A good faculty staff room with basic amenities in college and hospital premises is needed.  
A decent canteen with seperate area for faculty and post graduates will be appreciated

14. Suggestions about how to improve our Program for better outcomes \*

Have industry relevant syllabus and laboratory techniques. Make students aware of options outside Academia, to keep options open. Most importantly make them aware how the companies actually functions and the departments they have so they can carve a clear path ahead.

## 7. Any suggestions for improvement of our Institute? \*

1 - The higher authorities should motivate to those staffs by AWARD or if not possible at least give a APPRECIATION CERTIFICATE who are going to participate in any science conference and represent MGMIHS name in that conference and won prizes, so they will motivate to participate in various types of research conferences in future.

2- Salary & Increment of the staff is not satisfactory, so increase salary of staffs.

3 – The department is going on in the basement section, but the total basement section is not allotted, some areas are allotted by the store room of other department and there is a XEROX section present in the basement section which causes very problems for staffs and patients like...

I – For patients it is difficult to find our department, in basement section by which patients search department in other sections of MGM which causes harassment and exhaustion of patients and create bad impression of MGM.

II – The only small faculty room is now not usable because we have to give them to lift service perrons to installation of lift, by which staffs are now not have any room to sit to do their academic activities in department.

III – In Admission period if, the Staffs of the department don't have any room to sit so...How can they discuss with parents and interested students who may take admission in BPO programme.

IV – As per my experience since 2020, every year we loose minimum 5-7 students who may be take admission in our department due to lack of proper infrastructure.

V – When we tried to communicate to those parents or students they said, the infrastructure of the department is poor, so they don't want ton take admission in this department.

VI – The current students of our department are not also satisfied about the infrastructure so they don't refer any other students to take admission in our department.

VII – If Any patient (Amputee) came to basement via lift and after that the electricity gone & don't come sometimes, so in that condition staffs & students Carry the patient with wheel chair to ground section of department via stairs by Hand which is a dangerous situation for patient and students.

VIII – As the department is situated in basement section, the environment is not suitable for any student & staff to work properly.

4 – We need a separate Clinical section which consist of (Assessment Room, Casting & measurement room for patient, Mold modification room & 2 Separate workshops (Prosthetics & Orthotics), P&O device trial room and Gait training section of patient in one area to serve Divyangjan.

5 – In a Disabled situation of department, it is not possible for the department to work on the dream that consist of total eradication of Disabled people from Raigad District. So, we need proper Infrastructure to work properly.

6 - As per my work experience with various faculty of MGMIHS, i believe that if they got proper chance to develop him/her self without extra burden of various types of documental and other types of unnecessary works by which the productivity of a person is minimized....and higher authorities need to

support them...(Growth of human resource) because growth of this resource is very important for an institute) to achieve its goal.
