Program Outcomes

Program and Course Outcomes	
Step 1: Obtain course & Program outcomes	
Program Outcomes (PO) (As per NMC Guidelines - 1.8.2023)	
Program Code	Program Name
101	MBBS
PO1	Primary care Physician
PO2	Healthcare Team Leader and Member
PO3	Communicator with patients and family
PO4	Lifelong Learner
PO5	Professional
PO6	Critical thinker
PO7	Researcher
PO8	Digitally literate (As per workshop)
PO9	Developed Holistically (As per workshop)

Clues :

1. Identify the major course competencies given in the curriculum document.

2. Map which of the CO and PO is addressed by the TL activities used in the module Using

- I – Outcomes introduced
- P – Students afforded opportunities to practice
- R – Reinforcement of practiced outcomes

CO		Modules in Obstetrics and gynaecology								
CO No.	CO Definition	Physiology and diagnosis of pregnancy, antenatal care and postnatal care	Medical disorders in pregnancy including high risk obstetrics	Normal and Abnormal labour including operative procedures and postpartum complications	Normal and abnormal puerperium	Gynaecological malignancies	Infertility	Urogynaecology	Contraception and family planning and MTP	Benign gynaecological diseases
CO1	Apply medicolegal principles applicable to PCPNDT Act and Provide periconceptional counselling and antenatal care alongwith identification of complications and appropriate referral of high risk pregnancy.	I/P/R	I/P/R	I/P/R	I					
CO2	Conduct a normal delivery using safe delivery practices in primary and secondary care setting along with recognition of complications and decision of timely referral.	I/P/R	I/P/R/M/C	I/P/R/M/C	I					
CO3	Perform early neonatal resuscitation and provide postnatal care including education in breast feeding	I/P/R/M/C	I/P/R/M/C	I	I/P/R/M/C					
CO4	Understand the principles of contraception, methods and techniques of Sterilization,MTP, counsel and support couple to make correct choice of contraception alongwith application of medicolegal principles as and where applicable	I/P/R	I/P/R	I/P/R	I/P/R/M/C	I	I	I	I/P/R/M/C	I
CO5	Elicit a gynaecological history, perform appropriate physical and pelvic examination to indentify common gynaecological diseases including early detection of genital malignancy and describe principals of management	I	I			I/P/R/M/C	I	I/P/R/M/C	I	I/P/R/M/C
CO6	Community orientation and participation in national programmes of maternal and child health and family	I/P/R	I/P/R	I/P/R	I/P/R	I/P/R/M/C	I/P/R	I/P	I/P/R/M/C	I/P/R
CO7	Assess couple with infertility and understand principles of management in case of infertility					•M/C – Students demonstrate	I/P/R/M/C	I	I	I/P/R

Step 2: Correlate COs to POs										
Course code & name		Program code & name								
CO no.	CO	PO1 Primary care Physician	PO2 Healthcare Team Leader and Member	PO3 Communicator with patients and family	PO4 Life long Learner	PO5 Professional	PO6 Critical thinker	PO7 Researcher	PO8 Digitally literate	PO9 Developed Holistically
CO 1	Apply medicolegal principles applicable to PCPNDT Act and Provide periconceptional counselling and antenatal care alongwith identification and appropriate referral of high risk pregnancy.	3	3	3	3	3	3	3	3	3
CO 2	Conduct a normal delivery using safe delivery practices in primary and secondary care setting along with recognition of complications and decision of timely referral.	3	3	3	3	3	3	3	3	3
CO 3	Perform early neonatal resuscitation and provide postnatal care including education in breast feeding.	3	3	3	3	3	3	3	3	3
