Learning and Evaluation Avenues in Physiotherapy Education (LEAPe)

Preamble

Physiotherapy or Physical Therapy (PT) is a Movement Science with an established theoretical and scientific base and widespread clinical applications in the Prevention, Restoration & Rehabilitation, Maintenance, and Promotion of optimal physical function. Physiotherapists diagnose and manage movement dysfunction and enhance physical and functional abilities. This physical dysfunction may be the sequelae of involvement of any of the systems like Musculoskeletal, Neurological, Cardiovascular, Respiratory, or other body systems.

Learning and Evaluation Avenues in Physiotherapy Education (LEAPe) of MGM School of Physiotherapy, Navi Mumbai aims to bridge the gap between trainers and learners. It is established to develop a creative and effective student-centric integrated learning ecosystem to achieve the Vision and Mission of MGM School of Physiotherapy. Navi Mumbai to attain excellence in Physiotherapy Education.

LIIEP aims to create an innovative and sustainable learning ecosystem, imparting quality teaching technology-related education and training to students and teachers. The unit works towards the development of avenues used in developing educational content and strategy, and utilization of technology with due consideration to generating a learning appetite within the generation Z learners.

Statement of Scope

Learning and Evaluation Avenues in Physiotherapy Education (LEAPe) address individual learning styles with affinities for evaluation, processing and addressing all information regarding content creation, delivery and evaluation in Physiotherapy education.
