1.1.1 Outcome analysis of POs and COs

- The Institute has clearly stated program outcomes (POs), and course outcomes (COs) for its all-academic programmes.
- The Faculty and students are made aware of the learning outcomes at beginning of academic session.
- Course outcomes and objectives are printed in syllabus of each course. The process of mapping of course outcomes-programme outcomes is ongoing.
- Analysis of Program outcomes is achieved by formative and summative evaluation.
- A handbook with details of each department is provided to the students at the beginning of academic session.
- Log books and departmental journals are maintained by the students.
- The students and teachers are provided with academic calendar wherein planning is done for the entire Semester providing all the learning objectives and outcomes at various levels.
- The faculty is trained regarding formulation and achieving teaching-learning objectives and outcome evaluation by training programmes conducted by the Medical Education Technology cell.
- At the College and University level IQAC and the University has apex role in monitoring, and reforming all the strategies related to teaching learning and assessment.
- The College regularly monitors the performance of the students via internal examinations, viva-voce, and University examinations.
- Extra/remedial classes/tutorial sessions and mentoring sessions are conducted for slow learners.

The Institution has a well- structured feedback mechanism system in place. Feedback is obtained from all stakeholders such as students, teachers, employers, parents, alumni and professionals regarding curricular aspects, teaching learning processes, infrastructure, etc. The feedback is analyzed at departmental level and at the University level. After analysis, corrective actions are initiated and monitored. Evaluation of learning objectives includes both direct and indirect methods.

Outcome analysis of POs and Cos

- The Institute has clearly stated program outcomes (POs) and course outcomes (COs) for its all-academic programmes department wise.
- The Faculty and students are made aware of the learning outcomes at beginning of academic session. Course outcomes and objectives are printed in syllabus of each course. The process of mapping of course outcomes programme outcomes is ongoing.
- Analysis of Program outcomes is achieved by formative and summative evaluation.
- A handbook with details of each department is provided to the students at the beginning of academic session.
- Log books and departmental journals are maintained by the students.
- The students and teachers are provided with academic calendar wherein planning is done for the entire Semester providing all the learning objectives and outcomes at various levels.
- The faculty is trained regarding formulating and achieving teaching-learning objectives and outcome evaluation by training programmes conducted by the Medical Education Technology cell.
- At the College and University level IQAC and the University has apex role in monitoring, and reforming all the strategies related to teaching learning and assessment.
- The College regularly monitors the performance of the students via internal examinations, viva-voce, and University examinations.
- Extra/remedial classes/tutorial sessions and mentoring sessions are conducted for slow learners

Principal
MGM School of Physiotherapy

- The Institution has a well- structured feedback mechanism system in place. Feedback is obtained from all stakeholders such as students, teachers, employers, parents, alumni and professionals regarding curricular aspects, teaching learning processes, infrastructure, etc. The feedback is analyzed at departmental level and at the University level. After analysis, corrective actions are initiated and monitored. Evaluation of learning objectives includes both direct and indirect methods. The direct methods include tests, presentations, laboratory work, student projects, seminars, Problem- Based-Learning, Journals clubs, quizzes, assignments, portfolios, six monthly progress reports, logbook for students' work, participation in competitive exams, intercollegiate competitions, multiple choice questions (MCQs), objective structured clinical examination (OSCE), short and long case assessment, simulators, peer assessment and others. The indirect methods include surveys, such as feedback from
- Students, faculty members, employer or alumni, job placement rates, self-evaluations
- The institution has formulated course outcomes to make the students more competent with respect to all domains of leaning (Cognitive, Affective and Psychomotor domains). Accordingly, their learning assessment is conducted in form of formative and summative assessment.
