- c. is or later becomes part of the public domain through no fault of the recipient party;
- d. is received from a third party having no obligations of confidentiality to the disclosing party;
- e. is independently developed by the recipient party;

6.1 It is recognized and understood that certain inventions and technologies owned by Institution or Sponsor and existing at the date when this Agreement becomes effective are the separate property of Sponsor or Institution respectively, and are not affected by this Agreement, and neither party shall have any claims to or rights in such separate inventions and technologies of the other party. All the new inventions, developments, or discoveries, including patent applications or patents issued thereon, resulting from the Study ("Inventions") shall be promptly disclosed in writing to Company. Institution shall not obtain or attempt to obtain patent coverage on the Study Drug except as set forth herein

6.2 "Invention" shall mean any discovery, concept, or idea, whether or not patentable, made during the conduct of the study, and arising from the performance of the study, including but not limited to processes, methods, software, tangible research products, formulas and techniques, improvements thereto, and know-how related thereto.

6.3 Institution agrees that the Principal Investigator will promptly disclose to its Intellectual Property Committee and to Sponsor any Inventions made by the Institution and/or the Principal

Investigator. It is agreed that all Inventions and any information with respect thereto shall be subject to confidentiality obligations commensurate with those set forth in Section 5.3 herein.

- 6.4 Any Inventions that originate solely with the Principal Investigator, or any other Institution agent or employee associated with this study (jointly or severally referred to as "Inventor") shall be the property of Institution. If Inventor is a co-inventor with Sponsor, its agents or employees, Institution and Sponsor shall jointly own the Invention. Any Inventions that originate solely with any agent or employee of Sponsor shall be the property of Sponsor. To the extent that Institution owns the rights of sole or joint title in any Invention, Company is hereby granted, without option fee other than consideration of the Study sponsored herein and the reimbursement to Institution for patent expenses incurred prior to or during the option period, an option to acquire an exclusive, worldwide, royalty-bearing license to Institution's rights to any Invention, which option shall extend for ninety (90) days after Company's receipt of an Invention disclosure. Upon Company's exercise of the option, the parties shall promptly negotiate a license agreement in good faith. In addition, notwithstanding the above, Institution shall grant to Company a fully paid up, world-wide, royalty-free, non-exclusive license to the Inventions claiming the composition, use or derivative of the Study Drug, including the Inventions that directly relate to the Study drug, and such license shall be of sufficient scope to allow Company to make, have made, use, sell, import and export the Study Drug including a right to sub-license to Company's development partners, out-licensing partners as well as buyer of the rights in the Study Drug.
- 6.5 If Sponsor and Institution fail to enter into an agreement during that period of time, Sponsor shall have a right of first refusal with respect to any terms generally more favorable offered by Institution to a third party for a period of one (1) year thereafter. In the event Sponsor elects to exercise its option to negotiate a license in accordance with the procedures detailed above, it shall be obligated to pay all expenses, including attorney's fees, incurred in searching prior art, obtaining search opinions, preparing applications, filing, prosecuting, enforcing or maintaining a patent or patent application with respect to the licensed invention in any country in which the patent or application is filed.
- 6.6 If any third party claims ownership or rights in any invention in which Sponsor has an interest under this Agreement (a "Conflicting IP Claim"), then Institution may elect not to be involved in any dispute resolution process regarding the Conflicting IP Claim, and if Institution makes such election, Sponsor will not name or include as parties the Institution or System or their Regents, officers, or employees in any arbitration or litigation concerning the Conflicting IP Claim. In addition, if Institution makes the foregoing election, the Conflicting IP Claim must be resolved pursuant to binding arbitration under the then-current procedures of the American Arbitration Association or such other procedure upon which the parties mutually agree, provided, however, that this requirement will not apply if the other party claiming ownership or rights in the invention is not required to submit or does not agree to submit to binding arbitration.

## 7. BIOLOGICAL SAMPLES

- 7.1 "Biological Samples" include, without limitation, blood, serum, fluid and tissue biopsy samples collected from subjects enrolled in the Study. Biological Samples further include, without limitation, any tangible material directly or indirectly derived from such blood, fluid or tissue samples, such as: genes, gene fragments, gene sequences, proteins, protein fragments, protein sequences, probes, DNA, RNA, cDNA libraries, plasmids, vectors, expression systems, cells, cell lines, organisms, antibodies or other biological substances; and any constituents, progeny,

mutants, variants, derivatives, replications, reagents or chemical compounds thereof or derived therefrom.

7.2 Institution's Collection, Retention and Use of Biological Samples. Institution will collect, retain and use Biological Samples in accordance with the Protocol. Institution may collect and/or reserve additional quantities of Biological Samples ("secondary Biological Samples") for use in research not described in the Protocol ("non-Protocol research"), provided that (a) such collection complies with all applicable laws, regulations and acceptable clinical trial practices, including, but not limited to, patient privacy and informed consent laws in the country in which the Study is being conducted, and (b) no Confidential Information or any other information which links the secondary Biological Samples to any Confidential Information is available to investigator(s) for such non-Protocol research (for example, without limitation, Institution may annotate such secondary Biological Samples with Study subject demographic information (e.g., age, gender and clinical diagnosis), but not with information related to administration of, or response to, or adverse events associated with, a Study Drug).

7.3 Sponsor's Receipt and Use of Biological Samples. Sponsor may receive pre-determined quantities of Biological Samples from Institution, as set forth in the Protocol, for use in research as described in the Protocol, provided that such research complies with all applicable laws and regulations, including, but not limited to, patient privacy and informed consent laws in the country in which Biological Samples were collected.

Sponsor will disclose to the Principal Investigator all raw data generated by Sponsor from its research using such Biological Samples ("Biological Samples Raw Data"). Sponsor reserves the right to withhold any such Biological Samples Raw Data on any such genes which are pre-obligated and/or encumbered in some manner. Such Biological Samples Raw Data (i) shall be treated by Institution as Confidential Information under this Agreement, (ii) the Principal Investigator may use such Biological Samples Raw Data for the purpose of generating for non-commercial purposes, a manuscript to be published in a scientific peer-reviewed journal, and (iii) may use such Biological Samples Raw Data for non-commercial research and academic purposes, either within Institution or, with prior written notice to Sponsor, may disclose such Biological Samples Raw Data to academic investigators outside Institution; provided that the Institution provides written notice to the recipient of such Biological Samples Raw Data (with a copy to Sponsor) that such Biological Samples Raw Data is Sponsor's Confidential Information.

7.4 In the event that Principal Investigator desires to conduct further research in collaboration with Sponsor with respect to such Biological Samples Raw Data, Sponsor agrees to consider any such request. Any such further research agreed upon by Sponsor shall be subject to the terms of a separate research agreement.

## 8. GENERAL

8.1 This Agreement constitutes the entire and only Agreement between the parties relating to the Study, and all prior negotiations, representations, agreements, and understandings are superseded hereby. No agreements altering or supplementing the terms hereof, including the exhibits attached hereto, may be made except by a written document signed by the duly authorized representatives of the parties.

8.2 Sponsor and Institution will seek to resolve complaints or grievances arising between them through informal discussion. If a dispute arises out of this Agreement that the parties cannot resolve by informal discussion, the parties will submit the matter to non-binding, advisory arbitration. The arbitration process will be initiated by notice to the other party and will proceed

in accordance with the applicable, or such other procedure upon which the parties mutually agree. The arbitration proceedings will be advisory and will not bind either party. Any costs of arbitration will be shared equally by both parties, without regard to the ultimate disposition of the matter, except for the separately incurred expenses of either party in preparation for the arbitration. The arbitration process itself and any information or disclosure revealed by either party to the arbitrator or to the other party during the arbitration process will be confidential and may not be referred to in any testimony or evidence offered in any subsequent proceeding. The advisory arbitration proceedings will conclude with the arbitrator's issuance of written findings of fact. If Sponsor and Institution are willing to accept the arbitrator's decision, then Sponsor and Institution will execute a settlement agreement that will reflect the arbitrator's decision and which will provide for releases of the claims (i) by Institution to Sponsor and Sponsor's officers, directors and employees, and (ii) by Sponsor to Institution and System and their Regents, officers, and employees.

- 8.3 Parties agree to remain silent on governing law.
- 8.4 Any conflicts between the Protocol and this Agreement are controlled by this Agreement.
- 8.5 This Agreement anticipates educational training and may involve health science postgraduates and other students of the Institution.
- 8.6 Principal Investigator and Sponsor may be parties to a consulting agreement or other outside agreement to which Institution is not a party. Sponsor acknowledges and agrees that Institution has no involvement with or responsibility for these consulting or outside agreements.
- 8.7 This Agreement is subject to, and the parties will comply with, all applicable local, state, federal, national and international laws, statutes, rules and regulations. Any provision of any law, statute, rule or regulation that invalidates any provision of this Agreement, that is inconsistent with any provision of this Agreement, or that would cause one or any of the parties hereto to be in violation of law will be deemed to have superseded the terms of this Agreement. The parties, however, will use all reasonable endeavors to accommodate the terms and intent of this Agreement to the greatest extent possible consistent with the requirements of the law and will negotiate in good faith toward amendment of this Agreement in such respect. If the parties cannot reach agreement on an appropriate amendment, then this Agreement may be immediately terminated by either party.
- 8.8 Notwithstanding any other provision of this Agreement, it is understood that the parties are subject to, and shall comply with, applicable laws, regulations, and governmental requirements and restrictions controlling the export of technology, technical data, computer software, laboratory prototypes, and other commodities, information and items (individually and collectively, "Technology and Items"), including without limitation, and sanctions regulations, all as amended from time to time ("Restrictions") and that the parties' obligations hereunder are contingent on compliance with applicable Restrictions

IN WITNESS WHEREOF, Institution and Sponsor hereby enter into this Agreement, effective as of the date first set forth above, and execute two (2) original counterparts.

**WHEREAS** the Hematopathology Laboratory at ACTREC is studying the immune cell profiling and serum cytokine levels in peripheral blood by Flow Cytometry as well as interaction of inflammatory proteins and their levels in mucosal cells from the nasal/oral swab using molecular techniques such as PCR in COVID-19 patients jointly with Indian Council of Medical Research (ICMR) Immunoprofiling Consortium.

**AND WHEREAS** MGMMCH having the required infrastructure, expertise and facilities, has been designated as a COVID hospital/center **and permitted** to test, admit and treat the COVID-19 patients.

**AND WHEREAS** THE TMC-ACTREC has approached the MGMIHS with a proposal and sought the COVID 19 patient data available with the MGMMCH. The said data will be used to carry out collaborative joint activities/research studies. MGMMCH after due consideration of the proposal, the importance of the research activities to the general public health and well being and considering the urgent need and requirement to undertake the activity, has agreed to participate in the activity.

**AND WHEREAS** the collaboration among the two institutions will provide a unique opportunity to determine immune cell subsets levels, inflammatory serum cytokine levels and proteins related immune response from nasal/oral mucosal membrane as well as their kinetics with SARS-CoV-2 infection status and COVID-19 disease progression over the infection period. The parties are aware that a successful study will develop the unique immune-cell signature specific to the pathogenesis COVID-19 disease and its severity, which will eventually help and assist in better management of COVID-19 patients.

Dear Dr. Shilpi and Dr Sagar,  
Hope you are doing well.

I would like to give you the update of our COVID19 project.

We have enrolled 42 patients from MGM. Patients with only one or no follow-up have been excluded from the study.

The following table shows the details.

Group wise patient enrolment list for COVID-19 ICMR project

	Group	Total enrolled	only 1 time point	only 2 or more time point	complete Follow-up	Final enrollment total
Group 1	Asymptomatic	7	6		3	3
Group 2	Symptomatic (Mild/Moderate)	16	16		2	2
Group 3	Symptomatic (Severe)	15		12	4	12
Group 4	Symptomatic (Severe Sequelae-ARDS Sepsis Septic shock)	25			0	25
	Total	63				42

Currently, we have gathered all flow cytometric data in NNF Bangalore centre (NNF) and it is being analyzed for statistical analysis.

Also, additional serum-based tests are done at NNF.

We are hoping to finish the study in May or June.

I will keep you updated with the progress of the final results of our study.

I really appreciate and thank the MGM team, especially Dr. Sagar and Dr. Shilpi for their active participation and constant help.

my best regards

## SHORT-TERM STUDENTSHIP (STS 2020)

### Proposal Result

**IMPORTANT**- \*The Application Attestation Form (\*AAF) submitted by some of the selected students is incorrect/ incomplete/ signature/ stamp is missing/ not visible clearly or not filled up completely. Only those students will be sent a separate email shortly, to re-submit the correct and complete AAF to ICMR as required. The revised filled in completed AAF should be sent by email to [stshrd2017@gmail.com](mailto:stshrd2017@gmail.com) by 29<sup>th</sup> June 2020 (by 3:00pm).

Please note: If required AAF is not received by 29<sup>th</sup> June, 2020 the selection of the withheld students shall stand cancelled without any further information. In case the Medical/Dental College is not yet opened due to COVID-19, then a letter from the Guide through email is required to be sent to us by 29<sup>th</sup> June 2020 stating the same, with reason.

### General Information

- The final list of students selected for STS 2020 Program is displayed below in order of their STS-2020 Reference ID. **There will be no second list.**  
Please note: Always quote your STS Reference ID for any future correspondence emails to ICMR.  
**DO NOT SEND EMAILS ASKING FOR REASONS OF REJECTION/COMMENTS etc. Such emails will not be entertained or corresponded. (Pl. see STS Guidelines for details).**
- Each application was reviewed independently by group of Experts for its scientific value and selections have been made as per scores obtained.
- In wake of the current **COVID-19 health emergency** majority of Medical/Dental Colleges/Hospitals/Institutes are closed, **therefore the Report submission for STS 2020 will be further decided only once the Govt. of India and various State Govt. decide to re-open all the Medical/Dental Colleges/Institutions.**
- So you may wait until the decision is declared by Govt. of India and various State Govt. and then proceed to carry out the proposed research work for STS 2020, and accordingly ICMR will then upload the revised schedule for STS 2020 Report submission guidelines and timelines.**
- The research carried out by the student must be in compliance with ICMR “Ethical Guidelines for Biomedical Research on Human Participants, 2017” which may be downloaded from ICMR website

[http://www.icmr.nic.in/sites/default/files/guidelines/Handbook on ICMR Ethical Guidelines.pdf](http://www.icmr.nic.in/sites/default/files/guidelines/Handbook%20on%20ICMR%20Ethical%20Guidelines.pdf)

6. **VERY IMPORTANT:** Before beginning the research work, a clearance from an appropriately constituted (as per ICMR Ethical guidelines) Institutional Ethics Committee (IEC)/or Institutional Animal Ethics Committee (IAEC) should be obtained, as applicable. If the Ethics Committee composition is not as per ICMR guidelines, the completed report of the student will not be accepted by ICMR.
7. If the Ethics Committee does not approve the student's project OR does not hold a meeting or the student does not have the approval due to any reason, he/ she should not carry out his/ her research till he/ she receives the approval. **Report on research carried out without ethical approvals shall not be accepted.** In case it is felt that research belongs to exempt category a "certificate of exemption" may be obtained from the IEC and submitted to ICMR along with the report.
8. The Ethics Committee clearance must be obtained at the earliest between **January-September** so that the student gets **at least two month** time to carry out the research and submit the STS report by the deadline given.
9. For all research on human participants/ samples/ data/ retrospective records, an Institutional Ethics Committee approval is required. In addition, an informed consent should be taken from the research participants. In case, it is felt that informed consent is not needed/ cannot be obtained, permission for **waiver of consent** should be obtained from the IEC before initiating research.
10. Research should be completed under the Guide who would take the overall responsibility for the conduct of research, preparation and submission of report and the required enclosures within the stipulated time period.
11. In an event of the Guide leaving the Institute/College before completion of the project, the student may continue work under a new guide from the same department after obtaining permission from Principal/Dean. Permission of the ICMR is not needed, but information should be duly sent to ICMR after getting approval.
12. The decisions taken by ICMR shall be final for all. No correspondence in the matter will be entertained.

**GENERAL ENQUIRIES to be sent through email to [stshrd2017@gmail.com](mailto:stshrd2017@gmail.com)**
