Dear Dr. Rita Khadkikar,

Greetings from **QS I-GAUGE!**

Please find the excel attached with this mail for credentials and survey links.

Also, would request you to refer to the QS I-GAUGE [methodology](#) for understanding the scoring and weightage provided for each category.

Call to Action:

Introductory session – Conducted on **19th April 2023**.

Independent survey – The institution must coordinate with us for the independent surveys to elicit responses from students, faculty members, and alumni. Below are the survey links corresponding to all the stakeholders and their respective thresholds. It is required that the institution circulates the survey links amongst its stakeholders and ensures that the minimum representative sample threshold is achieved. You will receive frequent updates on the number of responses once the survey is circulated at your end.

Type of Survey	Sample size to be met
Student	30% or more of the total current student population on-campus
Faculty	60% or more of the total faculty size currently employed with the institution
Alumni	10% or more of the total current student population on-campus

Digital data input sheet – The institution is required to submit the QS I-GAUGE digital data input sheet duly filled within eight weeks. Please ensure to attach the necessary evidence as mentioned in the digital data input sheet.
