Subject : Regarding changing of Solar LED Street Light

Dear Sir/ Madam,

We, M/s. Isvara Illuminations LLP, would like to introduce ourselves as an Authorized Distributor of Philips Lighting product in Home Decorative and professional segment.

This is to confirm that our team along with Philips Company's technical representative had visited the site on 13th May, 2023 and came to conclusion that the existing Solar LED Street lights are unserviceable and needs immediate action of changing it new ones.

Further to this, we are recommending you to go for Philips 25W Solar LED Street Light which we are sure will suffice your requirement and will illuminate the pathway as desired. Kindly go through the attached quotation for your approval and further action.

Thanking You.

Yours Faithfully

Sensor based water conservation through waterless urinals
(Document Endorsed by DCB Bank with sign and stamp)

Dear Sir,

Subject: Proposal from DCB Bank - Installation of 12 waterless urinals at MGM Medical College, Kamothe as a part of the Bank's Corporate Social Responsibility (CSR) Initiative.

DCB Bank Ltd. proposes to implement a water saving project with MGM Medical College Kamothe. The environment friendly project will reduce use of water in gent's urinals. This project will cut usage of water and help the College save 1.5 liters of water per use for each urinal. This is an excellent example of saving precious groundwater.

We seek your kind approval for the Bank's implementation agency for a site visit to gather first-hand information for the project. Conversion of existing units to waterless urinals will be done carefully where the pipes can be refit possible without breakage of walls.

Sallent features of the CSR Project

The waterless fittings and installation cost shall be the responsibility of DCB Bank as a part of Corporate Social Responsibility. The waterless innovation has been validated and incubated at Indian Institute of Technology, Delhi. The patented product is 'made-in-India' and awarded by the Government of India in the recent past. The innovation reduces odour and saves approximately 1.5 to 1.8 liters of water per use.

The Zerodor waterless fittings after installation shall be the property of and care of the host institution for perpetuity. The responsibility for maintenance and upkeep is that of MGM Medical College.

The Bank's implementation partner will skill and train the maintenance staff nominated by MGM Medical College for proper care of the fittings. We ask the host institution to ensure adherence to the daily cleaning and regular maintenance scheduled. This will ensure longevity of the fittings.

For the project, the Bank seeks kind approval to display information, project details and DCB Bank brand to highlight the association with your renowned institution. Swachh Bharat messaging will be incorporated to highlight the unique waterless aspect of the project. The information display, communication material will be created by DCB Bank. We will be delighted to receive your approval to include the name and logo of your institution in this communication material. The message will be made in English; regional language translation can also be incorporated.

We keenly look forward to your kind approval for DCB Bank's corporate social responsibility project on waterless urinals. Our team will be in touch with your office for coordination requirements.

Yours Sincerely,

Rakesh Sharma
