Date: - 3 / 2 / 2023

Based on the discussion of the submitted documents for the scientific and ethical review, we approve the research protocol to be conducted and its presented form subject to the following conditions:

1. Applicable and mandatory regulatory permissions to be obtained prior to commencement of the study i.e. registration at clinical trial registry of India. (www.ctri.nic.in)
2. The investigators and other participants should be adequately trained on the protocol and its related procedures, the Good Clinical Practices (GCP) guidelines prior to commencing the study.
3. Participating subjects should be adequately enlightened about the protocol during informed consent process and under insurance coverage in an event of any trial related injury/accident.
4. Participating subjects should not be put to additional financial burden related to the study protocol.

The validity of this approval is for two years from date of approval. Within this period, the Institutional Ethics Committee expects to be periodically informed about the following:

- The progress of the study
 - Any Serious Adverse Event (SAE) occurring in the course of the study
 - Any significant changes in the protocol/patient information/ informed consent
 - Update on safety of the investigating product or procedure
 - To provide an abridge copy of the final report after completion of the study
5. It is mandatory for the investigators affiliated with other institutions to provide a letter of approval from the Ethics Committee of the respective institution.

Thanking you
Yours Sincerely,

Dr. Shilpa Patel
Member Secretary
