateful to Medical Council of India for granting permission to conduct these workshops under the aegis of Nodal Centre, GSMC-KEM Hospital, Mumbai. Continuous guidance and inputs regarding the conduct of the workshop and knowledge resources were provided by GSMC KEMH, Mumbai, for the workshop. We are

Name of Nodal / Regional Centre: Seth G.S. Medical College & KEM Hospital, Mumbai.
Name of Medical College where CISP II Workshop was held: MGM Medical College, Navi-Mumbai.
Dates of CISP II Workshop: 23-24 November 2020

extremely indebted to the entire MEU faculty from GSMC KEMH for helping us to conduct the workshop effectively.

The Curriculum Committee Members and MEU members who had successfully completed the CISP workshop at the Nodal Centre were included as resource faculty for the workshop. A MEU meeting was called and the faculties were explained the outlines and objectives of the workshop. The List of topics and related resource material were distributed to the faculty members. The various speakers discussed their topics and finalized the content, duration, handouts, role play and group activities for the participants. The certificates were printed as per the format given by the Nodal centre.

Faculties from preclinical, para clinical and clinical departments of the college were selected. Prior to the workshop, a day before, the MEU had called a meeting for all participants, wherein they were briefed about the coming 2 days workshop, schedule and necessary instructions were given to them.

The IT Department was called to make necessary setting and installation of cameras, AV Aids for the MCI Observer to observe the whole workshop ONLINE. A day before the workshop an ONLINE mock drill was taken by Dr. Munira, MCI Observer to look into the arrangements made. Dr. Munira approved the IT settings and other arrangements.

The total no. of participants who attended the CISP II workshop from 23rd -24th November 2020 were 29. One participant Dr. Madhur Rai, Assistant Professor, Physiology, from the list sent earlier, could not attend this workshop due to medical reasons. Instead with permission from MCI Observer, Dr. Santanu Mallik, Assistant Professor, Anatomy, attended the workshop in place of Dr. Madhur Rai. Dr. Ajay Shendarkar, Professor, FMT whose name was sent in earlier list, was absent for the workshop due to medical reasons. All the participants were from the parent college. Their designations were as follows: a) Professor- 11, b) Associate Professor- 5, c) Assistant Professor- 11 and Tutor-2. Faculties from preclinical, para clinical, medicine and

Name of Nodal / Regional Centre: Seth G.S. Medical College & KEM Hospital, Mumbai.
Name of Medical College where CISP II Workshop was held: MGM Medical College, Navi-Mumbai.
Dates of CISP II Workshop: 23-24 November 2020

allied and surgery and allied disciplines were 6, 10, 7 & 6 respectively. The list of participants is attached in the Annexure I.

The Program titled “Curriculum Implementation Support Programme (CISP) II” was conducted for a period of 2 days from 23rd -24th November 2020, and the copy of programme is attached in Annexure II.

Day one (23rd November 2020) of the workshop:

The first day (23rd November 2020) of the workshop started with Registration and breakfast. The participants were divided into 5 groups. The MEU Co-ordinator, Dr. Mrunal Pimparkar welcomed MCI observer Dr. Munira Hirkani and addressed the audience and gave the workshop orientation to the participants. Pretest was administered to the participants.

Dr.Mrunal Pimparkar began with “Ice breaking and introduction of participants and faculty”. This was followed by sessions on “Competency based medical education (CBME)”, which was taken by Dr. Anjali Sabnis & Dr. Rita Khadkikar and “IMG: Goals, roles &Competencies” was taken by Dr. Bageshree Seth. There was lot of enthusiasm among the participants during the activity. Dr. A. D. Urhekar & Dr. Ipseeta Ray took a session on “Deriving objectives from competencies”, while Dr. Jaishree Ghanekar & Dr. Mrunal Pimparkar took session on “Linking competency objectives to Teaching Learning Methods (TLM)”. Group activity was given and was well appreciated by all participants.

Following lunch, Dr. Shilpi Sahu took the session on “Graduate Medical Education Regulations”. The session was very much appreciated by all participants. This was followed by sessions on “Electives” conducted by Dr. Darpan Kaur, followed by “ Foundation Course and Early Clinical Exposure” by Dr. Mrunal Pimparkar & Dr. Kalpana R and “AETCOM module” by Dr. Ipseeta Ray & Dr. Rita Khadkikar.

Name of Nodal / Regional Centre: Seth G.S. Medical College & KEM Hospital, Mumbai.
Name of Medical College where CISP II Workshop was held: MGM Medical College, Navi-Mumbai.
Dates of CISP II Workshop: 23-24 November 2020

The speakers shared their most cherishing teaching learning experience with the audience. The day ended with feedback on the sessions conducted during that day. The participants filled the required feedback / evaluation forms.

Day two (24th November 2020) of the workshop:

On day two- Dr. Kalpana Rajeev Kumar conducted session on “Student Doctor -Clinical Teaching”, while Dr. Ipseeta Ray & Dr. A. D. Urhekar spoke on “ Alignment and Integration”. Thereafter there was a session on “Skills training” by Dr. Bageshree Seth & Dr. Darpan Kaur. The sessions were brainstorming and after lot of deliberations, the participants came up with a constructive feedback. Dr. Jaishree Ghanekar & Dr. Anjali Sabnis took session on “Assessment in CBME”.

This was followed by session on “Aligning assessment to competency objectives & TLM” which was jointly taken by Dr. Shilpi Sahu & Dr Rita Khadkikar. Both the sessions generated a lot of curiosity and interest to learn more. Dr. Mrunal Pimparkar conducted session on” Curricular governance”. The participants found the sessions quite interactive and informative. The participants were given various exercises, which was effectively done.

The participants then filled the required feedback and evaluation forms and post test. Following open house, the programme ended with a Valedictory Function. Many participants and speakers spoke about their experiences and gave constructive feedback. The participants appreciated the workshop and assured that they would implement what they learned from the various sessions.

Newer topics in CBME curriculum, such as Foundation Course at the beginning of MBBS course, Electives and Early clinical exposure was dealt with in details by the faculty and generated tremendous response from the participants regarding its planning and implementation. The concept of integration and alignment of the subjects along with designing the time-table was

Name of Medical College where CISP II Workshop was held: MGM Medical College, Navi-Mumbai.
Dates of CISP II Workshop: 23-24 November 2020

also addressed. However, concerns were raised regarding the time frame for implementation, need for more faculty and need for support staff for effective implementations and documentation.

The sessions were assessed by the participants using evaluation forms from the MCI. The points allotted by the participants showed a significant improvement in knowledge and importance after each session. The participants were extremely satisfied with the overall arrangements and conduct of the workshop.

The Pre and post test scores are as under:

Feedback of Pre & Post test from participants

Q.No.	Questions	Results of participants who attempted correct answers	
		Pre Test	Post Test
1	As per the Graduate Medical Education Regulations, 2019, there should be atleastteaching days in each academic year.	35%	90%
2	What are the roles of Indian Medical Graduate?	27%	94%

Daily Session Evaluation

DAY 1 (23/11/2020)

Session	What was good about this session	How this session could have been made better	What about this session needs to be changed	Any other remarks
Competency based medical education (CBME)	Topic well covered explained, informative, interactive, good overview, clear, well presented, learner oriented session	Should have been more interactive, reducing duration, handouts to be given,	No comments Duration to be reduced	Very good session, good presentation
IMG: Goals, roles & Competencies	Session interactive, very well discussed, informative, interesting, good speaker, clear	More examples required, nothing, reducing hours	More time for this session required, nothing	Good presentation
Deriving objectives from competencies	Good interactive session with group activity, informative, interesting, well explained, learnt something new	More group discussions, giving more examples, reducing duration	More practical, no changes required	Good session
Linking competency objectives to TLM	Different learning methods learnt, informative, interactive, interesting, topic well covered	Slides to be more clear, more group activity, not required	No changes, hand outs to be given	Good session

Name of Local/Regional Centre: Seth G.S. Medical College & KEM Hospital, Mumbai.
 Name of Medical College where CISP Workshop was held: MGM Medical College, Navi-Mumbai.

Dates of CISP Workshop: 23-24 November 2020

GMER 2019	Very well explained, good overview, clear compact lecture, precise, informative, interactive	More practical oriented, nothing required, reducing duration, was well taught	No changes required	Speaker was good
Electives	Slides were good, got good orientation of topic, precise, interesting, informative	More examples required, reducing hours, making more interactive	No change required	Good session, satisfactory
Foundation Course & Early clinical exposure	Very well explained, elaborate session, slides were good, interesting, informative, many concepts cleared	Nothing needs to be changed, slightly more interactive	No changes required	Very good session
AETCOM module	Good preparation with video clip, informative interesting, clear crisp presentation, new concept taught well	More examples, nothing needs to be changed	No changes required, more group activity	Very important topic, good session

Dates of CISP Workshop: 23-24 November 2020

DAY 2 (24/11/2020)				
Session	What was good about this session	How this session could have been made better	What about this session needs to be changed	Any other remarks
Student Doctor -Clinical Teaching	Session was well articulated, new concept, good presentation, informative, practical problems were discussed, content was good, interactive	Could have been more interactive, time could have been extended, nothing specific	No changes required	Very good session
Alignment and Integration	Important topic, well explained, slides were nice, informative, very practice, interactive, good concept	More group discussion, more examples, nothing required	No changes required	Overall informative
Skills Training	Well presented, cleared all doubts, informative	Slides in PPT to be reduced, it was excellent nothing else required	No changes required	Excellent

Dates of CISP Workshop: 23-24 November 2020

Session	What was good about this session	How this session could have been made better	What about this session needs to be changed	Any other remarks
Assessment in CBME	Principles, Assessment methods elaborated nicely, interesting, good presentation, effective	More group activities, more interactive	No changes	Good
Aligning assessment to competency objectives & TLM	Group activity nicely conducted, informative, interactive	More examples, excellent, nothing specific	No changes	Good
Curricular Governance	Explained and Covered nicely, well presented, good overview, presentation was clear and crisp, informative	No suggestion, it was perfect	Nothing	Excellent

Mean scores on the retro-pre assessment :

Topic	Item	Mean pre-score/5	Mean post-score/5
Competency based medical education (CBME)	Knowledge	2.58	4.31
	Importance	3.13	4.68

**Revised Basic Course Workshop for Teaching faculty,
Tutors/Contract-Temporary faculty
At MGM Medical College, Navi-Mumbai**

Date: 23rd to 25th March 2021

Report of workshop on “Revised Basic course Workshop in Medical Education Technology” conducted by MGM Medical College, Navi-Mumbai

from 23rd to 25th March 2021

Name of MCI Observer: Dr. Sharmila Jalgaonkar, Associate Professor, Pharmacology, Seth G.S. Medical College & KEM Hospital, Parel, Mumbai.

The Medical Education Unit of MGM Medical College, Navi-Mumbai conducted the “**Revised Basic course Workshop in Medical Education Technology**” under the governance of the Nodal/ Regional centre -Seth. G.S. Medical College & KEM Hospital, from **23rd to 25th March 2021**.

Dr. Sharmila Jalgaonkar, Associate Professor, Pharmacology, Seth G.S. Medical College & KEM Hospital, Parel, Mumbai was appointed as the MCI observer for this workshop.

MGM Medical College, Navi-Mumbai is grateful to National Medical Council for granting permission to conduct these workshops under the aegis of Nodal Centre, GSMC-KEM Hospital, Mumbai. Continuous guidance and inputs regarding the conduct of the workshop and knowledge resources were provided by GSMC KEMH, Mumbai, for the workshop. We are extremely indebted to the entire MEU faculty from GSMC KEMH for helping us to conduct the workshop effectively.

The MEU Members who had successfully completed the RBW & AETCOM workshop at the Nodal Centre were included as resource faculty for the workshop. A MEU meeting was called

GSMC – KEMH – NMC Nodal Centre

Revised Basic Course Workshop for Teaching faculty, Tutors/Contract-Temporary faculty At MGM Medical College, Navi-Mumbai

Date: 23rd to 25th March 2021

and the faculties were explained the outlines and objectives of the workshop. The List of topics and related resource material were distributed to the faculty members. The various speakers discussed their topics and finalized the content, duration, handouts, role play and group activities for the participants. The certificates were printed as per the format given by the Nodal centre.

Faculties from preclinical, para clinical and clinical departments of the college were selected. Prior to the workshop, a day before, the MEU had called a meeting for all participants, wherein they were briefed about the coming 3 days workshop, schedule and necessary instructions were given to them.

The total no. of participants who attended the ‘Revised Basic course Workshop in Medical Education Technology’ workshop from 23rd to 25th March 2021 were 29. One participant Dr. Jayashree Narshetty from the list sent earlier could not attend this workshop due to medical reasons. All the participants were from the parent college. Their designations were as follows: a) Professor- 10, b) Associate Professor- 5, c) Assistant Professor- 13 and d) Tutor- 01. Faculties from preclinical were 8, from para clinical were 6 and clinical disciplines were 15 (Medicine and allied -9 and Surgery and allied were 6). The list of participants is attached in the Annexure I.

The Program titled “**Revised Basic course Workshop in Medical Education Technology**” was conducted for a period of 3 days from 23rd to 25th March 2021, and the copy of programme is attached in Annexure II.

Day one (23rd March 2021) of the workshop:

The first day (23rd March 2021) of the workshop started with Registration and breakfast. The participants were divided into 5 groups. Respected Dean Dr. G.S. Narshetty inaugurated the workshop, welcomed MCI observer Dr. Sharmila Jalgaonkar and addressed the audience. The

Date: 23rd to 25th March 2021

MEU Co-ordinator, Dr. Mrunal Pimparkar gave the workshop orientation to the participants. The participants filled the pre test forms.

Dr.Mrunal Pimparkar began with "Ice breaking and group dynamics". This was followed by sessions on "System's Approach, Principles of adult learning, Learning process", which was taken by Dr. Shilpi Sahu & Dr. Rakesh Ghildiyal. There was lot of enthusiasm among the participants during the activity. Dr.Mrunal Pimparkar took a session on "Goals, roles and Competencies: CBME and The IMG – Goals, roles and Competencies", while Dr. Shilpi Sahu took session on "Learning domains and progression of learning". Group activity was given and was well appreciated by all participants.

Following lunch, Dr. Anjali Sabnis & Dr. Ipseeta Ray took the session on " Objectives - Writing objectives - Developing objectives from competencies, linking learning and assessment with competencies". The session was very much appreciated by all participants. This was followed by sessions on "Workshop on writing objectives" conducted by Dr. Jaishree Ghanekar & Dr. Mrunal Pimparkar, followed by " Introduction to assessment" by Dr. A. D. Urhekar. The speakers shared their most cherishing teaching learning experience with the audience. The day ended with feedback on the sessions conducted during that day. The participants filled the required feedback / evaluation forms.

Day two (24th March 2021) of the workshop:

On day two- Dr. Jaishree Ghanekar & Dr. Rita Khadkikar jointly conducted session on "Choosing a teaching method for objectives and competencies – Workshop", while Dr. Mrunal Pimparkar & Dr. Anjali Sabnis spoke on " Interactive and Innovative teaching methods including Large Group (Demo), Small Group (with demo) and appropriate use of media". Thereafter there was a session on "Writing a lesson plan" by Dr.Bageshree Seth.

GSMC – KEMH – NMC Nodal Centre

Revised Basic Course Workshop for Teaching faculty, Tutors/Contract-Temporary faculty At MGM Medical College, Navi-Mumbai

Date: 23rd to 25th March 2021

The sessions were brainstorming and after lot of deliberations, the participants came up with a constructive feedback.

Dr. Jaishree Ghanekar, Dr. Kalpana Rajiv Kumar & Dr. Ipseeta Ray took session on “Assessment planning and quality assurance, Writing the correct essay question, short answer question and MCQ”. Dr. Kalpana Rajiv Kumar & Dr. Darpan Kaur took session on “Internal assessment and Formative assessment” The day ended with feedback on the sessions conducted during that day. The participants filled the required feedback / evaluation forms.

Day three (25th March 2021) of the workshop:

On day three, Dr. Rita Khadkikar & Dr. Ipseeta Ray conducted session on” Discussion on AETCOM Module: Reflection and Narrative”. This was followed by session on “Matching assessment to competency, objectives and learning Workshop,- Choosing the right assessment” which was jointly taken by Dr. Anjali Sabnis & Dr. Shilpi Sahu. Both the sessions generated a lot of curiosity and interest to learn more. Dr. Bageshree seth spoke on “Effective clinical and practical skill teaching”. The participants found the sessions very interesting. Dr. Jaishree Ghanekar & Dr. Kalpana Rajiv Kumar jointly conducted session on” Assessment of clinical and practical skills”. Dr. Anjali Sabnis conducted session on Improving SDL through technology”. Dr. Darpan Kaur conducted session on ” Feedback” while Dr. Mrunal Pimparkar & Dr. Darpan Kaur took session on “Educational networking for growth”. The participants found the sessions quite interactive and informative. The participants were given various exercises, which was effectively done.

The participants then filled the required feedback, post test and evaluation forms. The programme ended with a Valedictory Function. Many participants and speakers spoke about

Date: 23rd to 25th March 2021

their experiences and gave constructive feedback. The participants appreciated the workshop and assured that they would implement what they learned from the various sessions.

The sessions were assessed by the participants using evaluation forms from the NMC. The participants were extremely satisfied with the overall arrangements and conduct of the workshop.

The team work and spirit of the MEU in organising the workshop was appreciated by all the participants.

Conclusion:

The 3 days workshop on “**Revised Basic course Workshop in Medical Education Technology**” was successfully conducted at MGM Medical College, Navi-Mumbai from **23rd to 25th March 2021**, as per the protocol suggested by NMC, and was well appreciated by the participants. The workshop involved lot of Group activities, Individual task, Role plays, small group discussions etc. The point’s allotted by the participants showed a significant improvement in pre test and post test. The attendance was 100 % on all three days.

Dates: 23-25 March 2021

Day 2: 24th March 2021				
9:00	Choosing a teaching method for objectives and competencies – Workshop	choose the appropriate teaching method for various objectives and competencies	90 minutes	Dr. Jaishree Ghanekar & Dr. Rita Khadkikar
10.30	Tea Break			
10:45	Interactive and Innovative teaching methods including Large Group (Demo), Small Group (with demo) and appropriate use of media	a. use the principles of interactive learning in a large group b. use the principles of interactive learning in a small group c. choose appropriate media for a given learning session	105 minutes	Dr. Mrunal Pimparkar & Dr. Anjali Sabnis
12:30	Writing a lesson plan	develop a lesson plan appropriate to the objectives and teaching learning method	45 minutes	Dr. Bageshree Seth
13:15	Lunch		45 minutes	
14:00	Assessment planning* and quality assurance, Writing the correct essay question, short answer question and MCQ	a. write an appropriate essay question b. write an appropriate short answer question c. write an appropriate MCQ	120 minutes	Dr. Jaishree Ghanekar, Dr. Kalpana Rajiv Kumar & Dr. Ipseeta Ray
16:00	Tea break		15 Minutes	
16:15	Internal assessment and Formative assessment	develop a plan for internal assessment and formative assessment	40 minutes	Dr. Kalpana Rajiv Kumar & Dr. Darpan Kaur

* use AETCOM module and Revised UG Curriculum for this session

Seth GS Medical College NMC Nodal Center
Name of College: MGM Medical College, Navi Mumbai
**Program of Revised Basic Course Workshop for Teaching faculty, Tutors/Contract-
Temporary faculty**
Dates: 23-25 March 2021

Day 3: 25th March 2021				
9:00	Discussion on AETCOM Module: Reflection and Narrative	a. demonstrate the ability to use the AETCOM module for Basic Course in MET to be held b. demonstrate the ability to write reflection & narrative on AETCOM Module c. demonstrate readiness to launch AETCOM module in own college	60 minutes	Dr. Rita Khadkikar & Dr. Ipseeta Ray
10:00	Matching assessment to competency, objectives and learning Workshop - Choosing the right assessment	choose the right assessment method for a given objective/ competency and learning method	60 minutes	Dr. Anjali Sabnis & Dr. Shilpi Sahu
11.00	Tea Break		15 minutes	
11:15	Effective clinical and practical skill teaching	a. teach skills effectively b. teaching skills at the workplace c. use a skills lab effectively	60 minutes	Dr. Bageshree Seth
12:15	Assessment of clinical and practical skills	a. assess skills effectively b. assess skills at the workplace c. use a skills lab to assess competency in skills d. design a skills assessment station	60 minutes	Dr. Jaishree Ghanekar & Dr. Kalpana Rajiv Kumar
13:15	Lunch		30 minutes	
13:45	Assessment of clinical skills (cont.)		60 minutes	Dr. Jaishree Ghanekar & Dr. Kalpana Rajiv Kumar
14:45	Improving SDL through technology	a. promote self directed learning (SDL) in students b. use technology to improve self directed learning	30 minutes	Dr. Anjali Sabnis
1515	Tea Break			
15:30	Feedback	provide effective feedback to students	30 minutes	Dr. Darpan Kaur
16:00	Educational networking for growth	a. understand avenues for growth in education b. create networks in education	45 minutes	Dr. Mrunal Pimparkar & Dr. Darpan Kaur
16:45	Closing

Revised Basic Course Workshop for Teaching faculty,
Tutors/Contract-Temporary faculty
At MGM Medical College, Navi-Mumbai

Date: 23rd to 25th March 2021

Session Evaluation Questionnaire

Please help the presenters to improve their presentation by completing this form. Please be precise in your suggestions.

DAY 1: 23 rd March 2021				
Session	What was good about this session	How this session could have been made better	What about this session needs to be changed	Any other
Ice Breaking & Group Dynamics	Role of group in achieving a goal, excellent presentation, interactive, good examples given, understood importance of team work, described precisely, informative, creative, good content, lively session, interesting session, good activity and demonstration, interaction with other team mates, very nice group activity, informative and participatory, very innovative, terminologies made easier with apt examples	It was perfect, a video on group dynamics can be shown, can't be more good	Nothing, atleast two group activities should be planned, No need to change anything	Excellent s with exam

Systems Approach	Good PPT, approach to adult learning is clear, Good session, excellent, good content, good slides, interesting session, good examples, simplified and interactive session, introduced to new terminology, informative and participatory, it was to the point, sophisticated explanation,	It was perfect, should have been more presentable, more interactive, few practical examples,	Change few slides, Too long can be short, too many slides, No need to change anything	Make it interactive, make it short and simple, informative and participatory,
Learning Process & Adult Learning	Excellent presentation, good speaker, competency based learning is clear, Good session , good content, crisp, practical examples, linking the principles with real life situations, very informative, informative and participatory, too much elaborate, innovative concepts,	More emphasis on adult and child learning, Could have been elaborated with examples, Video clip of how child and adult learns will be good	Slides could be better, No need to change anything	Monotonous , too lengthy , question answer session was nice,
Goals, Roles, Competencies: CBME	Excellent presentation, perfect session, good PPT, interactive, Good session, good content, made it simple to understand, comprehensive, nice content good teaching, Brain storming, conceptual, nice debate, informative and participatory, learned competencies,	Few more examples may help	No need to change anything	Excellent, With CBME faculty burden increases and patient care may be neglected,

Learning Domains, Progression of Learning	Good explanation , very good, informative, very productive, informative and participatory, very lively lecture, good content, interactive and realistic example, excellent presentation, simplified lecture with real life situations and examples, simplified the content, different domains are clear now, good PPT, good speaker	Slight repetition, good enough	No need to change anything	Nil
Objectives – Writing objectives Developing objectives from competencies, linking learning and assessment with competencies	Defined well, very good, informative, short and very impressive, excellent presentation, informative and participatory, well explained, simplified examples, explained the steps very well,	Repetitive,	Repetition of slides, More time to be given for this session, No need to change anything	Nil
Workshop on writing objectives	Good group co-ordination, interactive, informative, useful session, interaction with audience was excellent, informative and participatory, nice interactive session with interesting group exercise, excellent presentation, hands on experience on SLO and domains, exercise given to each group helped us understand better,	Nil	Should be more simplified, Could be more elaborative, Subject specific SLOs can be practiced , No need to change anything	Nil
Introduction to Assessment	Covered basics, good session, informative, nicely simplified, informative and participatory, good clarity, nice session with good information and well explained, good presentation, excellent presentation, content of slides are good,	Monotonous, More examples required, conduction of some exercise/ group activity	Shorten time, Should be more interactive and participative session, No need to change anything	Nil

DAY 2: 24th March 2021

Session	What was good about this session	How this session could have been made better	What about this session needs to be changed	Any rem
Choosing a teaching method for objectives and competencies Workshop	Content was good, Interactive, group activity interesting, presentation was good and clear, interesting and informative, excellent session, useful and informative, clear concept, good PPT, got to know new methods of teaching, effective examples, informative and participatory, very clear and appropriate, basics covered well	More examples required	Practical execution, No need to change anything	Nil
Interactive and Innovative teaching methods including Large Group (Demo)	Good content, interactive, well explained, very informative, excellent session, very extensive, very lively speakers, good PPT, good talk, learnt different and new methods, developed interest, informative and participatory	Repetition	Can be of shorter duration, No need to change anything	Nil
Small Group (with demo)	Interactive, interesting, well explained, effective, excellent session, productive and useful, crisp and enthusiastic, good interaction, very good and apt, interesting, learnt different and new methods, nice group activity, good slides, Nice PPT, informative and participatory,	More explanation needed on some methods	Repetition, No need to change anything	Nil

Appropriate use of media	Good methods and media, Excellent session, good facilitator, good content, Interactive, informative session, very appropriate, Nice session, informative and participatory, various methods summarized, interesting, Apt and clear thoughts, Nice PPT,	Monotonous and repetition,	Time should be shortened, No need to change anything	Nil
Writing a lesson plan	Excellent session, Slides and material very well explanatory, Nice session, good content, good explanation, Interactive, informative session, new and will definitely apply, important before taking lecture, informative and participatory, explained point to point very well, got to know importance of lesson plan and how to plan it, interesting, Nice PPT, slides were nice, good group activity with examples	Nil	No need to change anything	Nil
Assessment planning and quality assurance, Writing the correct essay question, short answer question and MCQ	Excellent session, good details given, good content, Interactive, informative session, Nice session, informative and participatory, made it simple to understand, nicely explained in-depth knowledge of SAQ, LAQ, MCQ, learnt how to frame MCQS, interesting, very well presented and simplified, Nice PPT, activities interesting	More detailing about SAQ and LAQ	No need to change anything	Nil
Internal assessment and Formative assessment	Excellent session, Basics covered, Interactive, Nice session, informative session, good session, clear concept, informative and participatory, learnt how to plan assessment effectively, nice explanation, interesting, Nice PPT	Nil	No need to change anything	Time should be short

DAY 3: 25th March 2021

Session	What was good about this session	How this session could have been made better	What about this session needs to be changed	Any other
Discussion on ATCOM: Reflection and Narrative	Good PPT, Interactive, good content and presentation, concept explained very well with examples, AETCOM incorporation since beginning of curriculum good, will try to implement it, was very informative, Newer ideas, Informative and participatory, good explanation,	Need to give Some model answers to case based situation to help faculty,	No need to change anything	Best sess session sl on first d: not on la:
Matching assessment to competency, objectives an learning Workshop – Choosing the right assessment	Interactive, learnt how to assess students with examples, structuring the right assessment method, concepts cleared, Depth analysis was done, Useful session, Informative and participatory, from this session we understood to choose proper assessment method, good group activity,	Nil	Exercises should have been given, No need to change anything	Nil

Effective clinical and practical skill teaching	Concept is clear Interactive, slides and video good, Good video, good session, Excellent, Informative, Informative and participatory, effective teaching skills, good group activity,	Nil	Too much information, No need to change anything	Explain with more examples
--	--	-----	---	-------------------------------

Assessment of clinical and practical skills	Interactive, very nice lecture, explained well, nice demonstration, Useful session, use of OSCE, OSPE, MiniCEX was useful, Informative and participatory, good role play, crisp and informative	Could give a video on OSCE	Nil, No need to change anything	Learnt how to plan in our department
Improving SDL through technology	Interactive, good content, exemplifying examples, Informative and participatory, well explained, Informative, good content, good presentation	Elaborate on some methods, group activity would have been added, more examples required,	Nil, No need to change anything	Nil
Feedback	Interactive, good slides, very lively, Apt examples, examples were good, Nice session, Informative and participatory, well explained, Informative, good content	Nil	Nil, No need to change anything	Activity was very helpful
Educational networking for growth	Good content and style of delivery, good slides, interactive session, Nice session, Informative and participatory, good session, good presentation and clarity, well explained	Nil	Nil, No need to change anything	Nil

Feedback of Pre-Post test

	A. Direction: Given below are 15 statements. Encircle the alphabet T (True) or F (False) whichever is applicable for the following statements.	Pre test (%)	Post test (%)
1	The purpose of training medical teachers in systems approach is for holistic development of students.	96.51%	96.55%
2	To achieve its goal a medical institution needs to be a closed system.	79.31%	89.65%
3	Teaching of undergraduate medical students should be based on adult learning principles.	75.86%	86.20%
4	The stage where members of the group have high trust, clear purpose, shared responsibilities and good communication is called norming.	86.20%	96.55%
5	Adults value learning that integrates with the demands of their everyday life.	89.65%	93.10%
6	The element of a specific learning objective that describes the acceptable level of proficiency is called condition	27.58%	13.79%
7	Lecture is always a teacher-controlled method of teaching.	65.51%	27.58%
8	The purpose of small group teaching is passive learning.	93.10%	93.10%

9	Use of blackboard as a teaching aid facilitates concentration amongst students by attracting attention.	72.41%	48.27%
10	An assessment is valid when it measures what it purports to measure.	86.20%	96.55%
11	Viva voce lacks reliability.	37.93%	72.41%
12	A difficult MCQ must be stored if it is relevant.	86.20%	82.75%
13	Prevalidation of MCQs should be as far as possible an individual effort.	55.17%	72.41%
14	The MCQ with a negative discrimination index can be used in entrance examinations.	31.03%	65.51%
15	Cognitive, psychomotor and affective domains can be evaluated using Objective Structured Clinical Examination (OSCE).	96.55%	89.65%

B. Direction: for each of the following items below, the given statements are true or false. Encircle T if the statement is true, and F if the statement is false.

Sr No		Pre test		Post Test	
			%		%
1.	The purpose of assessment is				
	a) Safe guarding the public		34.45%		41.74%
	b) Monitoring learning process		92.49%		93.6%
	c) Modifying learning activities		70.31%		79.48%
	d) Determining programme effectiveness		85.75%		85.48%
2.	The advantage of Objective Structured Clinical Examination (OSCE) as a method of evaluation is				
	a) It requires less time		42.61%		63.10%
	b) It maintains uniformity		94.86%		99.91%
	c) Faculty training is not required		83.44%		87.48%
	d) Resources required are limited		66.46%		69.65%

	C. Direction: Encircle the alphabet corresponding to the most appropriate answer.	Pre test (%)	Post test (%)
1	In a written assessment, problem solving ability can be best tested by	24.13%	62.06%
2	Long answer questions (LAQ) as an assessment tool is	31.03%	58.62%
3	Which one of the following types of MCQs is framed when the distractors are of unequal length?	10.34%	27.58%
4	Which one of the following types of MCQs tests recall of facts?	37.93%	75.86%
5	What should be the minimum % of students responding to a distractor, so that it can be considered as an effective alternative?	41.37%	62.06%
6	What does an item difficulty index represent?	27.58%	37.93%
	D. Following are the terms used for progression of learning – 1) Goal 2) Competency 3) Learning Objective		
	a) The student shall be able to examine a patient with hernia and explain him the treatment options.	31.03%	55.17%
	b) The student shall be able to demonstrate ability to perform a physical examination that is complete and relevant to disease identification, disease prevention and health promotion.	37.93%	51.72%

	c) The student shall be able to function effectively as a physician of first contact with global relevance.	58.62%	86.20%
	<p>E. Following are 3 domains of educational objectives:</p> <p>1) Cognitive 2) Affective 3) Psychomotor</p> <p>Write in the bracket provided, the number corresponding to domain of each objective.</p>		
	<p>a) The learner shall be able to write a prescription for a patient with headache.</p> <p>b) The learner shall be able to reassure an anxious patient awaiting an invasive procedure.</p> <p>c) The learner shall be able to enumerate the commonly used antihypertensive drug.</p> <p>d) The learner shall be able to perform cardiopulmonary resuscitation in emergency situations.</p> <p>e) The learner shall be able to estimate urine proteins under supervision.</p> <p>f) The learner shall be able to listen actively to patient's complaints.</p>	<p>37.93%</p> <p>48.27%</p> <p>62.06%</p> <p>44.82%</p> <p>31.03%</p> <p>34.48%</p>	<p>68.96%</p> <p>82.75%</p> <p>89.65%</p> <p>93.10%</p> <p>82.75%</p> <p>96.55%</p>

GSMC – KEMH – NMC Nodal Centre

Revised Basic Course Workshop for Teaching faculty, Tutors/Contract-Temporary faculty

At MGM Medical College, Navi-Mumbai

Date: 23rd to 25th March 2021

Program Evaluation Questionnaire

Dear Participant,

The purpose of this questionnaire is to obtain your feedback on the effectiveness of the sessions which you underwent during the pre-conference workshop. Your response will help us in improving such activity in future. You may not reveal your identity if you like. Your response will be held confidential and used only for research purpose. We thank you for your cooperation.

Questions	Yes	No	Not sure
1. Were the objectives of the workshop largely achieved?	27	0	2
2. Do you find workshop useful for your professional activities?	28	0	1
3. Did the workshop elicit your active participation?	28	1	0
4. Were the learning resources distributed were helpful?	25	1	3
5. Were the faculty helpful and responsive to your learning needs?	28	1	0

<p>7. Do you recommend the organization of similar activity?</p> <p>If yes, please mention the frequency/ venue:</p>	<p>26</p> <p>Monthly- 2</p> <p>Three monthly-3</p> <p>Annual-2</p> <p>No response- 19</p> <p>Once in two years-2</p> <p>Twice a year- 1</p>	<p>2</p>	<p>1</p>
<p>8. Did the workshop have a balance of Theory and Practical?</p>	<p>Too much of theory</p> <p>8</p>	<p>Too much of practical</p> <p>0</p>	<p>Optimum proportion</p> <p>21</p>
<p>9. Was the time management satisfactory?</p>	<p>Program was Too tight</p> <p>07</p>	<p>Program was Too relaxed</p> <p>0</p>	<p>Program was Optimum</p> <p>22</p>

Organizational Aspects	Good/Fine	Fair/OK	Poor/could be improved
10. Audio-Visual arrangements	27	2	0
11. Venue arrangements	22	5	2
12. Food and catering	19	10	0

List over all strengths of the workshop:

- Good Time Management
- Well organized
- Good Faculties
- Learnt many new things about CBME

- Good group activities
- Trained Faculties
- Planning and execution
- Friendly environment
- Faculty very enthusiastic
- Excellent Faculty
- Good team work
- Very informative
- Excellent speakers with good clarity about the topic
- Interested and active faculty
- Got introduced to new terminologies
- Informative and participatory
- Interactive, illustrative, participative

List the deficiencies/limitations:

- Repetition of topics
- Exhaustive
- More examples should be discussed for clinical subjects
- Too many slides
- Very lengthy
- Time constraint , too much information in 3 days

Comments and suggestions:

- Overall good learning
- Subject specific exercises can be included
- Will implement the knowledge gained during workshop in future while teaching students
- Workshop Should not be conducted offline in such pandemic situation
- Frequent organization of such sessions
- Some topics are new, require reinforcement
- Some sessions can be shortened

Subject:-Permission to conduct Revised Basic Course Workshop (rBCW) for Teaching Faculty, Tutors/ Contract-Temporary Faculty at MGM Medical College, Navi Mumbai from 23rd -25th March 2021 - Nomination of Dr. Sharmila Jalgaonkar, Associate Professor, Department of Pharmacology from Nodal Centre, Seth G.S. Medical College & KEM Hospital, Mumbai, as observer – reg

Dear Dr. Hirkani,

I am directed to inform you that the National Medical Commission is pleased to permit Dr. Sharmila Jalgaonkar, Associate Professor, Department of Pharmacology from Nodal Centre, Seth G.S. Medical College & KEM Hospital, Mumbai to attend the Revised Basic Course Workshop for Teaching Faculty, Tutors/Contract-Temporary Faculty from 23rd -25th March 2021 at MGM Medical College, Navi Mumbai as observer on behalf of National Medical Commission.

The Observer is requested to submit report of the workshop and participant list in the respective proforma (sent earlier) by E-mail (academiccell@gmail.com). Reimbursement of TA/DA and payment of honorarium will be done after receiving the report and list of participants from the observer.

Terms & conditions for conduct of workshop & issue of Certificates:

1. Since many of the workshop programmes like small group discussion, OSCE/OSPE etc. can be effectively taught only in small groups and since the number of trained resource faculty in the RCs/medical colleges are limited, the Convener of the Regional/Nodal Centres must ensure that the number of faculty participation in each workshop should not exceed 30. Additional names of participants will not be entered in the NMC Website.
2. If any participant misses any session, certificate will not be signed by observer & college will not issue the certificate until the participant attends the missed session when the said workshop is conducted again by the said college.

Government of India Rules will be applicable for entitlement for travel and accommodation. Please note that for travel & booking of accommodation, services of NMC approved travel agent must be used. The details are as under:

Name : M/S Balmer & Lawrie & Co. Ltd.
 Contact Person: Sh. Om Prakash
