About World Spine Care

World Spine Care (WSC) is a multinational not-for-profit, charitable organization founded in 2008 by Scott Haldeman MD, PhD, DC, a leading figure in the assessment and treatment of spinal conditions. It was launched to fill the profound gap in the evidence-based treatment of musculoskeletal and especially spinal conditions found in underserved areas around the world.

Our Values

Sustainable: To empower local governments and communities to assume control of their spine care programs in collaboration with WSC.

Evidence Based: The emphasis is on evidenced based, integrative care.

Education: Educating the community and local health professionals.
