**Report of fitment of Myo-electric Prosthesis to a student of MGMIHS**

**Title:** Fitment of Myo-electric Prosthesis to a student of MGM School of Biomedical Sciences, Kamothe, Navi Mumbai.

**Purpose:** To extend a helping hand to a congenital Trans-radial Amputee student of MGM School of Biomedical Sciences, Kamothe, Navi Mumbai.

**Venue:** MGM Institute's University Department of Prosthetics and Orthotics.

**Date of fitment:** 26/05/2022.

**Departments:** MGM Institute's University Department of Prosthetics and Orthotics, Navi Mumbai and MGM School of Biomedical Sciences, Kamothe, Navi Mumbai.

**Proceedings:**

Mr. Satish Salunkhe, a student of MGM School of Biomedical Sciences, Kamothe, Navi Mumbai is a Trans-radial Amputee by birth. He had taken admission to B.Sc. M.R.I.T in the Academic Year 2019-20.

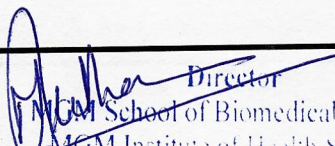

He was performing his activities of daily living quiet smoothly. But as he was a Trans-Radial Amputee, at some stages, he was finding himself incomplete. His incompleteness was observed by Dr. Mansee Thakur, Director of his college.

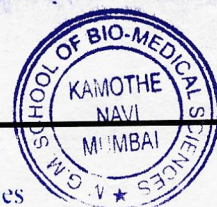

At the same time, a Continuing Rehabilitation Education (CRE) Program on '**Advancements in Myo-electric Prostheses**' was conducted by the Department of Prosthetics and Orthotics at MGM Institute of Health Sciences. In this CRE program, all trainers who fitted artificial hands with high technology and advanced components (Myo-Electric prosthesis) for various patients in India, had arrived from Super Motorica, which is a Moscow based company.

A thought was given to fit this Myo-electric Prosthesis to Mr. Satish Salunkhe who was in need of such support.

Continuing the Gandhian Philosophy followed by MGM Institute of Health Sciences, "To wipe tears from everyone's eye", the Management decided to provide Mr. Satish with this hand and fulfil his deficiency with a realistic Prosthesis!

The measurements were taken in the month of January 2022 and the further procedure of fabrication was started in the month of February. The first trial was taken in the Month of March 2022.

  
Director  
MGM School of Biomedical Sciences  
MGM Institute of Health Sciences  
Kamothe, Navi Mumbai-410 209, India

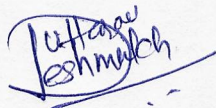

Here, we would like to put forth that because the student is from MGM Institute of Health Sciences (which is very prestigious organization and they did not want to take any kind of risk), the company wanted to fit his Prosthesis only by experts from Moscow. The mail explaining the same is attached herewith.

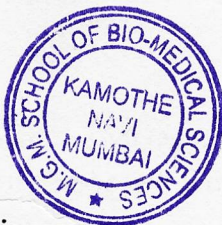

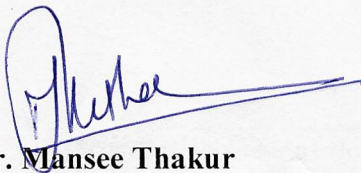

The trials were continuously going on in the following months of March and April, but the department of Prosthetics and Orthotics felt that there was an improvement required with the fitment.

Finally with all the efforts and fine tuning, the final fitment was done on 26<sup>th</sup> May 2022 and the Prosthesis was delivered to Mr. Satish Salunkhe with proper training by the experts of Motorica and MGM Department of Prosthetics & Orthotics.

The Department of Prosthetics and Orthotics is highly obliged to the MGM Trust to provide this opportunity to turn the disability of Mr. Satish Salunkhe to his ability.

To: Uttara Deshmukh <uttara.deshmukh2010@gmail.com>

Dear Mrs. Uttara Deshmukh,

We have successfully delivered the prosthesis and full finished full cycle of training for our user Satish saulank , who is also a bright student and future medical professional .

First of all .

Thank you for your support and being patient with us regarding the delay, As we had requested and agreed by both parties that we would use this case as full cycle of education and training for our students from MGM . Plus we wanted to do the socket design - which is followed and practiced in Europe , We had our main prosthetist who couldn't match the schedule of the installation . but we wanted to use the best professional from our European team as our first case with MGM was really important and of value to us.

I regretted for the delay and would provide you full reassurance about our future step and never again delay in such terms of operations. we faced some barriers , due to raw foreign materials availability and machines as we wanted to make it fully localized and do the installation in MGM campus itself.

Thus , at each stage of installation - We had and did involve all the best professional from Europe for rehabilitation , training with device , technical installation , socketing and fitting installation .

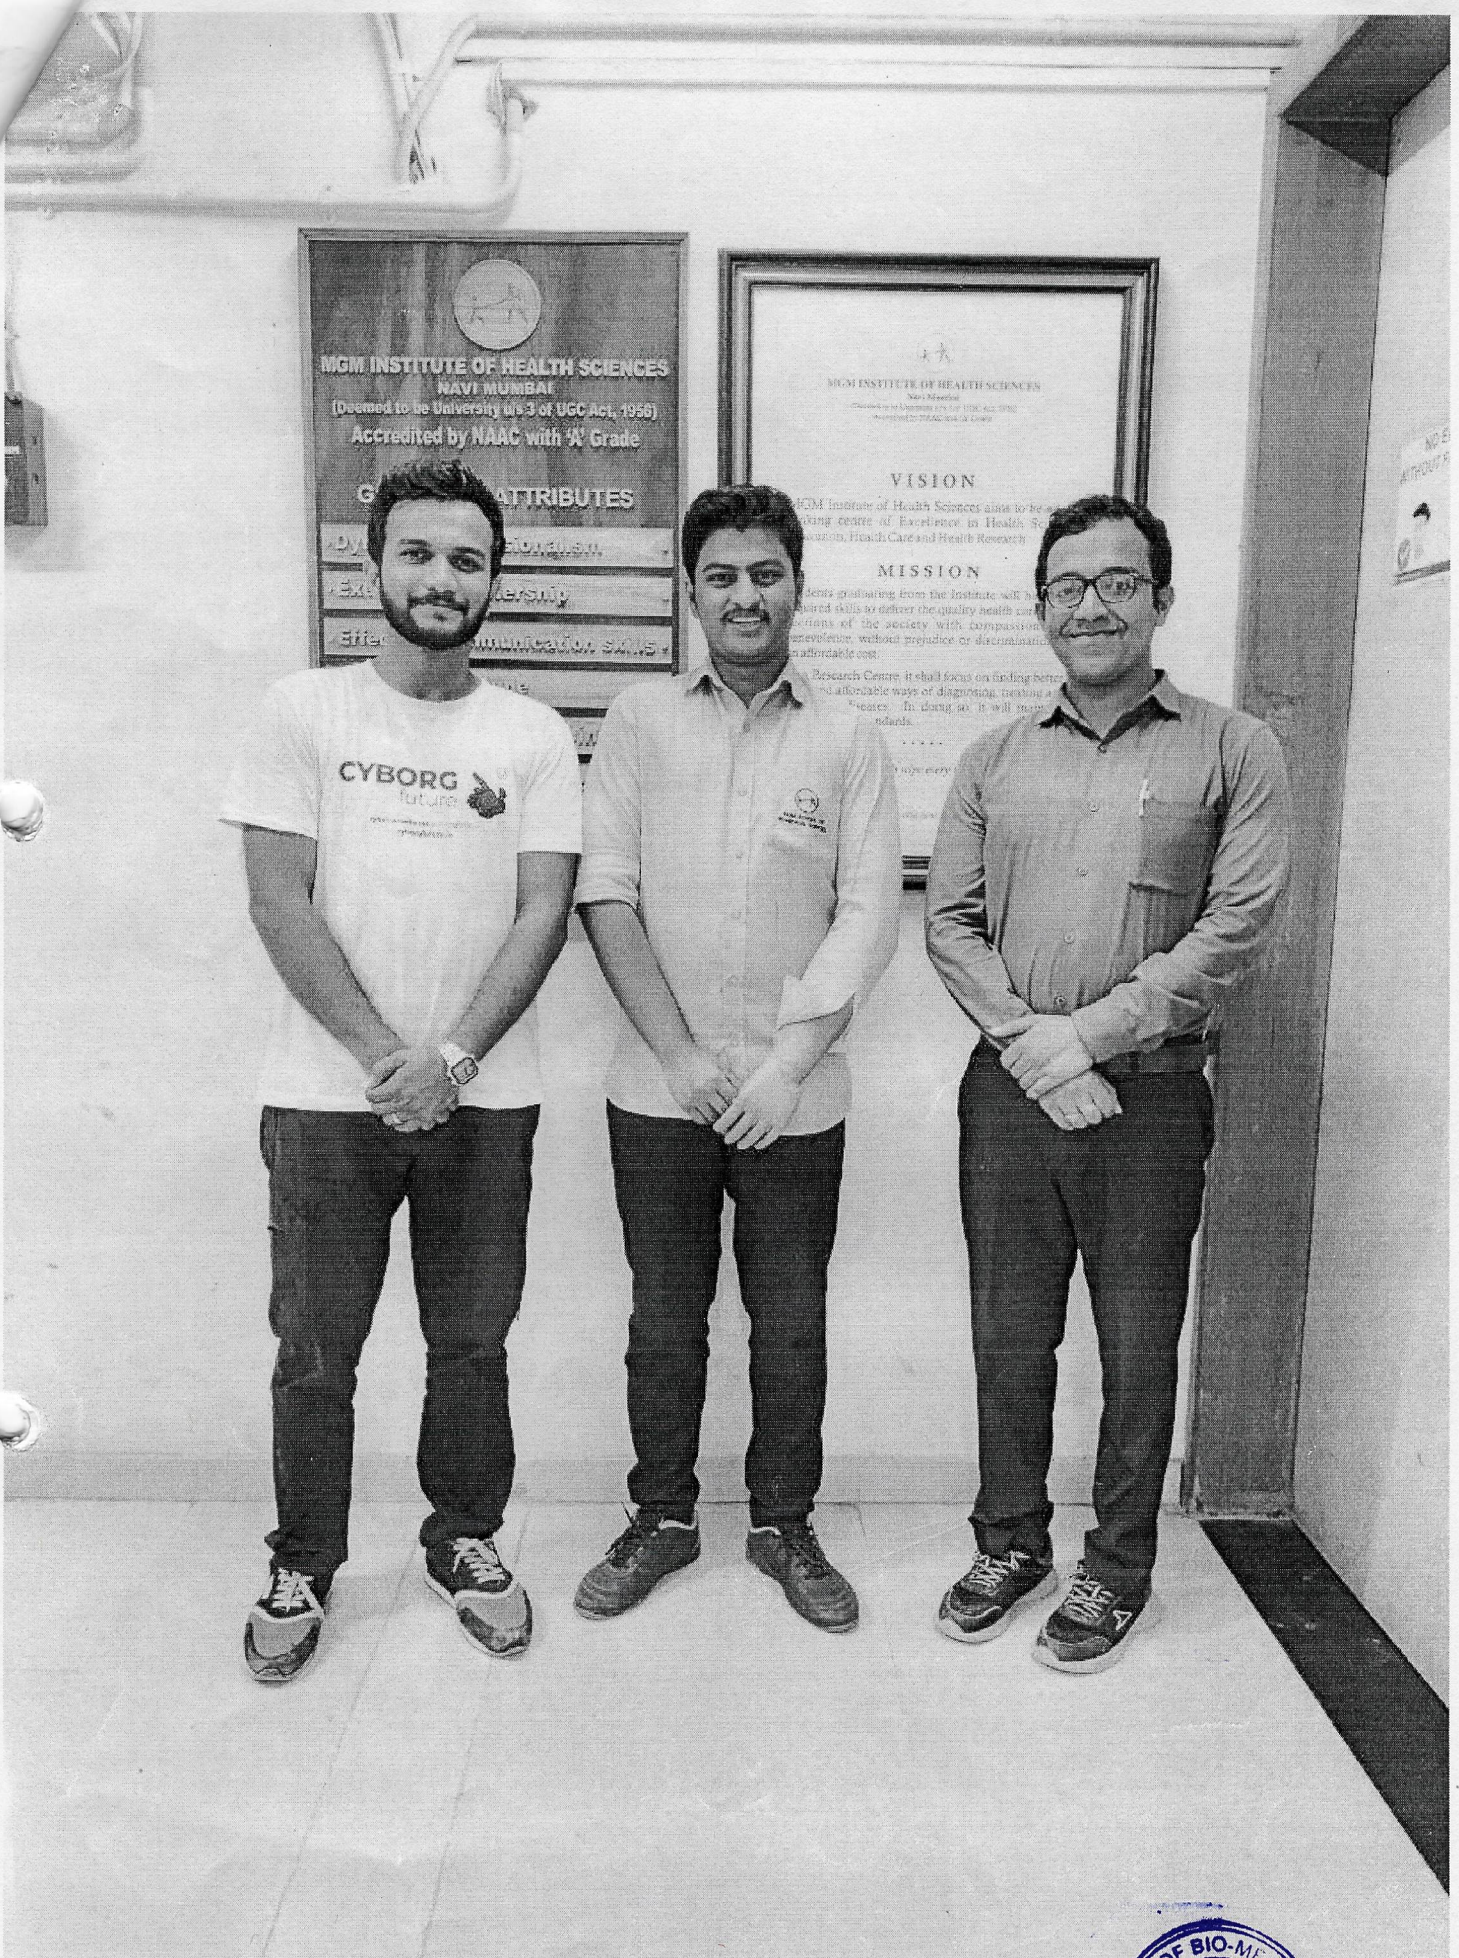

Please find below the actual photo after the stage of final installation and fitting.

Director  
MGM School of Biomedical Sciences  
MGM Institute of Health Sciences  
Kamothe, Navi Mumbai- 410 209, India

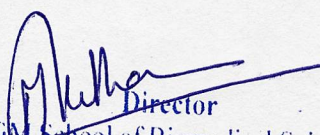

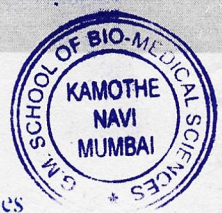

Looking forwards for our next meeting .

Best ,  
Nabil
