Report of Demonstration of Advance Myoelectric Technology

Name of the event: "Demonstration of Advanced Myoelectric Technology"

Purpose: To give information about the Advancement in the Upper limb Prosthetic management field.

Location: Department of Prosthetics & Orthotics, MGMIHS, Kamothe, Navi Mumbai. .

Date: 26th May 2022.

Time: 12:00 PM to 01:00 PM.

No. of attendees: 01 faculty and 16 students.

PROCEEDINGS OF THE EVENT:

The Programme started with the warm welcome to all students by Ms. Valerie (Prosthetist & Orthotist) of Motorica Moscow private limited. She presented the Advanced technology of Myoelectric Prosthesis and it's function of Motorica Prosthesis to students through Power Point presentation. Each batch of students experienced the Assembling and disassembling of Myoelectric Prosthesis which was beneficial for all.

Students asked various questions about the program and she solved all the queries of students regarding the mechanism of Myoelectric Technology use by Motorica with proper interaction with Students.

Date: 10th December, 2021

Demonstration of Bionic-Hand to the BPO students.

Agenda: To upgrade the knowledge about Myoelectric Technology in the Prosthetics.

This is to inform all the students that, MGM Institute's University Department of Prosthetics & Orthotics is organizing a demonstration of Bionic-Hand Prosthesis on 11th December 2021.

The Details are as follows:

1. **Date:** 11th December 2021, Saturday
2. **Time:** 10.00 AM to 11.00 AM
3. **Venue:** Academic Section, MGM Department of Prosthetics & Orthotics.

Note: It is essential to be aware about the Technology of Bionic-Hand Prosthesis.

Hence, students are informed to join this program compulsory.

Report of Bionic Hand Prosthesis Technology Demonstration at MGMIUDPO.

Name of the event: "Demonstration of Bionic Hand to the BPO students".

Purpose: 1. To demonstrate practical knowledge of Robo-Bionic Prosthetic Technology.

2. To educate students about the future prospect of Myoelectric Prosthetic technology in the field of Prosthetics and Orthotics

Location: Academic Section, MGM Department of Prosthetics & Orthotics.

Date: Date: 11th December 2021

Time: 10.00AM TO 11.00 AM

No of attendees: 23 Students, 5 Faculties.

Proceedings of the event:

Myoelectric Prosthetic technology is the most advanced, useful and demanding technology for the rehabilitation of Upper Limb Prosthetic management. To develop the academic industrial relationship, MGM Institute's University Department of Prosthetics & Orthotics organized a session on "**Bionic Hand-Prosthetic Technology**" in association with Robo-Bionics Pvt. Ltd on 11th December 2021 at MGMIUDPO.

The program was started with warm welcome of **Mr. Osden Mascarenhas (Co-Founder & CEO), Robo-Bionics** and explanation about the theme of the program to the students by **Dr. Uttara Deshmukh (P&O)**, In charge Principal, MGM Institute's University Department of Prosthetics & Orthotics. The program was continued with demonstration by **Mr. Osden**. He proceeded with the demonstration of Bionic Hand Prosthetic function and its working mechanism.

After the demonstration the students interacted with Mr. Osden and he solved all the doubts and gave solution to their queries related to this technology. He also advised about the formation Start-up Company and its management and shared his experience till date.

All students practised for the learnt technology within them which was an amazing experience for them. The students and faculties benefited by upgrading their knowledge through this session.

Report of Continue Rehabilitation Education (CRE) on “Prosthetic Management of Hip Disarticulation Amputee”

Name of the event: **“Prosthetic Management of Hip Disarticulation Amputee”**

Purpose: To give information about the casting and modification technique and advancements in the hip disarticulation Prosthesis.

Location: Department of Prosthetics & Orthotics, MGMIHS, Kamothe, Navi Mumbai and lecture hall MGM dental college Kamothe, Navi Mumbai.

Date: 7th October and 8th October 2022

Time: 09:00 AM to 05:00 PM.

No. of attendees: 6 faculties, 53 students and 6 professional (RCI registered).

PROCEEDINGS OF THE EVENT:

The Programme started with the warm welcome to all the dignitaries and chief guest by Dr. Uttara Deshmukh (P&O), Head of the Department, MGMIUDPO. She has introduced all dignitaries and chief guest to the students and professionals.

Dr. K. R. Salgotra, the Hospital Director and an esteemed Orthopedic Surgeon, delivered a captivating introductory speech at the Continuing Rehabilitation Education program held by MGM Institute's University Department of Prosthetics and Orthotics. The focus of his speech was "Prosthetic Management of Hip Disarticulation Amputation." Dr. Salgotra highlighted the paramount importance of this topic in restoring mobility and enhancing the quality of life for individuals facing this unique challenge. He emphasized the significance of innovative approaches and advancements in prosthetic technology that enable patients to regain independence and embrace life to the fullest. The speech set the tone for an enlightening and insightful program.

Dr. Gautam Jain, the highly esteemed Senior Prosthetic Consultant at Endolite India Pvt Ltd, New Delhi delivered a captivating speech during the Continuing Rehabilitation Education program. The focus of his presentation was on the "Prosthetic Management of Hip Disarticulation Amputation."

MGM INSTITUTE'S UNIVERSITY DEPARTMENT OF PROSTHETICS & ORTHOTICS

Email: mgmudpo@mgiuhs.com | Website: www.mgmudpo.edu.in

During his speech, Dr. Jain provided a comprehensive demonstration of the various stages involved in the assessment and prosthetic management of hip disarticulation amputees. He began by emphasizing the importance of accurate measurements and casting, highlighting how these initial steps lay the foundation for successful prosthetic fitting.

Dr. Jain went on discussing the crucial process of modification, wherein he explained the significance of aligning the prosthesis with the patient's residual limb to ensure optimal comfort and functionality. He delved into the intricacies of socket fabrication, elaborating on the materials and techniques employed to create a customized socket that accommodates the unique needs of hip disarticulation amputees.

The highlight of Dr. Jain's speech was the live fitment demonstration on a hip disarticulation amputee patient. He skillfully showcased the step-by-step procedure, providing valuable insights into the challenges faced and the solutions devised to ensure a precise and secure fit.

Overall, Dr. Gautam Jain's speech was an invaluable learning experience, offering Prosthetists and Orthotists a comprehensive understanding of the prosthetic management of hip disarticulation amputees. His expertise and practical demonstration underscored the importance of accurate measurements, casting, modification, socket fabrication, and live fitment in enhancing the rehabilitation process for this specific patient population.

Various presentations on recent advances in the prosthetic technology for hip disarticulation amputation were given by Dr. Deepshikha Raut and other P & O professionals.

Students asked various questions about the program and speakers solved all the queries of students regarding the prosthetic Management of hip disarticulation amputation.
