## ACTION TAKEN REPORTS ON FEEDBACK ANALYSIS OF PAIN CONFERENCE

A total of 339 responses were taken from the participants of the pain conference in a feedback form. They responded on questions related to (Ease of registration, time allocated for discussions, how did you hear about the conference, a key reason to attend the conference, satisfaction with overall conference experience.) The feedback analysis was as follows - 61.4% of participants were satisfied with the procedure of registration; 54.6% of participants were satisfied with time allocated for discussions, 59.9% of participants have satisfaction with overall conference experience.

There were a few suggestions from the participants of the pain conference which were as follows:

- 1) The conference was good.
- 2) It was overall very informative.
- 3) It was very well organized.
- 4) It was so good to know about pain and case discussion is very interesting and they enjoyed this very much thanks a lot.
- 5) Participants have suggested to start some more such events/ FDP (may be online or offline), in the future.

This feedback was discussed in the meeting held by members of continuous learning centre and it was decided in the meeting that based on this feedback a Rethink Pain CME will be organized for continuous learning. The Rethink CME will be scheduled on 15<sup>th</sup> June 2022.

Very informative session

No any

Very well organised

It's all so good to know about pain and case discussion is very interesting i enjoyed this very much thanks alot

Very good session

Start some FDP may be online, more such events so that it doesn't vanish

It's good

It was very knowledgeable

Good topic for conference

Send the joining link earlier. There were some email issues and I only received the joining link by 2 pm. I couldn't attend any of the lectures which was very dissatisfying for me. Also, after I won the paper presentation award, usually conferences give a refund to the winners to encourage them, but that wasn't there in this conference which is quite upsetting to me.

It was amazing conference as well as some new exploration regarding pain

Very well organised..

Hoping to attend many more such conferences organised by the same institute.

Not at all

It was very informative.we learnt a lot.Thank you all.

Good session n informative

Time management

Best experience

Presenters were not able to attend the sessions completely .

NA

All was good it was very informative

Good conference

Looking for more innovative conferences

No other suggestions

Kindly include Paediatric population pain topic

Nice one

No suggestions

Not any

Overall the conference was really very well conducted and presented but it would have been easier if it was presented on YouTube through zoom

More such conference

Much knowledge based and more needed in future! Keep it up!

Very informative conference

It was very beneficial for us

No suggestion

Presenters were not able to attend complete lectures

The conference overall was good and informative and conveyed the points regarding all the topics in a very efficient manner.

Such a nice and awesome experience with this conference

Informative webinar

No suggestions conference was great.

Excellent

This conference was very knowledgeable..

It was extremely informative

Best

Good one.. Next time to arrange more on physiotherapy point of view

Overall all the sessions were very nice and informative. Got many new concepts to learn.

Very informative

No all things are very nice and proper ,and I learn very interesting things from conference

It was nice

It was good and informative

Needed some more clinical examples and explanations

Informative

.

It was very informative

No suggestions

-

Had a unique and new experience regarding the advance studies in pain

Good

Can conductore in the future, keep it short

Overall excellent session

None

It was good

The pre and post survey were very lengthy. Thank you.

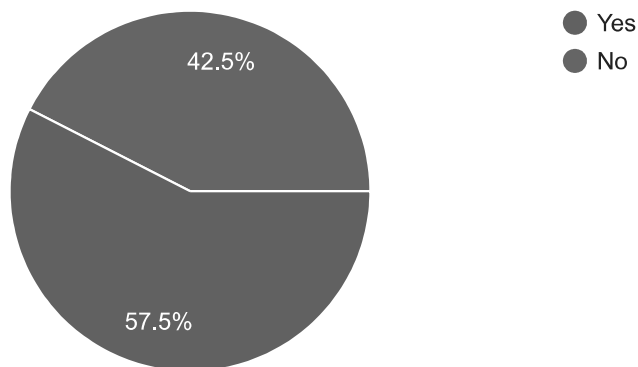

Please conduct such conference in the future
