Faculty Development Program

Report : FDP on Creating Concept Maps Using Technology /Software

Preamble: The New National Education Policy 2020 encourages that all educational institutions to go digital and provide their curriculum in a flexible, holistic and multidisciplinary manner. It also emphasizes institutions to create a digital repository of content through e- learning platforms. Concept maps helps the students to organize the information, enhance understanding and improve memory retention Hence the Faculty Development Program (FDP) on Creating Concept Maps Using Technology /Software” was conducted.

University Internal Quality Assurance Cell

A brief Presentation and discussion on the features of C -map tools an online software in the free version was explained to the participants. Software drop down menus and their features were explained. The session continued by opening a new blank file and creating a new Concept map. The different methods of creating the connections and linking phrases from the main theme were demonstrated. The options for editing and changing the styles like change in font, font size, color and case, change in connecting directions, thickness of connections, shape of objects, auto layout, creating different new layouts of the Created Concept maps were demonstrated. The step to save and export the concept map as an image, pdf file and as text outline with details of the number of concepts, linking phrases and propositions were demonstrated.

The participants actively involved in the session and clarified their doubts. At the end of the session few participants displayed the prepared Concept maps

The Session ended with Summary of the Session and Vote of Thanks.
